

Harvest Time Coming for Cholera Infantum.

Ignorance or Carelessness of Mothers, Says Board of Health,

Is Largely Accountable for This Slaughter of the Innocents.

September is the deadliest month for infants under 5, as November and December are the healthiest.

And the nights are deadlier than the days.

A strange ignorance exists among many mothers that diarrhea is natural during teething, and need not be checked until that period is over.

No more fatal ignorance ever entered parents' mind!

The greatest source of the fearful infant mortality for the next month will be diarrheal diseases wholly due to improper food, encouraged by high temperature.

JESSIE ALLEN GRISWOLD.

But for this ignorance and carelessness in baby's summer diet the hot months might be as healthy as any, and August and September would not have an infant death rate so fearfully in excess of the yearly average.

Lactated food has been expressly prepared to meet such cases. Under the advice of the professors in the medical department of Vermont university, more especially Prof. A. P. Grinnell, dean of the university, and Dr. S. M. Roberts, professor of the diseases of children, and under the direct supervision of Prof. C. S. Boynton, the manufacture of lactated food has been carried on.

Lactated food has the confidence of physicians because every ingredient is well known to them. Made under the eye of an eminent physician as Prof. C. S. Boynton, scrupulous care is known to be employed in securing absolute purity, reliability and thoroughness in its manufacture.

Lactated food should be given to all babies and young children who do not eat with relish, who are weak and drooping. But a few meals make the little sufferers "pick up" wonderfully, nurses say. The thin blood must grow rich on such a healthy diet.

"This picture of our baby, Jessie, was taken at sixteen months, when she weighed twenty-four pounds. She was a very delicate child and not even our physician thought we could raise her. When five months old we made a change in her food, which had been sterilized milk, and tried other food, but without good results, and then sent to you for a simple package of lactated food, and she has taken nothing else from that time to this. She is perfectly well and is as bright and happy a baby as one could wish to see."

OUR MINISTER TO CHINA

Report That Colonel Denby May be Succeeded by His Son.

WASHINGTON, Aug. 31.—It is rumored here that, as a result of a romance involving the present American charge d'affaires at Peking, the United States may have a new minister to China.

Ever since Colonel Charles Denby was appointed American minister to China, nine years ago, his son, Charles Denby, Jr., has been secretary of legation. The young man is proficient in the Chinese language, and has made himself very popular at the court.

CHARLES DENBY.

His father has been engaged for some time to Miss Martha Orr, of Evansville, Ind. It is said that this marriage may be brought about that the proposed diplomatic change has been suggested.

Colonel Denby has aged very rapidly of recent years, and would gladly resign. His son is anxious to succeed him, and it is confidently believed that the father will retire and the son be promoted. Such a change would be looked on with favor by the Chinese court, and the Indiana delegation in congress will not object to the appointment.

To Break the Massillon Strike.

CLEVELAND, Aug. 31.—The coal operators of the Massillon district were in session at the Weddell House yesterday for the purpose of choosing three mines to be opened and operated with non-union men from other states in case the old men decline to go to work. The Massillon miners, nearly 4,000 in all, have been out since Feb. 17, declining to accept the Columbus agreement, and holding out for seventy cents, while the operators will not pay more than sixty cents.

A Female Horse Thief Captured.

GUTHRIE, O. T., Aug. 31.—Deputy marshals from the Osage county brought to this place and lodged in jail a good looking girl dressed in man's attire. She has, unaided, made way with several scores of valuable animals. She is Mary Hopkins, the daughter of a well-to-do Kansas farmer, and at one time was a belle in Leavenworth society.

Sending Warships to Tientsin.

LONDON, Aug. 31.—A dispatch from Shanghai says that, notwithstanding the imperial warnings against assaults upon foreigners, an uneasy feeling is growing at Tientsin, owing to the fact that numbers of young and undisciplined recruits are arriving there. The foreign residents are arming and combining for mutual defense. In response to their representations, France, Germany, Great Britain, Russia and the United States are each sending a warship to Tientsin. The United States will send the Monocacy.

HEMINGTON, W. Va., Aug. 31.—The authorities of Lincoln county arrested John Peyton, his son Elisha and Wilton Gross on the charge of assassinating Albert Keyser on Saturday night. While the prisoners were under guard at the house of Constable Willard Adkins, a mob appeared to lynch them. The three men were turned loose, and ran for their lives into the mountains, escaping the mob, or they would have been strung up. The greatest excitement prevails there.

The Other Day

There seemed to be a misunderstanding about the meaning of the above cut—the 500 lbs. does not refer to the STRENGTH of the Butter. It means that we sell over 500 pounds a week of the Finest Creamery Butter made in the country—we get it fresh every other day and our customers understand that the 500 refers to QUANTITY, not QUALITY.

USE WATER ECONOMICALLY.

The Continued Drought Necessitates a Further Restriction in Supply.

It is very essential that the people of the town shall exercise the strictest economy in the use of water supplied by the Shenandoah Water & Gas Company, as the supply in the reservoirs has been so much reduced by the continued drought. THE STRIKE COMMISSION

Mayor Hopkins Declares His Sympathies with the Strikers.

CHICAGO, Aug. 31.—Charles Stewart Wade, in the legal employ of the Rock Island road, but at the time of the strike a reporter for a Chicago morning newspaper, was the first witness called by the strike commission yesterday. Mr. Wade carefully examined switches that had been tampered with, and declared, from a previous knowledge of railroad men, that none but railroad employes could have so manipulated the complicated system, which was an interlocking one.

W. R. Mooney, a Northern Pacific switchman, of Blue Island, said that Debs and Howard had not advised the men to strike, that they had told the men to use their own judgment. He said he was discharged for alleged activity in the strike.

W. F. Gulon, a reporter, was next called. He went over the incidents of the strike at Blue Island and Burnside, Fordham and Pullman. He saw the cars burning at Burnside. He found only three railroad men in the nearest crowd, which was three blocks away. The railroad men were trying to disperse the crowd. One of these men said the instructions from the American Railway union headquarters were to drive away all persons who might be inclined to damage property.

Vice President Howard, of the American Railway union, was again called to the stand. Mr. Howard denied that he had advised violence, and declared that he had always counseled moderation and denounced lawlessness. His only remarks of an "insubordinate nature," he said, was the advice he had given the men to use coupling pins on people who might endeavor to stir up trouble in the union on a basis of differences in religion. He denounced the American Protective association, and explained how emissaries of the corporation had frequently endeavored to foment dissensions in labor organizations on account of religion.

Mayor Hopkins testified regarding the attitude of the police during the strike. He declared that they had done their duty at all times. He frankly acknowledged that he was in sympathy with the striking employes of the Pullman company, as he had been an employe of that company and knew what the men had to endure.

Determined Elopers.

BOWLING GREEN, Ky., Aug. 31.—Miss Hattie Hines, of St. Louis, who has been a guest at the Moorhead House, eloped with Hugh B. Wright, one of the city's wealthiest young men. Miss Hines' mother had kept her daughter confined in her room all day to prevent an elopement, but on coming from supper Miss Hines broke away from her mother, jumped into a cab in waiting, and the pair were off at breakneck speed, the young lady bareheaded. The mother followed on train to intercept them at Gallatin, but failed to catch them. Miss Hines is a daughter of a wealthy stock dealer of St. Louis.
