

WOMEN IN HOT WEATHER.

How They Can Keep Cool, Comfortable and Happy.

"THE NICETIES OF LIFE."

A Prominent Lady Talks Upon the Subject and Gives Some Very Valuable Advice.

"Talk about suffering from the heat! Why, even children do not suffer so much in hot weather as women do!"

"I am willing to admit what you have said, but can you offer any suggestions?"

"Yes, I can. I would have women avoid fretting and worrying; keep as cool as possible, and above all things be careful of what they eat and drink."

"The above conversation is just as it occurred in the rooms of the Committee, and if it offers any suggestions to other ladies we shall be glad."

THE BRITISH AT BLUEFIELDS

Acting in Thorough Accord with the United States Representatives.

WASHINGTON, Aug. 9.—The official advice from London to the effect that Great Britain is co-operating with the United States in Bluefields is fully confirmed at the state department.

Since then the two nations have been working harmoniously, animated by a desire to see some kind of a stable and sufficient government established over the reservation, and even in this Great Britain has allowed the United States to take the initiative.

It is believed that the recent defeat sustained by Clarence, the Mosquito chief, was caused by the desertion of the Jamaica negroes from his forces, on account of the peremptory notice from the British naval commander that if they participated in the fray he would withdraw protection from them.

The object of General Barrios' mission to England is to secure a modification, not of the Clayton-Bulwer treaty, but of the Clayton-Bulwer treaty, by virtue of which the British protectorate exists.

The Clayton-Bulwer treaty is between the United States and Great Britain, and Nicaragua is not a party to it. It is understood that the purpose of General Barrios is to secure an amendment to the treaty so as to recognize the right of Nicaragua to assert her supremacy over the Mosquito reservation, while saving to the Mosquitoes the right of administering their local affairs under proper regulations.

THE JAPAN-CHINA WAR

Fears of Typhoons Will Postpone Naval Engagements.

JAPANESE VICTORIES REPORTED.

They Claim to Have Captured Selkian and Yashan from the Chinese—A Prediction That China, When Aroused, Will Overwhelm Her Opponents.

WASHINGTON, Aug. 9.—In speaking of the probabilities of the pending war between China and Japan an official of the Japanese legation today recalled the fact that the season of the monsoon and the typhoon is now rapidly approaching. The presence of the former is not regarded as a menace to sea maneuvering, but fear is felt of the latter. The typhoon is a revolving windstorm whose effects are disastrous. It is believed by the officials of the legation that the naval movements during the typhoon season, at least, will be somewhat circumscribed.
