

The White Hearse With Its Tiny Casket.

Infants Are Fast Dying of Cholera Infantum.

How the Dread Disease May Be Prevented.

Lactated Food the Best Diet in July.

Mothers and Physicians Recommend It.

One can hardly take a walk these days, says the Boston Globe, without encountering a funeral.

Half the deaths in July are those of children under five years. Year in and year out a third of all who die are infants.

The effect of the summer heat upon the health of the baby is fearful.

Yet the intestinal disturbances, which are attributed to the weather, actually arise from errors in diet, from absolute purity in food—perfectly preventable causes.

"If all the babies were fed on a diet sufficiently nutritious and absolutely pure," says a member of the Board of Health, "there would be no such thing as cholera infantum." The weekly returns which physicians are obliged by law to make at this office show no infant deaths from summer diarrhea among babies who have been fed on a diet of pure lactated food.

Healthy mothers' milk is unequalled, but the mothers who are capable of nursing their children throughout the entire summer are rare, not only in Boston, New York and the other cities, but also in the country. When this natural food is insufficient, or the mother not well, or when recourse must be had to nothing but cow's milk, without personal knowledge of its fitness for the baby, trouble occurs. When the breast milk is insufficient the baby should be put at once upon lactated food.

Mothers of large families, and physicians of experience everywhere, say that for perfect security against summer complaints, cholera infantum and intestinal disorders, there is one diet that never fails: Feed the baby on lactated food during the hot months, attend carefully to its regular feeding, and keep all dishes clean and thoroughly scalded.

Mothers may in this way dismiss all anxiety, as lactated food itself is free from any possibility of contagion, and will nourish the little ones as nothing else can.

Thousands of infants whose mothers have been sickly have thrived and grown to be strong children upon lactated food, which is as pure and healthy as the air among the Vermont hills where it is made.

Many a mother, too, has been strengthened by using it. The principal element of mother's milk is sugar of milk. This is the basis of lactated food. With it is combined the nutritious elements of the great cereals, wheat, oats and barley, so prepared as to be readily digested and assimilated. The addition of the salts found in mother's milk makes lactated food a perfect substitute.

Many mothers find that nothing else agrees with their children. Lactated food works marvels with little ones who are puny and pale. A week or two suffices to show its splendid effect in brighter eyes, fairer skin, livelier manner and a steady gain in weight.

Lactated food saves babies' lives. It is the surest preventive in the world of cholera infantum. It is within everyone's reach, and is so inexpensive that no mother ever had a real excuse for not using it.

A horse kicked H. S. Shafer, of the Freemeyer House, Middleburg, N. Y., on the knee, which laid him up in bed and caused the knee joint to become stiff. A friend recommended him to use Chamberlain's Pain Balm, which he did, and in two days was able to be around. Mr. Shafer has recommended it to many others and says it is excellent for any kind of a bruise or sprain. This same remedy is also famous for its cures of rheumatism. For sale by Chamberlain Bros.

CONVICTS USE DYNAMITE

A Deputy Warden and a Prisoner Killed in a Tennessee Mine.

NASHVILLE, Tenn., July 28.—The convicts at Tracey City are in a state of mutiny, and as a result two men are dead and two others are suffering from wounds. Yesterday afternoon the convicts loaded a pipe with explosives, placed it in a coal car and attached a slow fuse to it. Deputy Warden Nelson and assistants were passing along another entry to bring the convicts out for the night, and when they arrived opposite the bomb it exploded.

Nelson was instantly killed, and Guards Terrell and Tharman slightly wounded. A negro convict named Pate Hamilton was killed by a volley from the other convicts. There were 115 convicts in the mine at the time, and all but seventy survived. Those remaining inside and over, they will not come out.

Nelson was a member of the last general assembly from Maury county. The state officials here were at once notified and they in turn telegraphed Superintendent of Prisons Kirk, at his home in Chester county, to go at once to Tracey City. Telegrams late today say that it will probably be necessary to send troops. Escapes were probably the object of the mine.

The teams were raided by the strikers and stoned, and shots were fired at the drivers. The deputies did not return after, preferring to avoid a conflict.

Discouraging Prospects in Kansas.
OPEKA, Kan., July 28.—Railroad Commissioner John Hall, just in from the west, says that unless rain falls within forty-eight hours there will be no corn in that section. Mr. Hall says the hot blast has affected all kinds of vegetation as far east as Wamego, in Pottawatomie county. Equally discouraging reports issue to come from the northwest.

It was proved to the satisfaction of the governor, by the testimony of businessmen in Howell, Mich., that the signature that was alleged to have been forged by Whiteman was genuine. Whiteman will be given his liberty.
