Tim city of West Chester wanted the earth to permit the trolley line from Lan caster to Philadelphia to run through its streets, and the trolley company people side-tracked West Chester by running around it. There are some people who will think this is a pretty good thing for West Chester.

SOUTH CAROLINA has always been one of the storm centres of unparliamentary speech, and Senator Trby keeps up its tradition in declaring Cleveland a hypocrite and a fraud, and bestowing an exelusive certificate of public virtue on Boiss, Tillman and Stevenson," either of whom, in his opinion, is capable of saving the country and restoring success to the Democratic party, If the President's private opinion of Irby could be known it would probably be found to correspond in some particulars with that one which he is said to have applied to Vilas not long ago.

THAT BILL.

Many of the Democratic newspapers are tearing the Tariff bill just passed by Congress as byenas tear a carcass. "It is, after all," says one of these papers, "the child of Mr. Cleveland's own political cowardies, and he will sign it." Says the leading Democratic paper in the country, the New York Sun: "Somebody has fig nred out the statement that while the average of duties under the McKinley act is about 50 per cent, the average under the new tariff is only about 38 per cent The attempt will be made to create the impression in the mind of the public that as a protectionist measure this bill compares with the McKinley tariff as is with 50, and that tariff return has gained about fa per cent. The comparison means nothing; and, whenever or by whomso ever used, it is employed only to deceive. The dishonesty of this method of measuring results is shown by a simple lifustration Suppose that under a high protective tariff every article of import were taxed 50 per cent ad valorem. The average duty under the tariff would be 50 per cent. Suppose, on the other hand, that the country had absolute free trade in everything but oplum and ergot, but that the duty on those two articles was 100 per cent. The average duty under that tariff would be 100 per cent., or double the average of the other tariff, highly protentive as it was. No pretence has been made, either in the House or in the Senate, of attacking the principle of discrimination which the Chicago platform denounced as fraud and robbery, and abhorrent to Democracy. The duties have been revised solely with a view to protection, and not to revenue. Revenue has been left out of sight most of the time. There has been to some extent a redistribution of governmental favoritism, quite generally in the interests of the South and West as against the

North and East. After the contest in THIRD EDITION Congress had once become a battle in the name of Democracy between forty-nine per cent, fraud and robbery and fifty-one per cent, fraud and robbery, that is to-Publication office and me hanical department, say, upon the lines laid down by Mr. Wilson in his bill and by Mr. Cleveland in his message, honest tariff reform, The peraid surrounding towns for Six Conts in his message, honest tariff reform, a week, paying to the carriers. IN SENATE AND HOUSE

The Free List Bills Referred to the Senate Finance Committee.

WASHINGTON, Aug. 17, - The unexpected generally occurs in the senate Yesterday a resumption of thesensations scenes of Wednesday over the disposition of the four house free list bills, placing sugar, coal, iron ore and barbed wire or free list was anticipated, but not a word was spoken on the subject. Every thing was as calm as a May morning After two hours spent in a rather inter esting debate on a resolution of Mr. Kyle, the South Dakota Populist, to prohibit the sale of liquor in the senate wing of the Capitol during the recess, and a reso-lution of Mr. Call, of Florida, for a senaforial trip by the committee on patents a vote was taken without debate on Mr. Harris' motion to refer the sugar bill to the finance committee, and it was so re-ferred by a vote of 32 to 17. An analysis of the vote shows that sixteen Repub-licans, thirteen Democrats and three Populists voted for the motion, and seven-teen Democrats against it. Eight Repub licans, one Populist and one Democrat were paired in favor of the motion and three Republicans and seven Democrats against. The majorities in favor of re-ferring the free coal, fron ore and barbed wire bills were even larger than on free

The members of the house have been dropping off so quietly and surely that at no time yesterday was there a quorum present, and requests for leave of absence on account of "sickness" and "sickness in family" were received with derisive laughter. The senate bill repealing the clause in the new tariff act placing alcohol used in the arts on the free list was passed af-ter delate. At 1:45 o'clock the house ad-journed until Monday.

Will Not Unsent Thompson,

THENTON, Aug. 17.—The summing up in the Thompson contested election case was concluded yesterday afternoon by ex-Judge Bankin, counsel for Mr. Thomp-son. The committee then adjourned, to meet in Jersey City Sept. 7 to prepare a report to submit to the legislature at its October session. No formal views were exchanged, but private conversations in dicate that the report will not favor un senting Thompson. The Republican mem bers will, however, in their report charge that gross frauds were practiced, but will admit that the committee could not secure proof of a sufficient nature of illegal rotes to overcome Thompson's big major

ROBBERS AT LOST CREEK.

A Freight House and Saloon Visites by Thirsty Burglars.

Thieves with an appetite for strong drink stole a ten-gallon keg of blackberry brandy from the L. V. R. R. freight house, and a quarter barrel of beer, a box of cigars and a quart of whisky from the saloon of Anthony Munley, in Lost Creek, at an early hour yesterday morning. No

at an early hour yesterday morning. No cine has been discovered to the perpetrators, but it is believed, as old Mr. Munley remarks, that "they are not a hundred miles away, nor a hundred yards, either."

The freight house was fastened with a jail lock. Into this the burglars inserted a sharp steel bar, which they struck with a coupling pin, breaking the lock to bits. The method of entrance points to the intuder as one acquainted with railroads. Munley's place was entered through a side door. "They rob me every new moon," asserted the old man, "and generally get in by cutting out a window pane. They never take my money, though." Investigation is being made by Coal and Iron policemen.
