THE HEALTH **BOARD MEETS**

Last Session of the First Year of the Organization.

INCREASED DEATH RATE !

There Were Forty-Four Deaths in the Town During the Past Two Weeks,

Dr. Spalding's Term Expires.

A regular meeting of the Board of Health was held in the Council chamber ast night, with Messrs. Spalding, McHale and Miles present. The report of the ecretary and epidemic committee showed that during the past two weeks there were forty-four deaths in the town, but only one contagions disease in existence. The nuisance committee reported hav-ing visited in company with the sanitary committee a number of places complained of by the Health Officer and found them in an extremely fifthy condition. President Spalding stated that every-thing was in readiness to punish offenders and the Health Officer was instructed to proceed vigorously hereafter. Health Officer Miles made a lengthy re-port with special reference to overflowing privy wells and showing that many people who have heretofore been slow in obeying the manitary regulations had stepped up to the mark. were forty-four deaths in the town, but

who have heretofore been slow in obeying the sanitary regulations, had stepped up to the mark. The following additional report was made: "Nuisances of ashes and garbage on East Raspberry alley cleaned ; condi-tion of yard on North Main street im-proved, water in cellar on East Apple alley, ash bin at corner Coal and Jardin streets cleaned out; waste water on West Line street slopped; pigeons in garret on East Centre street removed; ashes taken out of Runyan property on North Main street; complaint unde against garbage and ashes corner Jardin and Oak streets; objectionable drain on West Centre street repaired; and oyster shells taken from a cellar on West Centre street repaired; and oyster shells taken from a cellar on West Centre street street is out of lase on account of their being a question as to the proper publica-tion of the rules and regulations, but that question is now disposed of and President Spalding announced last night that there will be no more delays in entaring prose-cutions where the heaith laws are violated. Last night's meeting was the last of the old Board of Heaith, and as Dr. Spald-ing's term expires, the Borough Council will be obliged to either re appoint his successor at their next regular meeting, which will be held on Argust 2nd. The Board of Heaith will meet for re-organization and annual election of offi-cers on Monday, Argust Ot. The Board of Heaith will meet for re-organization and annual election of offi-cers on Monday, Argust Ot. The Board of Heaith will meet for re-organization and annual election of offi-cers on Monday, Argust Ot. The Board of Heaith will be held on angust 2nd. from and a motion made to lay the lat motion on the table. Both motions suited in a tie vote, Mr. Hill and the P suited in a tie vote. Mr. Hill and the F ulists acting with the Republicans in a effort to get a direct vote of the senare Mr. Washburn's motion. Intense exc ment prevailed owing to the closeness the vote. In case of a tie the motion lost according to parliamentary law. T failure to sustain the chair on the app propublit the senare to the direct vote brought the senate to the direct wote the Washburn motion. Upon the result hinged perhaps the fi

of the measure. But, though the Rep licens scored the victory in securing vote on the one eighth differential, it veloped that they had no reserve streng and the vote on the Washburn moti also resulted in a tie, and consequent was lost. All the Democrats save M Hill and Mr. Irby, who was paired in f yor of striking out the one-sighth, stoby the caucus agreement, and vot against the motion. The Republicans al presented a solid point, Mr. Quay, w voted for the one-eighth when the b was in the senate, joining with his c leagues in the hope of beating the bill the indirect method. The three Populis acted throughout with the Republicans

After these votes no attempt was ma to delay matters, and the resolution a further conference was agreed to wi out division. The chair then reappoint the conferees, Mesars. Voorhees, Jone Vest, Harris, Sherman, Allison and Al rich, and the senate, after transacting little routine business, adjourned un Monday.

The general impression about the s ate is that the conference now agree upon will not be so prolonged as was t former one. Some senators are of t opinion that the committee will agree a report within two or three days aft the sittings begin or within that time of the strings regnt or wrint that the the cide to report another disagreement. T preponderance of opinion is, howev, that there will not be another report disagreement. In fact, the Democra-conferees assert that another disagre-

ment means the defeat of the bill. The indications all point to the prob bility that the sugar schedule again w be the principal point of contention, a that but for the differences on this po an agreement would be reached after brief sitting. very

There was not a quorum of members the house yesterday at any time, and the business transacted was by una mous consent. Only once was there hitch in the smooth running congression machinery and in this case advanta was taken of the absence of a quorum prevent action on a bill. The message a nouncing that the senate insisted on amendments to the tariff bill, and agre to the request of the house for a furth conference, was received by the house 3:15 p. m. without giving rise to a demonstration.

ODDS AND ENDS.

A Cluster of Interesting Gleanings Mingled With a Few Comments.

A stay-at-home Councilman remarked sterday that it was a downright shame that such a large party should have accompanied the viewers to the Torbet and

companied the viewers to the roybet and other lands contenned for the pub-lic water works and that one Councilian could have done just as much on the trip as a half doren. This sentiment is all right, but the proper place to express it is in the Council Chamber and other places before the junits are over.

Priore the judits are over. Private information from Wilkes-Barre gives assurance that Prof. Barrell, if the Lehigh University, and Robert S. Merour, of the Lehigh Valley engineer orps, did not suffer as much in the mins ucident as was at first reported. Both vill probably be around again in a week, dr. Mercht's ankle is not broken, but prained. ined

will probably be around again in a week. Mr. Merchr's ankle is not broken, but oprained. Some of the Councilmen are very confi-dent that they have the hull (Coutroctor Quinn) by the horms, but there are a large number of citizens who are convinced to the contrary. Mr. Quinn and others may have made many verbal statements which if proved in court, would be valu-able ammunition for the borough's side of the cose, but there are some lawyers who say it is a very hard thing to get behind a written contract and change the com-plexion of its face by proving verbal agree-ments which it is claimed have a bearing upon it. In the suit with the old water company years ago when the borough was sued for the first plug water rent the berough officialis were confident that they would defeat the claim, but it didn't. The Council's minute book was relied upon for the knock out blow, but even that went back on the authorities as a very important word had been omitted by the sum who wrote the minutes, and that one word proved a boronerang. The Councilment thermselves must see that the confidence of the public in the new water works project is badi when on the strock stilly informed as possible on the progress of the work. If there is a necessity for any were reassions iver the newspaper men ample opportun-ty to knep the public as fully informed as possible on the progress of the work.
