FINANCE AND TRADE.

The Effect of the New Tariff Bill on Business Interests.

ITS EFFECT STILL PROBLEMATICAL

Little Enthusiasm at the Larger Eastern Cities, but in the Southern, Central and Southwestern States There Is Uniform Satisfaction.

NEW YORK, Aug. 18.—R. G. Dun & Co.'s weekly review of trade says: The new tariff bill, if signed by the president, as expected, provides a definite basis for business. No supplemental legislation is thought possible until next year, at least. Large improvement has been expected from any settlement, the more because of a vast amount of business deferred from week to week in the hope of more definite conditions. The rush of such business, or even a part of it, might easily double transactions for a time. It is not to be overlooked that the effect of new duties upon many branches of industry and trade is problematical, and may be determined only after some months of experience, and meanwhile the serious injury to corn and some other conditions exercise a restraining influence.

It is too early to look for effects of the new situation in the great industries, but the gradual recovery which has appeared for some time is seen for a better demand for products. Speculation in wool has been stopped, and the sales, which have been 6,929,750 pounds for the week, and 14,553,150 for two weeks of August, against 8,397,400 last year and 16,885,800 in 1892, naturally diminished on Wednesday and Thursday, as it is expected that the recent advance may be lost, though no change yet appears.

Resumption by iron and steel works, which were stopped by the strikes, continues to depress prices of some finished products, but with more furnaces operating prices of pig iron are not lower. Comparisons given today show a fall in prices ranging from 20 to 44 per cent. in iron and its products since October, 1890, which sufficiently accounts for the idleness of more than a third of the works.

The boot and shoe industry leads all others in recovery from shipments, and shipments from Boston for two weeks are 47 per cent. larger than last year. Demands for speedy delivery and numerous sales from stock indicate that jobbers are carrying short supplies.

Liabilities of firms failing in the week ending Aug. 9 are a little larger than of late, $3,294,689, of which $1,041,491 were of manufacturing and $1,608,198 of trading concerns. Full returns for July show an aggregate of $11,291,905. The failures this week have been 326 in the United States, against 455 for the same week last year, and 45 in Canada, against 27 last year.

Bradstreets' says: Special telegraphic and mail advices summarizing interviews with more than 500 leading wholesale dealers and manufacturers at forty-seven cities throughout the country as to the present effect, if any, of the prospective tariff settlement and the outlook as to the effect of the senate tariff bill, should it become a law, indicate relatively less enthusiasm at larger eastern centers, except at New York and Baltimore, almost uniform satisfaction throughout the southern states, and similar advices from the central and northwestern states, except where serious crop damage has taken place. In the far west little interest is manifested in tariff legislation, notably at Denver and Helena, where silver attracts more attention. Portland fears the result of the reduction of the tariff on lumber, but at San Francisco an improvement in demand is expected, and considerable freight is offering for shipment to China.

Aside from probable improvement due to ending uncertainty in business neither Boston, Providence, Buffalo, Philadelphia, Pittsburg, Newark or Rochester merchants interviewed express noteworthy enthusiasm as to the trade prospect.

Three leading Texas cities, in view of excellent crop prospects in that state and prospectively the largest cotton crop on record, regard the business outlook very favorably. The proposed change in the sugar schedule exerts material depression in Louisiana. The region west of Pennsylvania and east of the Mississippi river reports almost uniformly favorable trade.

AN OPPORTUNITY.

Business Education for Our Young Men and Women.

Business education is the demand of the hour, and it should be thorough. The country is full of "business colleges," some of which are excellent, while some, alas, seem more bent upon making money for themselves than in putting their pupils in a position for making money. The Wilkes-Barre Business College, incorporated several years ago under sponsorship of a number of the most prominent and public spirited citizens of the city, is an institution worthy of the highest confidence. It has been conducted on a conscientious, broad-gauge plan and has far outgrown its original porportions. Professors Wade and Williams, the present principals, are both experienced instructors with progressive ideas, and they have a corps of competent assistants. They pride themselves upon turning out graduates competent to fill any position and in most cases a position awaits the pupil as soon as he graduates. This college teaches actual business from the start, as well as the theory of it. The pupil enters the college as he would enter a store or an office and is taught to master every detail. The system in use is comparatively new and is undoubtedly superior to ordinary systems. It is patented and special apparatus is provided for the practice of it. The Wilkes Barre Business College has exclusive control of the system in its field. Penmanship, bookkeeping, short hand and typewriting are in course, the instruction being rigidly thorough in all departments. Profes ors Wade and Williams are elegant penmen, and their method of instructing in this department is wonderfully successful. Pupils show an improvement in an incredibly short space of time and become experts at graduation. Students can enter this college at any time, just the same as they can embark in business at any time. Special arrangements have been made for boarding pupils at a cost of from $3 to $4 a week in private families (not regular boarding houses)—a very important item. The college is located in the new Authracite building, elevator entrance, 11 West Market street, and is most complete in every particular. Full particulars concerning this institution may be had by a postal card request. It is worth while to get them. See ad.

DISCONTENT IN VENEZUELA.

Much Dissatisfaction with the Administration of President Crespo.

NEW YORK, Aug. 18.—W. G. Riley, the retiring United States consul at Puerto Cabello, arrived here yesterday afternoon by the steamship Philadelphia, of the Red line, from Caracas and Venezuela. Mr. Riley said the recent insurrection in Venezuela ended in a pitched battle at Merida on Aug. 5, between the government forces under ex-President Palicio. The insurgents were defeated, with great loss of life.

Mr. Riley predicts a general revolution in Venezuela within six months owing to the conduct of President Crespo. There is general dissatisfaction with his government. This dissatisfaction, Mr. Riley said, is not confined to the followers of ex-President Palacio and those who formerly held office under him, but is spread throughout the country.

There is much distress in Venezuela, owing to the hard times and the fact that President Crespo has not made any public improvements. Mr. Riley said the president is believed to be hoarding money for his own purpose, and that this belief is the cause of much ill feeling against the Crespo administration.

Kenneth Bazemore had the good fortune to receive a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy when three members of his family were sick with dysentery. This one small bottle cured them all and he had some left which he gave to Geo. W. Baker, a prominent merchant of the place, Lewiston, N. C., and it cured him of the same complaint. When troubled with dysentery, diarrhoea, colic or cholera morbus, give this remedy a trial and you will be more than pleased with the result. The praise that naturally follows its introduction and use has made it very popular. 25 and 50 cent bottles for sale by Gruhler Bros.

"I know an old soldier who had chronic diarrhoea of long standing to have been permanently cured by taking Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Edward Shumpik, a prominent druggist of Minneapolis, Minn. "I have sold the remedy in this city for over seven years and consider it superior to any other medicine now on the market for bowel complaints." 25 and 50 cent bottles of this remedy for sale by Gruhler Bros.

Good Work.

John Cooney, the house raiser and carpenter, has just completed two very successful contracts. One was the removal of a three-story saloon building at Connor's Patch owned by John Moran, and the other the removal of a two story building at the same place owned by Patrick Cardiff. Both removals were made without causing the slightest damage to the walls or ceilings.

To-morrow's game will be a State league contest. Don't fail to see it.
