THE condition new confronting the President does not admit of any theory of tariff reform nor of any practice of Exscutive consistency.

GLADSTONE Is losing his sight, but is still remarkably strong and vigorous both mentally and physically. He may therefore yet prove a liberal blind Samson to pull down the temple of the Conservative hopes.

It was really enough to make a horse laugh to see Senator Caffery trying to ex plain how it was right to protect sugar and to at the same time deny all protection to wool and other products not raised

SENATOR HILL may as well advise his new client that the Democratic party cannot meet its tariff obligations and must go into liquidation as utterly insolvent in principle and fit only to be closed out to the highest bidders among the Trusts.

Ex-Nov. FIREH in his speech at the Illi nois Republican convention made an ap remark when, in describing the result of the work of the Democratic leaders, he said: "They carry a kiss for the American laborer's cheek and a dagger for his fifth rib."

Sommony predicted that Saturday would be the hottest day of the season and somebody was right, although there is reason to believe that the prediction itself was responsible for many of the somplaints made.

Our really can't fully appreciate the ignorance and cruelty of "Darkest Rus sia" until he reads such stories as that of the mob preventing the burial of cholera victims and forcibly carrying patients suffering with that disease out of the bospitals.

As THE Senate committee on territories has agreed to report in favor of the admission of Arizona and New Mexico, it looks as though Uncle Sam would have to make a requisition shortly on the heavens not for one star only for Utah but for a small constellation to fill up the vacant spaces on "Old Glory."

WHEN employes at the Almshouse be gin to commit assaults upon the Direcfore of the Poor it is time they were given a lesson in subordination. Whether the charges against Mr. Day are true or false the Board of Poor Directors cannot withhold action in the matter, or otherwise sanction the assault made by Fireman

THE first year of the Board of Health has just closed. May the second year giose with as fruitfuf results. Every step of the Board has been characterized by conscientions and determined effort, and those who were at one time inclined to ridicule and discourage the members have been steadily won over, and are now among the most enthusiastic admirers of Mah

So over one hundred majority the antianarchistic bill was passed by the French
Chamber of Deputies. The bill is drastic
in all its parts, and indicates very clearly
a determination on the part of the French
suthorities to stamp out anarchy if such a thing be possible. There was, in fact, no other feasible course to pursue. The Anarchists are not readily turned from \$500 for any incurable case.

their purposes. Not a few of them court death, if necessary, to accomplish their wicked purposes, and when so disposed should be accommodated. American authorities should consider well the action of the French Chamber of Depu-Prograstination in such matters only renders the situation more perilous. therefore the sooner vigorous and deter mined measures are resorted to the better.

ANOTHER DEADLOCK

Predicted in Congress on the New Tariff Bill.

CONFEREES DETERMINED.

It Is Said That the Representatives of Both the Senate and House Will Insist on Their Different Verms, and That an Agreement is Impo.

WASHINGTON, July 30 .- The proceedings in the sonate during the present week will depend largely on the conference the tariff bill. If they should reach a con clusion during the week, as every one ex pects they will, the report will be made to the senate, that body having granted the request for a conference, and the re-port will be taken up at the first oppor-

Whatever the nature of the report, there is sure to be more or less debate upon it. Even should the senate bill be accepted in its entirety by the house there will be some speeches on the part of the tariff leaders, and possibly other senators, though in this event there would be a general disposition to curtail them both in length and number on account of the desire which is felt in all quarters to bring the session to a close at the earliest possi

This disposition would not be allowed control in case the report should indicate any material concessions to the house In case of reductions on either coal, iron ore or sugar there are Democratic senators who would resist the request, and another family quarrel on the floor of the senate would be the inevitable result. There are also Democratic senators who would make a strenuous opposition to material changes in the metal, woolen and cetton schedules, and the Republicans would in the latter event be found participating. It is not probable that Senator Quay will submit quietly to any important modification of the metal schedule, nor that Senator Aldrich would permit changes in the rates on woolens to be made without entering a vigorous protest, and the result would be a prolongation of the debate, with the end of forcing a return to the senate rates. It looks very much like a deadlock un-

less the house conferees yield, as there is no indication of any purpose on the part of the senators to do so. The senate conferees talk frankly about the situation, and plant themselves firmly upon the preaposition that the sentiment in the senate is such that it must be the senate bill

The full conference between members of the two houses, with Republicans as well as Democrats present, will be held this afternoon, when it is presumed the senate conferees will be informed of the decision of their house colleagues on the senate ultimatum of Saturday.

The decision which the senators are awaiting, it is asserted, will be a flat re-fusal on the part of the house conferees to yield to the senate demand in whole or in part. The determination to give this negative response has been agreed on def-initely by the house conferees. It had been expected that the intense feeling of the last week would clear the atmosphere and lead to some common ground of agreeement, but when the house conferee sugar, coal and iron they assumed an aggressive and determined stand. At their meeting each of the four house mempers were asked to state if his views had changed in any way since the former con ference. It developed that not one of the four had modified his views in the slight est. They were, therefore, a unit in de clining to accede to the demand of the four senate conferees.

The first days of the week will be given up to the sundry civil appropriation bill This bill always arouses more or less de bate. The bill this year will probably prove no exception, and it is likely that two or three days will be devoted to it up ess it should be sidetracked by the tariff With the sundry civil bill disposed of the general deficiency bill will be the only ap propriation bill remaining unacted on by

No plan of proceedure has been arranged for the house of representatives, as Speaker Crisp wants to keep the way clear for the tariff bill if an agreement can be reached. on not for the week in th Funaton-Moore contested election case on Wednesday. The petition circulated by Mr. Springer for a Democratic caucus to-merrow at 3 p. m. is likely to cut an important figure in the week, unless Springer Crisp and other leaders succeed in having the caucus abandoned. Much feeling has arisen over the cancus, as it is construed as a reflection on the house conferees. The latter are up in arms, and there is promise of a warm personal controversy if the caucus is held.

Pive Hundred Tribeamen Killed. Paris, July 30.—A dispatch from St. Louis, Senegal, says that a force of natives led by Ali Kari, a Marabout who re-cently preached at Jehad, in Badlagara, made an attack upon the French force The latter repulsed the natives, and, following up their advantage, captured their stronghold. Ali Kari and 500 of his sup-porters were killed. One European and eight natives on the French side were killed. Six officers, fifteen Europeans and 138 natives, were wounded.

A Mountain Raised by Dynamite ALLENTOWN, Pa., July 30. - Twelve thousand tons of rock were loosened by a blast made in a quarry at Egypt, this county. Twenty-two holes were bored into the side of the mountain aggregating 196 feet, and into the holes were placed a top and a half of dynamite. The whole mountain was raised several feet into the air and fell back again.

Abandoned the A. B. U. MINNEAPOLIS, July 30. — The strike among the stevedores at Gladstone, Mich., was ended yesterday by the men abandening the American Rallway union and turning over their cards of membership to Superintendent Kellie. Some of the more turbulent of the leaders were not permitted to work.

Caught Cutting Telegraph Wires. New York, July 30.—Emil Blum, a erman, caught cutting Western Union legraph wires in the subway at Twenty fifth street and Broadway, was held in \$500 bail for trial. He resolutely refused to tell the motives of the gang of tele-graph wire cutters to which he said he

THREE BROTHERS ASPHYXIATED.

8ad Death of Little Children Who Locked Themselves in a Closet.

HARTFORD, Conn., July 30.—Raymond, aged 9; Leroy, 7, and Freddie, 4, the children of James W. Canlon, a locomotive engineer on the New York, New Haven and Hartford railroad, who had been missing since Thursday afternoon when they want to bathe in the Conception when want to bathe in the Connectiont river, were found dead yesterday in the closet of a freight caboose standing on a side track near the round house, not 300 feet from their home. After numerous searches for two days, Chief of Police Bill ordered the freight, care, and relieved presents freight cars and railroad property searched, and two policemen were drawn to the caboom by the smell of decompos-ing flesh. In the trainsmen's closet, shut by a spring lock, they found the three bodies entirely nude and badly decom-posed. The inquest by Medical Examiner Fuller disclosed no evidence of four play, and he gave a verdict of accidental death by asphyxistion. The caboose was newly painted and the children went in it to play, a pack of cards being found in the closet. It is supposed they closed the door and sould not open it, and soon suffocated in the stifling hot air of the nar-

Emissaries from Lilluokalant Chicago, July 30,-Messra. H. A. Wide-man, Samuel Parker, J. A. Crimmins and Major Seward passed through Chicago last evening or route to Washington from Honoiulu. Mr. Wideman, speaking on behalf of the party, and they bore credentials from the ex-queen to the Washing-ton government. He declined to make the object of the commission known, but stated "that the cat would be out of the bag" soon after their arrival in Washing-ton. "In a general way," he said "our mission is for the good of the islands, no matter what is the government, monarchy, provisional or republic." Mr. Wideman seemed in doubt as to the official reception of the party in Washingon, but hoped to be able to reach the ear of the president.

Fourteen Hours in the Water. Boston, July 30 .- The schooner Cactus has arrived here from Baltimore, coal laden. Captain Wiley reports that on July 29, when off Cape Henry, he picked up a man from the water. The rescued man gave the name of George Moore, and stated that he had been a stowaway on the Johnston line steamer Templemore from Liverpool to Baltimore. When the steamer neared Cape Henry Moore secured a life preserver and jumped overboard, hoping to swim ashore. The currentswept him seaward, however, and he had been in the water fourteen hours when res

Death of James Mulligan.

MAYNARD, Mass., July 30.—James Mul-ligan, of "Mulligan Letter" fame, died here, aged 61. The Mulligan letters were written by James G. Blaine to Mr. Fisher, and related to the dealings in railway land grant stocks and bonds. In the spring of 1876 they were published by being read in congress by Mr. Blaine, Mr. Mulligan having preserved them. The result of the investigation had a profound effect, and greatly injured Mr. Blaine's chances for the presidency.
