THE DROUGHT_ELEWHERE.

Ashland and Mahanoy City Suffering For Want of Water,

Ashland is suffering for want of water. The supply has become so small that patrons using the water for motor pur-poses have been cut off. The public will probably be put on short hours soon. The

probably be put on short hours soon. The artesian well which was put down last year in connection with the public water works has been found inadequate to supply the demands. On Friday a test was made, but the pump did not throw one hundred gallous a minute. The artesian well has been such to a depth of six hundred feet. Pottsvilles additional storage capacity has enabled the company to supply its patrons out if the drought should continue another month that town will also suffer. The Tamaqua berough water works have also been found inadequate and will have to be ensirged before another year or they will not be able to keep up to the demands.

The Mahanoy City Tribume publishes demands. The Mahanoy City Tribume publishes an like of titleress, especially to the Mainanoy City Water Company has those for been able to keep up the supply by the minancy City Water Company has those indexing all the water from Messeer Rin of their new pump, while has been holdsing all the water from Messeer Rin water to be congratulated upon our supply, for while an roundance of water, we are to be congratulated upon our supply, for while an roundance of water to be congratulated upon our supply, for while an roundance of water for an define on account of the domain our supply, for while an roundance of water for an order to do this it requires all the supply is adequate. The collieries are also being supplied by the Water Co in order to do this it requires all the straines at the several dams. This leads us to believe that the Davie Hun water become the borough should not neglect become the borough should not neglect become the borough should not neglect become the water.

My boy was taken with a disease resem-bling bloody flux. The first thing I thought of was Chamberlain's Collo, Cholera and Diarrhosa Remedy. Two doses of it settled the matter and cured him sound and well. I heartily recom-mend this remedy to all persons suffering from a like complaint. I will answer any inquiries regarding it when stamp is in closed. I refer to any county official as to my reliability. Ww. Rozen, J. P. Primroy, Campbell Co., Tenn. For sale by Gruhler Bros.

Kenneth Basemore had the good for tune to receive a small bottle of Chamber-lain's Colle, Cholera and Diarrhova Rem-edy when three members of his family were sick with dysentery. This one small bottle curred there all and he had some left which he gave to Geo. W. Baker, a prominent merchant of the place, Lewis-toon, N. C., and it cured him of the same complaint. When troubled with dysen-tery, diarrhova, colic or cholera morbus, give this remody a trial and you will be more than pleased with the result. The praise that naturally follows its introduc-tion and me has made it very product and the same destination of the same Bros.

THE KNIGHTS OF PYTHIAS Gathering at the National Capital from

All Sections. WASHINGTON, Aug. 27.-An unwelsom house warming was given the Knights of Pythias encamped in the "white city" of tents around the Washington nonument yenterday afternoon. It came in the form of a fleres thunder shower, which awept

over the city almost without warning, and then settled into a steady min until sun-

then settled into a steady rain until sun-set. Several tenix were dismantied by the aheets of rain which beat against them, and the lightning was unpleasantly sharp. All of the discomforts incidental to the storm, were accompanied in hilarious mood by the kuights, however, and they made fun under the canvases, as well as outside, after the first dreaching wave of rain had passed over. Special trains were pulling into the depots, and the brilliantly uniformed commands in scarlet, blue and white were marching up Pennsylvania avenue through the rain, many displaying handsome banners.

Particularly striking was the Florida phalanx, presenting a gleaming array of white duck trousers and carrying at the head of the line the most famous product of their state, a stuffed alligntor, ram-pant, in the face of the weather hun-dreds of residents flocked to inspect the camp during the day, trooping through the avenues of tents and crowding about the goats and other paraphernalia, ani-mate and inanimate, brought by the west erners. Fine discipline was maintained in the encampment, something like mar-tial regulations being enforced. Three thousand men slept on the light cols un-der canvas last night, while uniforms are the rule rather than the exception on the

Fatally Beaton by Hor Worthless Husband

WILKESBARNE, Pa., Aug. 27.—The wif. of Joseph Miller, a dissolute character, is dying at the hospital from injuries sus tained at her husband's hands. A young girl named Lizzie Williams came down from Pittston and called on the Miller family. The demonstrations of affection ecame so pronounced between the hus beam and the girl from Pittston that the wife objected. This angered the husband, who knocked her down with a chair and beat her brutally. Five of her ribs are broken, her face is battered almost be yond recognition and she is so badly in-jured internally that she cannot recover. Miller is in jail.

New Bedford Strikers Encouraged.

NEW BEDFORD, Mass., Ang. 27.-The police officials were notified by the mangement of the Bristol mill last night that their attendance at the mill gates today would not be needed, as no attempt would be made to run the mills. The operatives held a mass meeting at 0.00 a m, in the vicinity of the mill, in order to give the weak hearted courage. The utmost quild prevails among the strikers. It is almost an assured fact that three more of the large yars corporations will start up this week at the old rate of wages.

Destructive Forest Fires,

HABRISVILLE, Mich., Aug. 27,-Heavy forest fires are raging throughout Algons county, doing great damage to lumber mills and standing plue, destroying crops of all kinds and burning the homes of many settlers. The fires were started early last week in the huckluberry early may were in the nuberior, by berry pickers. There has been no rain in six weeks. Everything is dry as tinder and a stiff wind would ast the whole country affame.

can do to' — "Yes," exclaimed Jenkinson in a hollow voice. "Fellsty, I think I know where that ring is. If you would do me a favor, I shall never forget it until the last hour of my life. For mercy's sake, go and get me a bootjack and leave me to myself a few moments.''--Tit-Bits.

THE DEEP SEA DIVER.

His Calling Is Likely the Most Grewsona of all Occupations.

Beyond all question the calling of a teep sea diver employed in examining and dearing away sunken wrecks is the most rrewsome. Putting aside the fact that his itie is in constant danger from the results of submarine enemies or accident to his diving dross and apparatus, the sights that he is called upon to see, and to see, more over, and the most horrible surroundings, exceed in ghastliness even those which the hospital or the army surgeon is called upon to confront. Nowhere else on land

added the awful gloom and silence amid which the work has to be performed, there will not seem to be much doubt that of all modern callings that of the deep sea diver is the most grewsome.—Exchange.
