

Mr. White, of California, Proposed for the Finance Committee.

WASHINGTON, Aug. 18.—The senate held a brief but interesting session yesterday, which was largely devoted to discussing the proposed appointment of Mr. White, of California, to the vacancy on the finance committee.

The conference report on the last of the appropriation bills—the general deficiency—was adopted.

Resolutions were offered and ordered to lie on the table as follows: By Mr. Murphy, declaring it to be the sense of the senate that no further legislation should be attempted at this session; by Mr. Gray, directing the finance committee to make a prompt report on the house free sugar bill, but offering no recommendation for a revenue duty and no differential duty to refiners.

Wages Must be Paid.

TOPERA, Kan., Aug. 18.—In the matter of complaint of the employees of the Santa Fe railroad regarding delay in the payment of wages the following order was received by Judge J. H. Johnson yesterday from the United States Judge Caldwell: "Ordered that the men employed by the receivers in the operation of the road and the conduct of its business shall be paid their monthly wages not later than the 15th of the month following their accrual."

Cholera Scare in Indiana.

INDIANAPOLIS, Aug. 18.—The state health board has received news of a cholera scare in Dearborn county. The little daughter of Peter Bann, of Welsberg, was taken suddenly ill with symptoms of cholera, and died soon after. Another child, aged 11, was taken ill Aug. 11, and died the next day.

Many Miners Resume Work.

BIRMINGHAM, Ala., Aug. 18.—Work in the mines was resumed at Pratt mines in Blocton yesterday, giving 3,000 men employment after four months' idleness on account of the strike. The other mines of the Tennessee Coal and Iron and Steel and Railroad companies started today, and on Monday the Sloss Iron and Steel company will probably start its mines, giving employment to 10,000 men altogether.

Heavy Sentences for Burglary.

WEST CHESTER, Pa., Aug. 18.—The heaviest sentences that have been given in Chester county for years were imposed yesterday upon Charles Wills and Walter Carmichael, young men. They pleaded guilty to burglary, larceny and horse stealing, fourteen indictments each, and were sentenced by Judge Hemphill to twenty years' imprisonment in the Eastern penitentiary.

A Woman Suffragist's Will.

ST. LOUIS, Aug. 18.—Mrs. Virginia L. Minor, the woman suffragist who died here a few days ago, bequeathed \$100,000 to Susan B. Anthony. A large portion of her estate is then directed to be divided among her three nieces upon condition that they do not marry, forfeited bequests to be granted the niece or nieces not so forfeiting.

Death of Kansas' First Governor.

LAWRENCE, Kan., Aug. 18.—Ex-Governor Charles Robinson died at his home in this city yesterday, aged 74. He had been ill for several weeks. Mr. Robinson went to Kansas in 1861 as one of the earliest free state colonists, and was the first governor of the state, serving in 1861 and 1862.

ALIX'S GREAT FEAT.

The Fastest Mile Ever Made in a Trotting Race.

WENT THE DISTANCE IN 2.05 1-4.

The Speedy Mare Had Just Trotted Two Mile Heats When She Was Placed Against the Record—The Conditions Favorable for Fast Time.

TERRE HAUTE, Ind., Aug. 18.—Three world's records were broken at the Terre Haute track. Oakland Baron went the second heat of the 230 trot in 2:06, thus lowering the world's record made by Boreal on Monday 15, secs. Axworthy finished but a head behind him.

In the free-for-all trot a mark was made that is likely to be shot at for many a long day. The track was just right, and it was an ideal racing day, not a breath of air stirring. It took a dozen acres to get the field away, with Ryland T two lengths back. The Idaho gelding trailed to the half, where Stewart began to drive for the mare. He had laid back too long, but even as it was the gelding of uncertain breeding did the last half in 1:01 1/4. Alix finished well within herself in 2:05, the third quarter being done at a two minute clip.

Ryland T was a good second choice in the second heat, some thinking he was in form to do a mile in 2:05 or better. Again he got away behind, but went out to do battle from the half, going the third quarter in 59 seconds. With all that he could not reach the mare, and she finished in 2:05 1/4.

Distance was waived in the last heat. Monroe Salisbury instructing McDowell to drive Alix her best clip. This time Ryland T went to a bad break, and there was nothing to brush the mare in her supreme effort. She was at the half in 1:04, the last half being done in 1 min., 11 1/2 secs., making the mile in 2:05 1/4. It was the fastest mile ever gone in a race, and away below the record for a third heat. The average for the three heats, 2:05 5/8, is far below that ever gone heretofore in either a pacing or trotting race.

Monroe Salisbury will have Alix start here during the races next month to beat the record held by Nancy Hanks.

Singular Suit for Damages.

INDIANAPOLIS, Aug. 18.—William Stanley, a farmer of Pendleton, Ind., is preparing to sue Congressman Bynum, of Indiana, for \$1,500. During the last presidential campaign Stanley heard Mr. Bynum deliver a speech in which he said if the Democratic party was successful wheat would be worth \$1.25 a bushel. Stanley went home and sowed wheat extensively, and raised a crop of 2,000 bushels. This he declares he has been compelled to sell at different prices between forty-five and fifty cents a bushel. He will sue the congressman for the difference between what he realized and what he would have received had the congressman's assertions been verified.

Religious Riots in Belfast.

BELFAST, Aug. 18.—The celebration of the feast of the assumption has been made the occasion for a series of riotous demonstrations in this city. Thursday the trouble began in earnest and culminated in a serious riot. The disturbances were begun by a mob of Nationalists, who first attacked and beat a party of Protestants and then vented their wrath on Protestant property. The extensive linen plant of Mather & Bunting was almost wrecked. The mob assailed it with showers of stones and left scarcely a window unbroken in the structure. The residences of a number of Protestants were then attacked and more or less damaged.

The President at Gray Gables.

BUZZARD'S BAY, Mass., Aug. 18.—President Cleveland passed a very quiet day at Gray Gables yesterday, and the change has proved beneficial. Although Gray Gables has been the center of attraction all the summer, yet the president's arrival has caused a perceptible stir among the country people. The curious ones, however, have not yet had a sight of the nation's chief executive, as he has remained within the house. In the afternoon Mrs. Cleveland, Dr. O'Reilly and Captain Evans drove over to visit Joseph Jefferson.

To Bring a Receiver to Court.

OMAHA, Aug. 18.—The Union Pacific federated board is arranging to have Receiver McNeill, of the Oregon short line, cited before the federal court for taking steps towards reducing the wages of the employees. When the Oregon was a part of the Union Pacific the employees were included in the order of Judges Caldwell and Sanborn, that the old schedule should stand. Unless Mr. McNeill has been given authority by the court to submit a new schedule the men will claim that he will be in contempt.

Two Young Ladies Drowned.

SHERBURN, La., Aug. 18.—A party of five young ladies and one 8-year-old boy left Jonesville for the camp meeting grounds at Scottville, in a hack in charge of Mr. Wright. In crossing a small creek that had been swollen by a heavy rain the vehicle was swept down the stream and overturned. Mr. Wright succeeded in saving his sisters, Daisy and Mahel, his little brother and Miss Nora Hester, but Miss Hattie Webster and Miss Willie Hart were drowned.

Detroit's Bribe Takers.

DETROIT, Aug. 18.—It has been learned that the four members of the city school board who were arrested as bribe takers on Wednesday were led into a trap set by the detectives and carried out by Mr. Acheson, of the Mantowoc Seating company. The alleged bribery deal was made in Acheson's room at his hotel, the detectives and a stenographer witnessing the transactions through a hole in a partition.

Astor Curtis' Lakeside Property.

NEW YORK, Aug. 18.—M. B. Curtis, the realtor, has just closed a real estate deal involving about \$1,000,000. Mr. Curtis has traded the Hotel Bristol, at Austin, Tex., for 5,000 lots at Lakewood, N. J. The Lakewood property was owned by George H. Drerber. Mr. Curtis will build a hotel on a portion of his newly acquired property, and will probably make it his home.

Killed by a Falling Limb.

ATLANTA, Aug. 18.—Miss Bettie Vickery and several members of the family started to church Thursday night. A hard wind storm came up which tore a limb from a tree and dashed it against the young lady's head. She died a few minutes later.

BABIES NEVER REFUSE IT

Lactated Food Relished in Hottest Weather.

Growth Steadily Continues and Strength is Kept Up in Summer

Without Taxing the Weakened Stomach or Bringing on Diarrhoea.

"It is truly a triumph in infant feeding when babies take a food with evident relish, even when the weather is the hottest, and when the tone of their little stomachs is so reduced by the heat," says a writer in the Globe.

And this is why physicians and trained nurses everywhere, as well as countless

little outlay of nerve force.

For many years the best medical authorities have recommended the use of sugar of milk in food for infants, with the happiest results. It is recommended because, as Prof. Kuss says, "the principal element in woman's milk is the milk sugar." And not only does it give a pleasant taste, but it has been found to allay extreme irritability of the stomach and check diarrhoea, and thus proves of inestimable value to the large class of infants that are predisposed to irritability of the stomach and bowels and in constant danger of cholera infantum. The basis of lactated food is sugar of milk.

The one safety for pale, weak, sickly babies is to keep up their strength without irritating their intestines. This great problem of feeding delicate babies in hot weather has been solved to the complete satisfaction of hosts of mothers by lactated food. It has saved thousands of

mothers who have reared large families successfully, so earnestly urge a diet of lactated food whenever the infant digestion is feeble.

This ideal baby food is made up of simple ingredients that every mother knows to be wholesome and rich in nourishing qualities. It is a well known perfect substitute for healthy, vigorous mother's milk, and the one infant food which possesses a scientific combination of all the elements necessary to the complete nutrition of the growing child.

There is no secret about its composition. In its manufacture in Burlington, Vt., under the personal supervision of no less a man than Prof. Boynton, of the Vermont medical school, every process is most scrupulously guarded against any source of impurity. It is, as has been said, "as pure as the air among the Vermont hills where it is prepared."

There can be no equal to lactated food for nursing mothers. It contains the very elements of rich breast milk. The converting of lactated food into baby's natural food is easily accomplished with

infant lives.

Mothers worry less about their children when they see them daily eating well and with evident relish. Children that cannot eat milk or can only bear a little, not enough to nourish them, should use lactated food. This generous diet soon shows itself in brighter eyes, firm flesh, clean skin, and the lively movements that betoken health.

Sound constitutions, sturdy growth of bone and flesh, deep, uninterrupted sleep all come from a diet of lactated food.

The healthy child whose picture is shown above, eats nothing but lactated food. Her mother, Mrs. C. H. Sisson, of Potsdam, N. Y., writes:

"The original of this picture consumes two cupsful of lactated food every three hours daily, beginning at six in the morning and ending at six at night. It was prescribed by Dr. H. D. Brown of this place, and she eats nothing else. As she is a teething baby we 'let well enough alone,' tampering with no other food, as she thrives on this."

LARGEST DIVIDENDS ON RECORD. 31 per cent average monthly dividend paid the first six months of 1894 by...

The American Syndicate. To their clients as the result of profitable speculation in stocks, bonds, etc.

SYNDICATE SPECULATION. Which assures the largest returns compatible with safety. Do not be influenced by anyone who says it is impossible to pay such large dividends until you have read our manual of information.
