#### LIVED A DOUBLE LIFE.

Sequel to a Murder by Train Robbers Near Chicago.

DASE OF DR. JENYLL AND MR. HYDE

A Vennig Man, Holding a Responsible and Enerative Position is the Day Time, Becomes a Bandit by Night, and Finally a Murderer.

CHICAGO, Aug. 27.—Two desperadoes hold up a Chicago, Milwankee and St. Paul freight train just over the county line, killed Rallroad Detective Patrick Owens, and robbed the conductor and escaped. Officer McGrath was probably fatally shot while trying to catch them, and a force of police and civilinus only captured them in a woods after the exchange of a hundred shots and a six hours, these

The desperadoes fought off the bluecoata and excited civilian participants in the housted and then, unable to reply to the firs that was poured in upon them, sought rafety in flight. Bullets from the officers' revolvers brought both men to the earth and when the police apprehended the men they were weak from the loss of blood.

As soon as the wounded men were taken in charge the infuriated citizens demanded

that the wounded men be immediately deprived of their lives. The officers were forced to draw their revolvers to save the men. The crowds made desperate at-tempts to get the bandits from the police, but each time they were replused without bloodshed. Police Inspector Schaack took charge of the prisoners and started at once for the West Avenue station with them. There the desperadoes gave their names as Will Lake and H. F. Gorman.

Lake, who is about 24 years old, was shot in the neck and his recovery is doubtful. He admitted killing the detective and policeman. The other robber was not dangerously wounded.

The man giving his name as Gorman has been identified by responsible parties as H. E. Griswold, a well-to-do local in-spector of the Manchester Assurance company. It appears to be a case of Dr. Jekyll and Mr. Hyde. Griswold had no need to steal or shoot his fellowmen, but he did it apparently because he loved the mystery and excitement of such a life. mystery and excitement of such a lite. Crime has apparently become a pastime with him, and he is supposed to have found an apt pupil in Lake, a poor unemployed laborer. During the day time Griswold filled the important position of fire risk inspector, which he used as a cloak for his marsuding excursions during the night. ing the night.

About five years ago Griswold married a country girl, and she became Mrs. Gor don, not Griswold. Since then they have lived in various parts of Chicago, their last residence being at 18 Curtis street. Yesterday the timid, frightened wite called at the police station and gave her name as Gordon, saying she never knew her husband by any other name. It is believed that the police department, with the help of the railroad companies, are running to earth in this dual arrestalong train of depredations of which Griswold

is the center.

The story of Griswold's life, so far as known, is unique. Born almost twenty-eight years ago, his father tried to give eight years ago, his father tried to give him a fair education, but the boy's in-stincts were wild and lawless. He event-ually disappeared from home, and was next heard of in the west as a cowboy and ranchman. After several years of adven-turous life in California, Oregon and Idaho he came to Hilnois and secured em-ployment as a brakemm at Bock Island, His. While there he married and with pleyment as a brakemin at Nock Island, Illia. While there he married, and with the influence of his wife beam to live a quieter life. His father, who is a travel-ing inspector for the House Fire Insurance company of New York, noting the im-provement in his behavior, used his influ-ence to secure the son a position with the local office of the Manchester Assurance

Young Griswold grew proficient in his new position and soon drew a handsome salary. However, the reformation was not complete, but just when Griswold began his double career, while in the employ of the Assurance company, is not known. Further disclosures are expected at the inquest over the remains of Detective the second to using the wires every day. These who don't, however, leave two Owens, which has been postponed for a or three second like this week to permit the police to make a full Pirst Attempt—Don't you worry any-investigation of Griswold's and Lake's Second Attempt—Don't worry any more

Lake, who was so desperately wounded In the raid, is feeling better today. It is said that he came of a good family, and that his father is William Lake, of Os. Not infrequently two or three trials are wego, N. Y., a traveling man for a New York newspaper. Lake is a casket trim-mer, and had been out of work for months, and he and his wife were ou the verge of starvation.

HUMOR IN MESSAGES.

Unfinished Blanks Left In Telegraph Offices Which Show Mental Perturbation,

If persons will leave their half finished res around the telegraph offices, they ought to at least be of a cheerful and hu-morous character. When you run in dur-ing the day to write a dispatch to your wife that you will not be home to dlimer, and God bless her, because you are detained on pressing business, and come across thing like this on the top of the telegraph

blanks it pains you:

"For God's sake, hurry up! I am thred

The inference is that the soduc-tive message is from girl to girl and that there is a numebuly also whose more it is there is somelosly else whose name it is unnocessary to mention. ### DEATH IN A CYCLONE.

Terrible Destruction on the Sea of Asov and Inland.

FULLY A THOUSAND LIVES LOST.

This Does Not Include Those Undentited; Last on the Sex-Flood Devastates a Valley in Initia, but the Activity of Gov. erament Officials Prevents Loss of Life.

Sr. PETERSHURO, Aug. 27.-A wind of death. No other name can describe the cyclone that swept across the Sea of Azov Saturday. It will be impossible for days yet to compute the damage done, but it is almost certain that at least 1,000 people almost certain that at least 1,000 people have perlahed, some by drowning, others by being crushed under failing houses and trees. The excitement is great amount the American colony in this city, for it is feared that at least two parties of American tourists were on the Sen of Assov at the time the wind did its deadly work.

There has been astream of callers at the office of the American minister addition.

office of the American minister, asking almost begging, for news from Odessa whose the tourists were to have started on the regular sightseeing trip across the Crimea, visiting Sebastopol, Balaklavs and the other famous battle scenes. The parties were separate, but it is probable that they started within twelve hours o such other, and according to the schedule of these excursions they would have reached the Strait of Kerteh Saturday morning, thence to go by steamboat north to Berdiansk, where they would take the

train back to Odessa.

It is said that the leader of one of these parties had proposed a trip a short dis-tames north from Temrink into the land of the Black Cossacks. If his party branched off in that way they have nu-questionably perished, for the hurricane ravished almost the entire east shore of the Sea of Arov. Everybody is praying that some lucky chance delayed the excur-

At a late hour there was still only At a late hour there was still only a general report of the disaster on which to base surmises of the Americans' safety. This report recounts wide havoe. The wind was first felt at Nogaisk. Nogaisk is peopled mostly by fishermen, who were out on water. When the hurricans had awept out to the north a terrible scene was presented. The village was razed overturned, as if an immense plow had been pushed through it. Lying every where were women and children, dead of in the last agonies of death. The shallow waters of the Sea of Azov was lashedlinte such a height that it was plain that every fishing boat must have been sunk.

The cyclone swept on to the northeast

The cyclone swept on to the northeast after wrecking Nogalsk. Its path seams to have be a unusually wide, for at Mari nopal it devastated the country to a point eleven miles inland, and had its outer edge for upon the sea. Marinepal was practically blotted out of existence. Not three houses in a hundred are left stand three houses in a numered are left standing. It is estimated that over 200 perialized

Thousands of tons of water waters. Thousands of tons of water poured through the valley like a cataract sweeping everything before it. Huge boulders were swept along like pebbles trees were uprooted and carried on the creat of the flood, and villages along the valley were swept out of existence an in stant after the rearing torrent of whit ened waters struck them

The rainfall during the mousoon ha-been noticeably heavy, and the lake ros-with great rapidity. The percolation at the dam became very heavy, and the engineers who examined it decided that it breakage was intuined. To repair i was impossible, and the government therefore took steps to prevent any loss of life when the break came. Elaborat railway and telegraph arrangements were made, and when it became known that the dain would go out the people neares the point of danger were carried by the railways to places of safety, while those further down the valley were notified to pack up their belongings and be prepared to leave their homes when called upon by the government to do so.

The call was soon issued, and the pe

ple were taken away, so that when the flood came the valley was deserted by everyhody. To this wise foresight of the government is due the fact that great loss of life was not caused by the flood.
