Oven in China school teachers are held responsible for the misdeeds of their scholars, and if one commits a murder the teacher is made to suffer equally with the criminal, because he did not teach him better. There they take their lives in their hands, while over here they take nothing but the switch.

SENATOR GORMAN said he walked with Cleveland through "the filth and slime of the campaign of 1884," and his subsequent remarks forces the inference that he has Truckee resolved to abandon the President and le him "wallow" with those who like that sort of thing. This must be a pretty severe blow to the President's "consuming

It is said that Mr. Sovereign proposes to order a boycott on all people who travel in Pullman cars. According to the Philadelphia Inquirer, "he will next extend it to the people who do business with the people who ride on these cars Thus it will go on until it has reached out everywhere, so that dog won't bite, fire won't burn, stick won't light, old woman won't get home to night. It is a serious prospect, but it may move some one to ask what a Sovereign has to do with a Republic anyhow?"

What was believed would be a meat famine, produced by the temporary interruption of cattle shipments from the north and west has ceased now to be a subject of alarm. The means and facilities of transportation are so great and hing as furnished by the the railroads of the country as very soon to glut what was supposed would be a scarcity in the market. If one system of roads is checked in its operations, another is rendered the more active by necessity, and in this way the country is never likely to be left in the lurch for want of supplies of any kind.

Zunich is but a slow Swiss town the size of Toledo, O., and a seventh the size of Philadelphia; but in 1884, when Zurich found typhoid fever in its water, this slow Swiss town set out to improve its water supply, spent \$100,000 on new filters, \$200,000 on new reservoirs, and, by using the water power secured, set up an electric light supply at a cost of \$235,000 and furnished light, are and incandescent, at a profit of \$13,000. The Philadelphia Press pertinently asks; "We Americans think we are enterprising, but how long will it be before Philadelphia matches the work of this slow Swiss town and reduces its typhoid cases by 90 per cent. ?"

### MR. WATSON'S CANDIDACY.

After a careful review of the situation we are prepared to say that no man in the county will receive as large a majority than Mr. M. C. Watson, should the Demo crats nominate him for the State Senate. As our friend, the late John Parker, said four years ago, "If we must have a Demograt, let us have Watson." He is a man of wonderful political strength in the Thirtieth district and it would not be surprising to hear of his nomination on the first bailot, as the delegates in the farming districts are pulling out right and left in favor of the man upon whom they look as their tried and true friend. Mr. Watson is gaining friends at an amazing rate day after day and from present indieations he will have a delegation from town that will be a credit to him. The workingmen of Schuylkill cannot afford to forget the time when Mr. Watson

bravely and vigorously defended their rights on the floor of the Senate, and as they are not ingrates we believe they will say with one voice "Give us back our old Senator, for we believe him to be as loyal to-day as he then was."

The Scranton State League team was disbanded today and all the old players were signed for the Eastern League club. President Powers will go from here to Allen-town, and it is believed that he will make an attempt to induce Mike Kelly to purchase the franchise of either Erie or Bing-hamton in the Eastern League. It is possible that the State League will locate a new club here in opposition to the East-

California State Troops Withdrawn, San Francisco, July 21.—The state troops are withdrawing from the field in northern California. The several companies of the Fifth regiment and of the Second artillery regiment vacated Oakland yesterday. They left behind, however, a military guard of about a hundred men to preserve order in the railwood men to preserve order in the railroad yards. At Sacramento the six companies of the Sixth regiment broke camp last evening and started for their homes. The state troops at Dunsmuir will be held there for an indefinite period. A Swindler's Heavy Sentence BROOKLYN, July 31.—Hugh Halligan, the bartender of No. 300 Eighth avenue, who was convicted on a charge of obtain-ing \$1,550 from Miss Florence K. Clark under false pretences, was arraigned in general sessions court and sentenced to state prison for nine years and six months. Miss Clark was a cook, and the money out of which Halligan swindled her was the savings of years. He courted her and got her to take a trip to Europe with him, where he possessed himself of all her money and then deserred her.

Enforcing Payment with a Gun. BUFFALO, July 31.—William H. Bright, of the Genesee Oil works, was shot by Barney Murray, the night watchinan, last evening. Murray gave himself up to the police. Physicians report that Bright's condition is necessarily fatal. Murray's

statement is that Bright owed him be-tween \$500 and \$600. He says he has re-peatedly asked for the money, and al-ways been refused. He went to the office with a gun to enforce payment. Bright, he says, raised a chair to strike him, and he shot in self defense.

# HE WAS SHIPWRECKED

A Graphic Experience in the Carribbean Sea.

### AND A FORTUNATE RESCUE

The Thrilling Story Told by Mr. A. W Burch, the Survivor, and How He Overcame Other Troubles.

The following account of a shipwreck scue, subsequent disaster and final sal vation is given by Mr. A. W. Burch, of Home, N. Y. It is exceedingly graphic and will be found most interesting :

"On the 17th day of January, 1863, while cruising down the Carribean Sea, accompanied by my wife and child, we were caught in a heavy northeast gale which drove our schooner ashore on the north coast of Honduras. No one, unless he has been shipwrecked, can imagine what this means. Fortunately we were rescued from the wreck by some Carib Indians who were living in a small village on the cost, and such comforts as the viliage afforded were placed at our disposal.

"Among this semi-barbarous people emained five weeks, flually crossing to

the Island of Ruatan in a dugout boat, "During the time we were among the Caribs we were forced to live upon cocoanuts, bananas, cassava and other foods to which we were unaccustomed. Our stom achs were soon deranged by this strange diet and we suffered acutely from dyspepsia. Both myself and wife had terrible indigestion, nausea, occasional headaches, sinking at the pit of the stomach and the usual troubles dyspeptics generally undergo.

"We finally reached the United States in a very broken condition, where we employed the best physicians and used various preparations, but we received little if any benefit. The malarial poisons which we had taken into our systems, with the acute gastric troubles, refused to yield to the various methods of treatment and our conditions became daily more painful and alarming.

"It seemed terrible that we should be escued from a watery grave only to be plunged into a worse than living death, and you can naturally understand that I became quite discouraged.

"It was at this time that I observed, from an article in one of the leading papers, that there had been a scientific iscovery which I felt was suited to our case. I at once began its use and experienced instant relief. My appetite became good and my food, instead of distressing me as formerly, was perfectly digested and caused me no inconvenience. I began to gain flesh, and now both myself, my wife and our child are restored to perfect health and strength wholly through the use of the great pre-digested food Paskola.

"It was this great discovery which took us from an almost hopeless condition of existence and has placed us in a position where we enjoy life to its utmost. I have felt, since my most remarkable recovery that any discovery such as Paskola which could make me a new man and restore my family to health after we had been brought so low must be of the greatest value to the hundreds of thousands of people who are suffering constantly from indigestion, constipation, stomach troubles, malarial difficulties, headaches and all those things which so hamper life and interfere with our hap-

when Pursell took his father's gun and salvation from the condition of sickness pointing it out of the window of his home, and misery which I might even now be undergoing, had it not been for the great re-digested food."

It may be remarked in conclusion that a pamphlet, fully describing Paskola and what it does, will be sent free to any address, by the Pre-Digested Food Co., 30

### AN EXPENSIVE ERROR.

Japan Will Probably Pay Tribute fer Sinking the Kow Shing.

WAS FLYING THE BRITISH FLAG.

And as War Had Not Been Declared the Action Was Wholly Unwarranted-A Washington Diplomatist Explains the Present Attitude of Japan.

WASHINGTON, July 31 .- It is the opinion in diplomatic circles here that the Japanese have made a grave error in sinking the transport Kow Shing, and one that is tikely to cost them much money in reparasion, besides the humiliation of an apology. The Kow Shing was one of a line of consting steamers belonging to Hugh Mathelaon & Co., and trading between China ports. The vessel was under the British flag when she was sunk. Al though she carried Chinese troops to Corea it is said here that she did not, in so doing, violate the law of neutrality, for there has been no declaration of wat er open acknowledgment by either China or Japan that a state of war prevails. The vessel, therefore, was engaged in legiti-

wessel, therefore, was engaged in legitimate truffic and the Japanese are likely
to pay dearly for sinking her and destroying the lives of the ship's company.
An interesting explanation of the present stitude of Japan towards China
was furnished by a diplomatist of
much experience in Asiatic affairs. He
first pointed out the fact that internal
conditions in Japan are, and have been
for some time, very much disturbed. for some time, very much disturbed. There has been great friction between the mikado on one side and the parliament and people on the other. This steadily increased until the parliament actually passed a resolution requesting the mikade to remove his onbinet and replace it by other men more nearly in accord with their ideas, which are distinctly reaction ary and marked by resentment of the presence of foreigners in Japan and the extension of modern civilization systems The emperor's answer came quick and

sharp in a decree proroguing the parlia-ment. This added to the popular feeling off dissatisfaction and the government became alarmed. The date of election of the new parliament began to draw near, and some heroic measure was necessar; to prevent an overwhelming defeat, the result of which might be to turn Japan backward in the march toward civilination and perhaps to overthrow the em

peror himself.
The Japanese relations with Corea grov ing out of the obstacles to trade with that country, with its limitation upon the fish-eries and upon the number of ports open to Japanese trade, were in a very unsatis-factory state, and this, with the state of domestic affairs, led the Japanese government to adopt a very vigorous foreign pol-icy, in which it is quite sure of popular

Him at Once to China. DETROIT, July 31.—Hon. Charles Denby minister to China, who had been reported as visiting relatives in this city, reached Detroit last evening from Grosse Isle, near the mouth of the Detroit river, where he had been visiting his daughter Mrs. Gilbert Wilkes. Minister Denby wa asked for his opinion on the Chinese-Jap-anese difficulties and regarding the rela-tive chances of the combatants. He re-

It would be impossible for me to say anything about either of the countries. If I did say anything it would be immediately telegraphed to China, and owing to my official position my lips are scaled. This is my story in brief, and while I feel grateful for the resource from ship ing in the street with some companions when they come I shall return at once to China, if necessary, as I would not be a substitute of the resource from the condition of sickness. am an executive officer and have to orders.

China Claims a Victory.

LONDON, July 81.—A dispatch to a news agency from Shanghai says that prior to the firing upon the Kow Shing the Japanese commander offered to take off the captain and crew of the transport. The captain, however, refused to accept the offer. On the day following the fight between the Chinese and Japanese ships a Japanese cruiser encountered a Chinese ironclad in the Prince Jerome gulf, near Yachan. The Chinese claim that their vessel was victorious and that the Japan-ese cruiser was taken off by her consort in a crippled condition

Chinamen Kept at Home. SAN FRANCISCO, July 31.—The steam-ship Gælic, from Hong Kong and Yokohama, brought only twenty-seven cabin passengers and had but five whites, fourteen Japanese and one Chinaman in the steerage. This is the first time in the his tory of the steamship service between here and Hong Kong that so few Chinese have come to San Francisco. The explanation is given by the officers of the Geslic in the fact that all able bodied Chinese were detained pending the outcome of the ne-gotiations that were going on between China and Japan.

Great Britain Offered Friendly Advice. LONDON, July 31.—In the house of com-mons Sir Edward Grey, parliamentary secretary to the foreign office, replying to a question on the subject, said that Great Britain had not offered to mediate be tween China and Japan, but had only of fered friendly advice in conjunction with

Claims to Have Been Cured by Faith. READING, Pa., July St.—Mrs. Uriah S. Heury, aged 40 years, a paralytic walking with a crutch, attended the services of the Rescue Mission Sunday night and claims to have been cured by faith.
