HOW TO KEEP COOL DEBS ON THE STAND.

The Strike Leader Before the National Commission.

WHY THE STRIKE WAS DECLARED.

It Was Only Through sympathy for the Suffering Pollman Workers, After Other Efforts Failed-Government Ownership And yet lais is not only pre-silie but it is something that every person can do if the Constabily of Government.

CHICARO, Ang. 21.—Dresident Engene V. Debs, of the American Railway union, 1-tiffed vesterday before the national la-For commission. He said, in answer to a question, he was 38 years old, and in addition to being at the head of the American Hallway union, was editor of The Loco-metive Fireman's Megazine.

menter fironan's Magazine. He testified that from the beginning he was opposed to a strike and so told Vice President Howard. He then continued: "I twice want to G. M. Pullman and to the town of Pullman to theroughly in-vestigate the conditions existing at the methops. I found the employes were not only not getting wages enough to live, but were daily getting deeper into the debt of the Pullman company. No mat-ter how offensive the conditions were there, the men were obliged to submit to them. then

"When I found out all these things I When I found out all these things's immediately determined that the A. R. U. should go to the assistance of these un-fortunate people. We believed that any fair beard of arbitration would have deinit board of arbitration would have de-cided in favor of the employes, and all we asked was arbitration. This the Puil-man company arbitrarily refused. Not only this, but when we asked them to es-amine into the question to see whether or not there was anything to arbitrate that ot there was anything to arbitrate, they

not there was anything to arbitrate, they also refused this. "Very much has been said about an al-leged conspiracy against the railroads and against hauling the mails. I want to call the attention of this commission to the fact that every meeting of the A. R. U. was held with open doors, and that re-porters of the press were allowed to be present. If there had been any conspiracy contemplated we certainly would have contemplated we certainly would have been more secret about it. "Not only did the employes of the var-

ious railroads strike because of the in-justice being done to the Pullman emloyes, but because the various roads had grievances of their own, which I shall pro-ceed in time to show. We used our in fluence to prevent strikes during the World's fair, as we did not believe it just to the public to inaugurate a strike at such a time. It was all that could be done by the leaders of the labor unions to prevent a strike. In view of the men's working throughout the fair, the railway manincomposition the fails of the formised an in-crease of wages after the fair was over. Instead of doing this they began immedi-ately after the fair clowed to begin a sys-tematic reduction of wages throughout

the country." President Debs said, moreover, no rall road reduced the wages of all its men at the same time, but reduced them by sec-tions. He declared the A. R. U. viewed these reductions with the greatest appre-hension. The organization felt that the

time had come to act. time had come to act. The witness enumerated the failures of the old abor organizations to gain redress for the grievances of the employes, and asserted they feit their only hope lay in the A. R. U., to which they finally turned for help. "I would like to state," said Mr. Debs, "the sails and comparise have never

"That the railroad companies have never raised wages of their own accord. Every increase in wages hav been wring from them by organized labor." "Do you claim," asked Mr. Wight, "that

the railroads were responsible for the strike because they insisted on hauling Pullman cars?"

Pullman cars?" "No, sir. The American Railway union was responsible for it, but under aggrav-ating circumstances. The general man-aggravity are united to reduce wages. The environment of the reduce wages are united to resist such reductions. In case of a reduction that leads to a strike we think the company respon-

sible. "What is your opinion as to methods of averting strikes?" asked Commissioner

Worthington. "My own idea, and it is the idea of the American Railway union, is to unify all the railroad men of the country. A power like that, prudently managed, would avert strikes. The railroad managers

If You Carefully Act Upon the Advice Given Below You Will be Pleased with the Results.

"Keep cool."" Excellent advice in -ummer time, but not very easy to follow. Apparently, it would be just as reasonable to say "keep

strong, healing and vigo as amid the sweltering heat of this trying season." right means are adopted.

Keep cool 1 When you feel tired out on a hot day, have no appetite and first scarcely able to work, don't rush off for a drink to "brace no" on or swallow some other injurious stimulant. Follow common sense prindples. You are languid and lach energy secause your system is in a low condition. You are hot because your body does not throw off the extra warmth that is gen erated. You are weak because you do not get sufficient nourishment. There is only one way to overcome these unhealthy conditions and that is by supplying what the system needs, by restoring healthy action. The best way to do this is to take the newly discovered pre-digested food at least once daily. This food which is known as Paskola is not a drug or a concoction but a pure starchy food, in liquid form, delicious to the taste and exceedngly refreshing. Being pre-digested it is absorbed by the system the instant it is swallowed. Paskola gives tone to the system, it prevents dyspepsia, it perfects the digestion. It imparts strength and vigor to those who are weak and debilitated. As a health-giver it is unsurpassed.

Keep cool ! Loss of health means loss of a great many other things also. It pays to be well. If you would feel cool, strong, well, vigorous and ambitious in spite of summer heat, try Paskola. You will like it; everybody does who has ever taken it. You are sure to recommend it after taking it as others have done. Paskola is popu lar because it has merit.

A pamphlet giving full particulars about Paskola will be sent on application o the Pre-digested Food Co., 30 Reade St., New York.
