# A GREAT PROPHET

What He Has to Say About Forcielling the Weather and Preserving the Health.

Probably no man connected with the Weather Department is so well known or popular as Sergeant Elias B. Donn, who has charge of the Bureau in New York City. He is a bright, happy man, with a clear eye and a springy gait, although his duties and cares are numerous.

"How do I keep well and fat and chipper," he said recently to a newspaper man who asked him the question," why I look after my health carefully, that's No matter how hard the gales may he or how much responsibility for the weather I have on my shoulders, I look out for my digestion very carefully. I am a firm believer in modern discoveries and have found that the pre-digested food Paskola, does wonderful things for those who use it. I use it in my family and flud that it is not only a food that enterquickly into the blood and life but that it aids all other foods to digest. People who wish to be up to the times and avail themselves of all modern discoveries of improvements should by all means us Paskola. If you are not thoroughly posted about it and want to know more go around to the Company's office at 30 Reade street, New York City, or better still, send for a pamphlet giving full particulars about it. I tell you you will never forget it."

Sergeant Dunn evidently believe thoroughly in everything he undertakes and he is just now utilizing the electrisearch light, in which he is interested, in throwing the word Paskola upon the clouds and walls where the light is emplayed. All that can be learned from what he says regarding Paskola is more than true and it is by no means surprising that it has become so popular.

A pamphlet fully describing Paskela and what it does, will be sent free to any address, by the Pre-digested Food Co., 30 Reade St., New York.

Editor Herald:—I was very much interested in your article of yesterday on the Crawford county system for holding primaries and the bearing it would have on local politics if adopted here. I had never heard of the system before, but since reading your article I have become a Crawford convert. Speaking of purifying politics, let me ask if it is true that the recent trips of many of our townsmen to Atlantic City and other points originated in anything connected with the recent Republican primaries?
