BETWEEN dogs and goats, the former
have the call in town.

TAX the canines and fill up the borough
treasury. An owner who cares for his
pet will pay the tax.

If signs count for anything this is going
to be a red-hot political campaign and the
candidates are not going to let the flies
rest upon them.

It is almost too warm yet for political
discussions, but it seems some people are
always at it, no matter what the condi-
tion of the weather is.

THE Administration was a little behind
hand in recognizing the Hawaiian Re-
public, but there is some excuse for it.
It is unfair to expect a government to
lead in endorsing a movement which has
slipped it in the face.

UNDER the Income Tax law the adage
that "every sweet has its bitter" will be
verified in many cases. The wealthy, who
have been enjoying the good things of
this world to the full bent of their incli-
nations, will be called upon to surrender
part of it to help support the government.
The poor man may not have many of the
luxuries of life, but he will have the con-
solation of knowing that he will not be
called upon by the income tax gatherer.
Still, he would no doubt be glad to pay
any required amount if permitted to ex-
change places and incomes with the mil-
lionsaires who are now loudly complaining.

Will he sign, or will he kill it?
Will he take upon himself the perjury
and dishonor he has denounced? Or will
he destroy the monstrosity with his veto?
This is the question which now occupies
all minds, and forms the subject of more
than half the conversation of the people.
We do not undertake to answer it; but
this we say, and no one will stand up to
contradict: If his reply is a veto, he will
be acclaimed as still a great, brave and
conscientious man by thousands who
have begun to doubt him.
But if he signs it, he will commit a
moral suicide. His yet remaining fame
will be wiped away, and in all the land
there will be none so poor to do him re-
verence.—N. Y. Sun.

THE peach is among the most wholesome
of fruits, and can be eaten at almost any
time with decidedly good effect. It is
said to possess marked tonic properties,
and ladies who know a good thing when
they see it, and a good peach when they
taste it, will be delighted to learn that it
is an admirable helper towards securing
a fair complexion. While thus briefly
stating some of the good qualities of the
peach, it is said that physicians all agree

that the peel or rind should never be
eaten, as it is adverse to a healthy con-
dition of the stomach, and, moreover, to
get the best effects from this delicious
fruit it should be eaten raw.

THE ocean record has again been low-
ered, this time by the Conard steamer
Campania, which made the trip across in
five days, nine hours and twenty-nine
minutes. The Campania is now entitled to
the champion pennant. How long she
will hold it is of course a problem, for no
doubt special efforts will be made by
other lines to equal and, if possible, beat
this unexcelled trip.

THE EARLY RISING HABIT.

It May Be All Right, but Let Your Neigh-
bors Rest.

The praises of early rising have been
sung from time immemorial, and man-
kind, in that indolent, unquestioning
spirit which is so ready and willing to ac-
cept almost any theory or dictum without
troubling itself to ascertain if the enonun-
ciations bestowed upon it are merited, has
taken it for granted that it is a cardinal
virtue to leave one's bed at daybreak.
But that can hardly be a virtue which de-
velops in the people who practice it a dis-
position to render themselves obnoxious
to their fellow mortals.
Now, it has been observed that the first
impulse of a man, woman or child who is
addicted to the early rising habit upon
quitting his couch is to awaken and keep
awake as many other people as possible.
Sometimes this abnormal predilection
seeks the adventitious aid of a lawn
mower, sometimes it utilizes the chopping
block or the wood saw, and sometimes
again it brings to bear hammer and nails,
and in extreme and violent cases it bangs
upon the piano. Evidently the object
sought is to make of one's self an alarm
clock to arouse the neighborhood, and it
matters little apparently what kind of a
noise is made so long as it is a noise of
some sort.
This tendency to noise on the part of the
early riser is not confined to the human
species. It is found also among the early
risers of the brute creation. The cock, the
earliest of risers, is a notable offender, with
his shrill clarion. He sometimes carries
the virtue of early rising to such excess
that he apparently does not turn in at all,
but keeps himself up, and by consequence
his racket all night long. The calf assaults
the dawn with his exasperating bleat; the
cow is up bright and early with her
mournful lowing, the horse neighs, and
the tuncful mule awakens the echoes with
his stentorian bellow.

In a word, be it among man or the
lower animals, it is always the same. The
early riser is a pestilential nuisance, and
instead of being praised for his virtues,
which he has not, he deserves the disap-
probation and censure of all with con-
science sufficiently tranquil to be able to
sleep in the morning hours but for the
malicious interference of the early riser.
The only humane person is he who
sleeps until the early sun is high in the
heavens, and he gets his reward as he goes
along, for he not only permits others to en-
joy sleep when sleep is most enjoyable, but
he at the same time enjoys it himself.—

MY NEIGHBOR.

My neighbor met me on the street.
She dragged a load of graveling gear.
Her look so bright, her tone so sweet,
I stepped to make all that day.

The cares that tugged at heart and brain,
The work too heavy for my hand,
The ceaseless underbeat of pain,
The tasks I could not understand.

Grew lighter as I walked along
With air and step of liberty,
Freed by the sudden lift of song
That filled the world with cheer for me.

Yet was this all? A woman wise,
Her life enriched by many a year,
Had faced me with her love true eyes,
Passed on and said, "Good morning, dear!"

Parental Influences on Birds' Eggs.

Dr. Nicolsky, professor of zoology in the
University of St. Petersburg, has pub-
lished an interesting study on birds' eggs.
However varied the eggs of birds are, as a
rule they can be reduced to three chief
types, spheroidal eggs, elongated eggs—the
two ends of which terminate in the same
manners—and pyriform eggs, which are
round at one end and pointed at the other.
This variety in shape, according to Dr.
Nicolsky, is due simply to the effects of
the law of gravity. Every egg which is
not covered with a solid shell deviates
from the spheroidal form and lengthens by
the effect of the pressure by the sides of the
ovary. Among birds which preserve a
vertical position of the body while sitting
—like the falcon and the hawk—the egg
not covered with the shell sinks and be-
comes shorter, for the effect of its weight
acts against the pressure of the sides of the
ovary. With birds which are constantly
swinging the egg develops in the same way
as the pyriform egg of the ovary.

The Race for the Cape May Cup.

LONDON, Aug. 21.—The Times says that
the Satanita will defend the Cape May
cup against the Vigilant. The race for
the cup will take place on Sept. 9. Until
that time the Vigilant will not engage in
any race.

Will Be Returned to Germany.

NEW YORK, Aug. 21.—Frederick Nagle,
the ex-mayor of Leopoldsdorf, duchy of
Baden, who fled to this country two weeks
ago, will be returned to Germany on the
Bavay. He is wanted to answer a charge
of forgery, the amount of which is \$60,000.

BUFFALO, N. Y., Aug. 21.—Presi-
dent Cleveland's health continues to im-
prove, and rumors that his ailment is
more serious than material fever is ac-
counted for by Dr. O'Reilly. The president declines
to say anything about administrative
matters.

REPUBLICANS OPPOSING ORATORY.

They Say They Will Prevent Proposed
Speeches by Democratic Senators with
Reference to the Much Discussed Tar-
iff Question—The Quorum Disappearing.

WASHINGTON, Aug. 21.—Mr. Harris,
from the finance committee, yesterday re-
ported back to the senate the free sugar
bill amended so as to provide a duty of 40
per cent. flat on all sugars. The free coal
bill was reported back amended so as to
provide for reciprocal free coal. The iron
bill was reported back without amend-
ment. The barbed fencing wire
bill was amended so as to make barbed
wire free, the house making free only the
material from which it was made. The
free raw material bills were sent to the
calendar, where they can only be called up
by a majority vote. The senate at 1:35
p. m. adjourned until Wednesday.

Yesterday's session of the house lasted
less than an hour. A few unimportant
bills were passed by unanimous consent.
The house managers have decided not to
permit any more legislation, save by
unanimous consent, and the regular pro-
gram from now until the final adjourn-
ment will probably be the consideration
only of such minor bills as encounter no
objection.

The Republicans say there will be no
more business of importance transacted
in the senate this session, except perhaps
the passage of the bill correcting the al-
cohol schedule. The Republican leaders
say this session is over to all intents and
purposes, and they include in this the
making of speeches as well as the passage
of bills. Yesterday, from the time the
senate met until it went into executive
session, Senator Lindsay, of Kentucky,
was ready to make a speech. The Ken-
tucky senator desires to defend the action
of the senate finance committee and the
Democratic senators who supported them.
It is also understood that Senator Allison,
of Iowa, was ready to make a speech of
some length on the present status of tariff
legislation.

It is possible that both of these speeches
will be made by the courtesy of the senate,
although the Republicans said that no
speeches would be made, and that the only
speeches against any more business in-
cluded also speeches. Some of the Demo-
crats assert, however, that if any attempt
is made to prevent the speeches on the
Democratic side that a quorum of the senate
will be recalled under duress and by the
sergeant-at-arms.

On the Republican side it is claimed
that the tariff debate, as well as tariff
legislation, is closed. This may lead to
some ugly feeling if insisted upon. If
Senator Lindsay should get the floor he
could not be interrupted by points of no
quorum, as he could not be taken off the
floor without his consent, but whenever
the attempt is made to call up the resolu-
tion upon which he is to speak the point
could be made, and the present indications
are that when the senate meets tomorrow
it is made to a quorum present, as a
number of senators intend leaving before
tenth.

Senator Harris has given notice that
immediately after the reading of the journal
tomorrow he will move an executive
session. This is in the interest of Judge
Porter, of Tennessee, whom he desires to
have confirmed. If there is objection in
the executive session sufficient to cause
the point of no quorum to be made, it
will result in carrying the nomination
over until after adjournment. There
seems, though, to be a quiet understand-
ing that there shall be a confirmation or
rejection without regard to the presence
of a quorum upon the vote which may be
cast.

An Ex-Police Captain Arrested.

NOBOLK, Va., Aug. 21.—Captain M. J.
Vellines, who was recently removed by
order of the police commissioners, and
who has since continued wearing his uni-
form and reporting for duty daily, was
yesterday afternoon arrested by order of
the commissioners on the charge of imper-
sonating an officer. Counsel for Captain
Vellines immediately sued out a writ of
habeas corpus, and the court ordered his
release, on the ground that the arrest was
illegal, no warrant having been issued.
The matter will probably come into court
again in a day or two. Captain Vellines
is thought to wear his uniform and it
is thought will sue the commissioners for
false imprisonment. There is much feel-
ing here over the arrest.

A Plague of Grasshoppers.

HORNESVILLE, N. Y., Aug. 21.—Farm-
ers of Steuben county are much alarmed
over the appearance of grasshoppers in
large swarms. Owing to the extreme dry
weather their numbers are increasing
rapidly, and in many places they are at-
tacking all kinds of vegetation. Many
fields of buckwheat for a distance of two
miles around the outer edge look much as
if it had been used for a race course, the
buckwheat being eaten off close to the
ground. Farmers in many instances have
been compelled to eat their oats green in
order to save them. The pests seem to be
working eastward.

Accidentally Killed His Brother.

ATLANTA, Aug. 21.—Robert Spinks ac-
cidentally killed his brother Charles in
Talbott county. Robert was in his brother's
room examining a pistol. The ham-
mer slipped, the pistol was discharged and
the ball struck Charles Spinks in the
abdomen. He died in a few minutes.
Both were prosperous young farmers.

No Prize Fighting in Sioux City.

SIoux CITY, Ia., Aug. 21.—"I will not
permit this prize fight to occur within the
corporate limits of Sioux City," said
Mayor Fletcher, in speaking of the effort
to get the Corbett-Jackson match here.
"What is more, I doubt if it will be al-
lowed to be fought on Iowa soil."

Senator McPherson Will Not Resign.

NEW YORK, Aug. 21.—Senator John R.
McPherson of New Jersey, said in an in-
terview that the report that he contem-
plated resigning his seat in the United
States senate was absolutely without
foundation. The senator intends sailing
for Europe tomorrow.

ing was seized with paralysis of the heart,
and the food getting into his windpipe he

CORRUPTION IN MEMPHIS.

Tennessee's Metropolis Has Been Sys-
tematically Robbed for Eight Years.

MEMPHIS, Aug. 21.—The Memphis grand
jury has unearthed frauds of gigantic
proportions. Through the criminal care-
lessness and neglect of the county officials
the state and county have been defrauded
out of nearly \$3,000,000 in revenue during
the past eight years.
The grand jury began an investigation
a few days ago and discovered that nearly
600 saloons and several other firms, em-
bracing about every branch of business,
had not paid a cent in taxes and privi-
leges in eight years. The jury made a
partial report to the criminal court, and
as a result 750 indictments have been
returned against the delinquents.
Investigation is continued, and the jury
will next turn its attention to the derelict
officers.

Judge L. P. Cooper has announced that
he intended to enforce the law to the let-
ter, and every person convicted will be
punished. The disclosure has created a
sensation. The county has been hard
pressed for money for several years to
meet necessary expenses and it was
only a short time ago that bonds were
issued to raise money to repair the court
house. Had the officials done their duty
the county would have had a large sur-
plus instead of being a borrower.

Mr. Wilson Returns to Washington.

WASHINGTON, Aug. 21.—Chairman Wil-
son, of the ways and means committee,
reached Washington from Long Branch
last evening. His early return was con-
nected with rumors that President Cleve-
land would come to Washington at once,
and that some action on the tariff bill
would be expected. Mr. Wilson denies
these statements, but says that he looks
for the president's return on Thursday.
Finding so many senators away from the
city he does not think that there will be
action upon the separate tariff bills this
session. Mr. Wilson says his return was
mainly because he thought the Tarsney
free lead ore bill would come up, but as
so many members have gone home, he
does not look for any further legislation.

The Climate Was Against Them.

NEW YORK, Aug. 21.—W. D. Hickok,
the captain of the Yale athletic team, ar-
rived from Southampton per steamer Berlin
yesterday. He stated that there was a
little hard luck on the American side on
their Oxford contest. The weather was
distinctly against them, and in the end
won by the English. Experts of Yale
could have made an entirely different
showing in fine weather, as they were not
used to the English fog and haze. Hickok
added that the reception accorded the
Yale team was enthusiastic in the extreme,
and the proverbial hospitality of
Oxford was in no wise belittled.

Sisters May Teach School.

ENHESBURG, Pa., Aug. 21.—Judge Barker
yesterday handed down a decision in the
suit brought by W. T. Kerr, state coun-
cillor of the Junior Order United Ameri-
can Mechanics, against the board of di-
rectors of the Gallitzin school to prevent
the employment of Catholic sisters wear-
ing their religious garb as teachers. The
judge decides that sisters may be em-
ployed as teachers, but that they may be
attired in the garb of their order and that
they may be addressed by pupils by their
religious names; but refuses to allow the
Catholic catechism taught. The costs were
divided.

Chicago's Model Officer Dismissed.

CHICAGO, Aug. 21.—Officer Thomas Bir-
mingham, who posed as a model for the
Haymarket statue, was dismissed from
the police force yesterday for neglect of
duty. When he was chosen from 300 can-
didates there was probably no better built
man in Chicago. During the last three
years, however, he has more than once
been charged with intoxication and ne-
glect of duty. Every effort has been made
to induce the policeman to attend more
strictly to his duty, but to no purpose.

New Jersey's Labor Federation.

ELIZABETH, N. J., Aug. 21.—The sixth
annual meeting of the labor congress of
the Federation of Trades of New Jersey
was held here yesterday, and the follow-
ing officers were elected: President, Sam-
uel Holt of Paterson; vice-presidents, C. E.
Woodcut of Bridgeton and John Weber of
Jersey City; secretary, David H. Green of
Newark; assistant secretary, Robert
Beuro of New Brunswick; treasurer, John
Colvin of Paterson.

Fatal Carriage Accident.

NEW YORK, Aug. 21.—A fatal carriage
accident occurred last night near the
marble arch in Central park. Mrs. Nellie
Schaffner, the daughter of Mrs. Ernestine
Schaffner, the "Tombs" angel, was
thrown from the carriage in which she
was driving and so badly injured she died
soon after. Mrs. Richard Graham, who
was Miss Schaffner's companion in the
carriage, was also severely injured.

New Bedford's Great Cotton Strike.

NEW BEDFORD, Mass., Aug. 21.—Yester-
day the cotton operatives inaugurated
their general strike and nearly 11,000 ar-
dids. The machinery of but five of the
twenty-seven mills in the city is in mo-
tion, and it is thought that these mills
will soon be shut down with the others.
The strike is against a proposed reduc-
tion.

Accidentally Killed His Brother.

ATLANTA, Aug. 21.—Robert Spinks ac-
cidentally killed his brother Charles in
Talbott county. Robert was in his brother's
