## DOINGS AT WASHINGTON.

### The New Tariff Bill to Go Into Effect Next Friday.

### RIVER AND HARBOR BILL!

### President Cleveland Allows It to Become a Law Without His Signature—McPherson Threatens to Resign.

WASHINGTON, Aug. 19.—The treasury department has mailed to customs officers copies of the new tariff bill in order that they might be able to properly assess duties when the new bill becomes a law. The first copies secured by the department were sent to far western points, and as fast as the remaining copies were delivered by the printer they were promptly mailed to all other customs collectors and treasury agents.

The copies sent to San Francisco and Portland, Or., will reach those cities next Friday, and it is expected that the tariff bill will become a law on that day.

### No More Tariff Legislation.

The senate has decided that there shall be no further legislation over which there is a contest at this session of congress by adopting Mr. Murphy's resolution to that effect by a good majority. Indeed, it is doubtful if anything could have been done even without the adoption of this resolution, for it was impossible to secure a working quorum on any party division, and other senators are about to leave the city. The resolution appointing Mr. White of California a member of the finance committee met with no opposition and was agreed to unanimously.

Mr. Gray's resolution instructing the committee on finance to report the free sugar bill immediately upon an amendment putting a "flat" duty upon sugar did not fare so well and went over without action, owing to the lack of a quorum.

Another resolution was offered by Mr. Lindsay declaring that it was the sense of the senate that congress should not adjourn without striking out of the tariff bill the benefits it gives to the Sugar trust, which was amended by including the Whiskey trust, and as amended it went over under objection.

### River and Harbor Bill a Law.

The river and harbor bill, carrying \$11,476,180, became a law at midnight last night without President Cleveland's signature, the legal limit of 10 days having expired within which he could sign or veto it.

It is the third time during Mr. Cleveland's two terms that a river and harbor bill has become a law without his approval, the only other bill of this kind submitted to him having been vetoed.

Fears were expressed up to a late hour that the present bill would be vetoed, as Mr. Cleveland made it known to the river and harbor managers several months ago that he did not want the total of the bill to exceed \$10,000,000. This led to paring down the appropriations on most of the river and harbor projects about four-fifths from the estimates, so that the total of \$9,530,980 allowed by the house was about one-fifth of what the army engineers asked to prosecute the work.

In the senate the bill was raised to \$12,790,680. This led to an animated struggle in conference, the house men contending that the bill would be vetoed unless it was much reduced. The conferees finally accepted it to \$11,476,180, and thus it was reduced in both houses, and so went to the president.

### No New Contracts.

Aside from the amount carried by the bill, the sundry civil appropriation bill also carries \$8,400,000 for river and harbor contracts, making a total for this class of work of \$19,876,180. This is about \$2,000,000 less than the amount given for river and harbor work at the first session of the last congress. An important feature of the new bill is that it authorizes no new contracts.

Senator Harris, acting chairman of the committee on finance, has called a meeting of that committee for tomorrow, when it is understood the supplemental tariff bills will be taken up and an effort made to have them re-enacted, notwithstanding the senate's adoption of the Murphy resolution declaring against the practicability of all efforts at further contested legislation during this session. The Democratic members of the committee say they do not consider the action of the senate on the Murphy resolution as binding upon the committee, and they will make an effort to have the bills reported at least. Some of the Democratic members who voted for re-enactment are anxious that the committee should act, as such action would justify their course, and they are hopeful that the Republican members will not antagonize them in this by seeking to secure delay in committee.

### McPherson Wanted to Resign.

Senator McPherson came near tendering his resignation as a senator from New Jersey yesterday. He went so far as to produce a blank form of resignation and was preparing to fill it out, when some of his friends, learning of his decision, went to him and succeeded in persuading him to forego his resignation. They found him at first quite determined upon resignation and only after much argument influenced him to change his mind.

The senator gave as his reason for desiring to be rid of his official responsibilities that his health was very much broken, and, as he desired to be absent for an indefinite length of time, he had concluded that the honorable course for him was to vacate his seat that some one else might be chosen to act.

His friends represented to him that the session was rapidly drawing to a close, that the adoption of the Murphy resolution was positive evidence that no further important legislation could be enacted before final adjournment, and that consequently there was no impropriety in his

going away and remaining until next winter.

### Induced to Remain.

They also called his attention to the fact that the next session would continue only three months and would not probably be very exacting on members. Furthermore, they called the senator's attention to the awkward condition in which his resignation at the present time would leave New Jersey politics. The governor of the state is a Democrat and would, if he should appoint a successor, select a Democrat, but the legislature is Republican and is called to meet in extra session in October next. It is highly probable, therefore, that a Republican would be chosen to fill the term of the senator, which will expire on the 1st of next March, if he should resign.

These representations were apparently convincing to Mr. McPherson, and his resignation did not go in.

It is understood that the senator will leave Washington immediately, and in view of the prospective early close of the session will not return. He contemplates a trip to Europe, with the hope of securing perfect restoration to health.

### The Festa Case.

WASHINGTON, Aug. 19.—The western mail that left here Saturday evening, Aug. 11, carried a certificate of extradition issued by the state department for the arrest of Ezeta and his staff on board the United States steamer Hennington. The letter containing the papers was addressed to the Salvadoran consul at San Francisco, Mr. Yringoron.

### Sundry Civil Bill Signed.

WASHINGTON, Aug. 19.—A telegram received at the White House from Gray Gables announces that the president has signed the sundry civil appropriation bill.

### The Gold Reserve.

WASHINGTON, Aug. 19.—The cash balance in the treasury is \$119,489,648, of which \$38,379,782 is gold reserve.

### BLOWN TO ETERNITY.

### Two Hundred Kegs of Powder and 1,900 Pounds of Dynamite Explode.

PORT SMITH, Ark., Aug. 19.—An explosion of 200 kegs of powder and 1,900 pounds of dynamite belonging to the Spoor Hardware company occurred at 8:30 o'clock last evening and gave Fort Smith a terrible jolt. The warehouse was situated about three-quarters of a mile from the city.

It blew the residence of Mrs. Cook into the air, killing Mrs. Cook and Babe Cook, her daughter, instantly.

It also wrecked 10 or 15 dwellings in the neighborhood and broke plate-glass in hundreds of business houses in the city, loosening plastering from almost every dwelling within several miles.

A boating party consisting of A. W. Walters, Miss Kate Hurley and others, which was in the vicinity of the explosion, is missing, and men are out in search of them.

### Boston's Police Shakeup.

BOSTON, Aug. 19.—Another shakeup in the police department came yesterday when the "liquor squad" was ordered to move to headquarters, and a lieutenant was appointed to have charge of them. This is the result, it is said, of several fruitless raids which have been made of late. Captain W. B. Watts of Precinct 3 was also appointed assistant to Chief Inspector Coulter. These changes tend to increase the apprehension felt by many in the department, and Chairman Martin's reforming hand can be plainly seen in them.

### SIX POISONED SIX PERSONS.

### Mrs. Butler, Now Dead, Said to Have Murdered Several of Her Family.

DETROIT, Aug. 19.—The Journal printed yesterday a dispatch from Hamburg, Mich., alleging that Mrs. Julian Butler, who resided near that village, is supposed to have poisoned her father, mother, husband and herself, all of whom are dead; Harry Whitlock, the hired man, who is dying, and Dr. Elias Smith of Whitmore Lake, the family physician. Dr. Smith is broken in health and attributes his illness to partaking of food a woman's home.

Mrs. Butler attempted suicide by taking laudanum, and falling in her purpose another poison was used, which killed her. Just before her death the woman practically admitted her guilt to Dr. Smith. Whitlock is still living, but his hands and feet are useless.

The woman was a neighbor of ex-Governor Winnans, who died of heart failure some weeks ago. It was charged that Mrs. Butler had sent him food, and that his death was directly attributable to her. Dr. Smith denies this, however.

### THE HOUSE OF LORDS.

### Rosebery May Make Its Abolition the Issue in a General Election.

LONDON, Aug. 19.—When the evicted tenants bill shall reappear in parliament next session, it will have been greatly broadened so as to include most of the recommendations made by the Irish land committee. If the house of lords throw it out again, Lord Rosebery will dissolve parliament at once and appeal to the country to settle the whole question of the upper house's existence.

The government has promised that the evicted tenants bill shall run its course concurrently with the Welsh disestablishment bill. This promise does not satisfy some of the Welsh members, and they are out once more with their threats of dire vengeance in case the ministers do not come up more promptly to the Welsh demands.

### Another Dispensary Decision.

COLUMBIA, S. C., Aug. 19.—Judge Aldrich has filed his decision in the case of the state ex rel. George and Holly versus the city council of Aiken. He decides the dispensary act in its main features unconstitutional. Regarding the writ of prohibition asked for by the dispensary authorities enjoining the council from interfering with the dispensary, he declares that under its charter the city has no authority to grant license to dealers in any liquors. Mayor Chafee will apply for an injunction closing the dispensary.

## STILL ON THE TOBOGGAN.

### The Tailenders in the State League Beat us Easily.

### HELD UP AT EVERY POINT

### Yeager Was Foughted Hard by the Visitors and His Support Was of a Very Suspicious Hue.

Again defeat crowned the efforts of the Shenandoah base ball club at the Trotting park and the club slides down to third place in the State league, while its great rival supplanted it in second place. Since the Shenandoahs have been in the league their tale has lengthened by chapters of woe and to-day their admirers are inconsolable.

The Philadelphia batters had and played with vim and snap. They pounded Yeager's delivery into pulp and ran the bases with speed and good judgment. When the coal diggers were at the bat the Quakers played for all the game was worth and the errors charged against them were due to the rapid gait of the game, and not incapability. After getting hold of the ball and before fully recovering himself Weslake threw it out of Massey's reach and Musser ran home from third.

## AULD ACQUAINTANCES.

### Reminders of Those Who Are no Longer Residents of Our Town.

James O. Wernitz, who was the drum-major of the Washington Cornet Band of town, and who left here several years ago, has turned up in Collinwood, Ohio, where he is at present engaged as a performer with Dr. Renham and his company of Indians. The Times of that city speaks of "Oscar" as follows: "He is an exceedingly bright and clever performer and gains plenty of applause whenever he comes before his audience. He is the author of many of the songs which he sings and is popularly known as the 'Ace of Spades,' by virtue of his proficiency in the art of juggling this curious implement."

### POOLEY.

Prof. George W. Pooley, whose fame as a musician has spread far and wide, is now one of the leading men in his profession in Western Pennsylvania, and when in this county recently entertained many of his old friends very handsomely. George is a Shenandoah man in whom all the people here take pride.

### GRAVSHAW.

Occasionally something is heard of B. F. Gravshaw. Since his retirement from public life in this county he has been a resident of Chester county and Washington, D. C. While in Chester county he showed his ability as a newspaper writer and made a success of it. He was afterwards appointed to a position in the pension department at Washington, which he relinquished shortly after President Cleveland's inauguration. He has been lucky ever since he left Shenandoah and is now comfortably fixed in his own home at the National Capital.

### BARTSCH.

Judge G. W. Bartsch, who can be the first Governor of the new state of Utah, if he wishes the office, is another Shenandoah man who has made rapid strides up the ladder of fame since he left here. Under his superintendency the public schools of this town were placed in the lead of any in the county. He has not only attained an influential political stand in Utah and won the respect of the best people in the state, but has also become well fixed financially through real estate investments.

### HEERING.

George A. Heering, of Bloomsburg, is also an ex-resident of Shenandoah. He is at present deputy revenue collector under his son, ex-Senator Grant Heering, and is said to be one of the best deputies in the state. He is prominent in his collections and shows great increases. As a citizen of town and treasurer of this county Mr. Heering was an entire success.

### PATTERSON.

James Patterson, known to some as John Ralston, left for the west after the sale of the Harlington school to John Scheffly. Since then, by strict attention to business, he has become one of the foremost men of Minnesota.

### McCAMANT.

Still another former resident of Shenandoah who has prospered is Hon. Joel B. McCamant. He occasionally comes to town and always receives a hearty welcome. He is in the banking business at Bethlehem and it is said has few equals in that line.

### WILKICH.

One of the best known men of this town in the sixties, seventies and early part of the eighties was C. Wilkich. He was a Justice of the Peace, land agent and leading Democratic politician. He was a power and wielded considerable influence, but was defeated by one vote for Justice of the Peace by J. H. Kurta and shortly after left the town. He is now in Texas.

### POWELL.

Cards have just been received announcing that Edward Evan Powell has been married at Hinghamton, N. Y., to Helen Josephine, daughter of Mr. and Mrs. Rodney Augustus Ford, of that place. Mr. Powell was the son of a former coal operator at this place. He is one of Hinghamton's most prominent young citizens.

### KENDRICK.

William Kendrick, owner of the Kendrick House, opposite the Lehigh Valley depot, who went to Denver, Colorado, for the benefit of his health three months ago and has decided to remain there, speaks for himself in a letter to the Herald.

"EDITOR EVENING HERALD:—Having a little time and being a pioneer of Shenandoah I thought it my duty to let you and the public know how I am getting along. As to my health, as you know, I was troubled so much with asthma that my life was miserable. I was treated and doctored by the best I could find in this county at a cost of hundreds of dollars, but with no good result. For years before I left my home in Shenandoah I did not know what it was to have a comfortable night. In bed I had to be pillowed up, with three or four pillows, at about sixty degrees elevation. I could not walk half square without becoming breathless. I have been here in Colorado a little over three months and I am happy to say the results in my case are very encouraging, and have been from the moment I arrived in Denver. I can lay down with one pillow and have sweet and refreshing sleep and can walk along the streets without becoming breathless. I have not taken medicine since my arrival here. As the results in my case are so good I thought it my duty to have them published, to let all sufferers from asthma and other lung troubles know that there is such a good climate as this."

### Fecley's Cafe.

Largest schooners in town. Chafes lunch at all hours. Music, 35 North Main street, Shenandoah. 8-15-1m.

### If You Want

Large, coarse, seedy Pickles,

### Go Somewhere Else!

But when you want finely flavored, crisp little ones, come to

### Graf's

122 North Jardin St.
