AUGUST FOR HEALTH.

It Must be Whether You Take a Vacation or Not.

Take Time Now to Strengthen Nerves and Body.

See That Every Part of the Body Becomes Well Fed.

Eleven months for business, for money making, for absorbing work. Take Au gust for becoming strong and well.

Get back to your proper weight; relieve the tired nerves of their irritability; fill the body with ruddy, vigorous, serviceable You will work to twice the purpose with a clear head and a body undisturbed by aches and pains.

Give Paine's celery compound a fair trial to August.

Wearlness and lack of strength is a matter of the nervos and brain. It is the exhaustion of the nerve centers that produce the feeling of lassitude and depress

Digestion and assimilation are the first to become affected by diminished nerve power, and as these functions are so close ly connected with every part of the body the entire system in their disorder. Men and women about middle age take little exercise, their blood becomes slow and impure and all their important organs sluggish, while a constantly increasing load of anxiety and care keeps their nerves from being properly nonrished. Such persons will find a steady gain in health, in vigor and good spirits from Paine's celery compound taken stendily through the month of August.

The reason for the high regard in which Paine's celery compound is held by physiclans for building up the weak, the sickly and the nervous, is because all its in gredients are known to medical men to feed the nerves and to provide pure and rich blood for all the weak parts of the body. Every trace of nervous exhaustion disappears when the nerves that govern the functions of the body are thus aband antly supplied with their appropriate food.

The disturbances of the nervous system, whether neuralgia, rheumatism, debility, extreme nervousness or heart trouble, are due to derangements in nutrition. Headache, a sense of weight on top of the head, a feeling of constriction about the forehead; these are very sig-nificant symptoms and should be heeded Better and more complete nutrition is demanded for the nerves and brain. Thin pale faces, wasted frames, unhealthy skin and low spirits tell unmistakably of blood too thin and poor to properly nourish the body.

Paine's celery compound brings an Increased, natural appetite, assists the assimilation of the food and quiets and restores a healthy pervous action.

Now or Never.

My boy was taken with a disease resembling bloody flux. The first thing I thought of was Chamberlain's Colle, Cholera and Diarrhoza Romedy. Two doses of it settled the matter and cured him sound and well. I heartily recommend this remedy to all persons suffering from a like complaint. I will answer any inquiries regarding it when stamp is in closed. I refer to any county official as to my reliability. Ww. Rozath, J. P., Primroy, Campbell Co., Tenn. For sale by Gruhler Bros.

San Francisco, Aug. 25.—General An-tonio Ezeta and his fellow refugees from tonio exeta and his fallow refugees from San Salvador were presoners before Judge Morrow, in the United States district sourt, resterday, fixeta, who is a fine obysical specimen, with decided features and courtly hearing, was most observed. From his waistcoat hung a magnificent gold chain, studded with diamonds. The general's enemies in the court room pointed it out as a relic of his grael reign in San Salvador. They said it had for merly been the property of Carlos Mendence, a millionaire planter, who had been robbed of his wealth by the Ezetas, and that the chain was among the spoils

greedily seized by Antonio.

After the process in the case had been read the prisoners' counsel demanded an Immediate bearing. They stoutly main-tained that the prisoners were political refugees and were unlawfully detained, and that they had been illegally restrained since June 6 last. Exeta, it was argued, was then president of the defacto government, and was afforded asylum on an American man-of-war. At the time there was no authority in San Salvador which the United States government could recognize. The attorneys for San Salvador ar gued for a continuance pending the ar-rival of important evidence. Judge Mor-row continued the case until Monday, Sept. 8. Thereupon counsel for the de-fense moved that the defendants be ad-mitted to bail. Judge Morrow took the motion under advisement.

Meantime the prisoners will take up quarters at a hotel under guard.
