WHEN the McKinley bill passed it author was much the worst-hated Amer ican that the Euorpeans could Imagine. He was personally denounced by many of the leading papers. On the other hand, Prof. Wilson is very popular in Europe, especially in England; has received a number of flattering invitations to visit, and has accepted enough of them to occupy his entire vacation. Trust the keen-witted foreigners for recognizing their friends and allies. The English manufacturers could well afford to present Mr. Wilson with a ducal estate.

THE LABOR QUESTION.

The testimony of Mr. Gompers, the head of the Federation of Labor, before the commission at Chicago, taught a doctrine which the workingmen used to hold in years gone by, but which exper lence has compelled them generally to question. He reasoned that strikes were senso Marquez, on the north side of Dela-necessary, as the only means of compelling employers to recognize that there is a point beyond which labor cannot be oppressed without the large loss which such struggles involve. But the strike also involves loss for the workers, and in most cases a loss which they are less able to bear than the employers. Not infrequently, too, as workingmen have begun to discover, the strikes bring profits rather than losses to the employers. The | wille. great strike of coal miners this year doubled the price of all the coal on hand for a large number of mine operators. The print cloths unsold and on hand before the strikes at Fall River and New-Redford began were about 1.150,000 pieces, and already large sales are being made at

an advanced price. If workingmen's organizations were at ways wise, strikes would not be attempted at a time when they profit employers and are likely to fail. But it is no injustice to workingmen to say that their organizations are not always wise, and if they were, the occasions for strikes would be less frequent. Part of them have their origin in the fact that organizations exist, which give the members a sense of power so dictate terms, and when men think they have unchecked power they are apt to err in judgment. Another part springs from the fact that there are ambitious or well-paid leaders who feel that they must maintain their ascendancy by doing something, or appearing to do something, of importance. But perhaps the most fruiting the state of digustion and nutrition, rouses every organ into natthey have unchecked power they are apt

though it would hardly be claimed that the employers in like circumstances have a right to force workers to bear all the loss without suffering any dimination Robert J. Lowers All Previous of their profits. But the main question is whether it pays to endure great sacriftces and share large and certain losses in the hope of escaping a loss which naturally fails upon all engaged in the business affected.

A NEW PACING RECORD.

Performances in Harness.

AND IS TODAY KING OF THE TURF.

The Great Son of Hartford Covers a Mile in 2,03% - The Last Quarter Made in Just Thirty Seconds-An Enthusiastic Dem stration at the Finish.

FORT WAYNE, Ind., Sept. 1 .- Mascot, Flying Jib and Nancy Hanks have been dethroned, and Robert J. stands today king of harness horses. The great son of Hartford, Driven by Ed. Geers, yesterday made the fastest mile ever paced in har-ness, lowering the world's record of 2.04 to 2.08%. In addition to three events the card yesterday contained three specials. The track was in excellent condition and the weather was warm with a light breeze but not enough to interfere with good work. Lady Houk was the first to attempt to beat her time of 2.20%, and she elipped off one-fourth of a second, making

Then came Alix. The Immense crowd was deeply interested when Driver Mc-Dowell nodded to Starter Walker for the word, and away went the little mare at a clipping rate, and without a skip pulled in under the wire in her record time. Fantasy, 2.07%, next caused enthusiasm by pulling off the half second and giving her self a new record of 2.07.

Then eame the event of the day. Ex-citement was at fever heat when it was announced that Robert J. would go. Geers appeared confident that he would equal his record, yet hardly any one expected the wonderful termination. After about tan minutes spent in warming him up Geers scored down the track with a running mate hanging on his wheel, but the silent man was not fully satisfied, and the word was not given.

Again Geers scored down the track, and

as he neared the starter's stand Robert J. was as steady as a clock, and going like the wind. Geers nodded for the word, the wind. Geers nodded for the word, Starter Walker gave it and Robert J. shot forward like an express train. On the first quarter he sped in 80%. Every body watched the half, and when that was passed in 1.01% the nerves of 5,000 people were wrought to the highest ten-sion. Geers slowed up a trifle, but when the three-quarter post was passed in 1.83% all were certain a world's record would be broken.

Geers again let the great horse out, and as he swung into the home stretch down became like the wind, and crossed the wire in 2.03 % making the last quarter in just thirty seconds. The crowd was almost breathless until the wire was crossed, and, as the time was caught by hundreds of watches, one mighty shout rent the air, and it was a most enthusiastic dem-onstration that took place.

No Case Against Postmaster Malone. LANCASTER, Pa., Sept. 1.—The hearing of the charge against Postmaster Malone of violating the civil service laws by removing subordinates for partisan rea-sons, which it was thought would occupy First Assistant Postmaster Jones and Civil Service Commissioner Roosevelt a month or more, was brought to an abrupt termination yesterday afternoon. The officials announced that the evidence is very conflicting in many cases. They therefore deem it best to take no further action, except to see that the law is rigidly observed hereafter.

Engineer and Fireman Killed.

GRAND RAPIDS, Mich., Sept. I.—A Chicago and West Michigan fast train was wrecked twelve miles south of Baldwin by running into a berd of cattle. The engine was overturned and the entire train ditched except the parlor car, which remained on the track. Fireman John Mathed on the trace. Fireman John Kobe, of this city, was instantly killed, being croashed under the engine, and Engineer John S. Patterson was so badly injured that he died after being brought to this city. One passenger, a Mrs. Docker, was slightly injured.

Boise, Idaho, Sept. L.—A hundred In-dians from Fort Hall reservations are committing depredations in Owyhee county. They are camped in the vicinity of Bruneau, and are slaughtering game ruth-Game Warden Johnson to warn them to desist, but the Indians acted in so threat-ening a manner that he beat a hasty retreat. He reported that they killed a Chinaman on Thursday, and settlers are much alarmed.

Women Cause an Election Riot.

VINELAND, N. J., Sept. 1.—An election was held in Deerfield township yesterday to decide certain items as to school sup-plies in the district. The women wanted to vote, and tried to assert their supposed rights at the polls. This caused much bad blood, which finally resulted in a small riot. Knives and pistols were called into use, and one man was painfully wounded and several others injured.

Morton Willing to Stand.

REINECLIFFE, N. Y., Sept. 1.—Hon. Levi P. Morton, in an open letter to the Republicana of the state of New York, says: "I appreciate the importance of the office of chief executive of New York state, and should I be called to fill it I shall strive carnestly to serve the people with steadfastness of purpose and to faithfully administer a public trust,"

Baltimore Out for the Pennant Baltimore, Sept. 1.—Manager Hanlon announces that the Baltimore team is out for the pennant. He has just closed a deal with Manager Barnie, in which Pitcher Inks and a bonus is exchanged for Pitcher Hemming. Hemming will arrive Sunday and will probably pitch in one of the games against Cleveland on Monday.

Hungary's Wheat Crop.

BUDA PESTH, Sept. 1.—The statistics prepared by the board of husbandry show that the wheat crop of Hungary amounts to 42,989,925 double centals, of which 12, 000,000 double centals are available for export. The crop of rye is 16,363,168 double centals, of 1,800,900 double centals are available for export.

Japanese Looking for Armament. BERLIS, Sept. 1.—Prince Kamashina, a a nephew of the Japanese emperor, and a Japanese court official, paid a visit to Krupp's Iron works yesterday, and it is rumored that Japan is about to give the Krupps a large order for armament,

A NEW PLAYERS' LEAGUE

The Basebult Magnates May Bave Formidable Opposition Next Year.

CHICAGO, Sept. 1.—A local paper says Al Johnson, backer of the old Cleveland Players' league, and a brother of Con-gressman Tom Johnson, is said to be en-gineering a scheme for another players league, and with flattering prospects of success. He has abundant means to carry out any plans that he may attempt, and the fact that the western cities are ripe for a change will help him materially in any changes that may be suggested. Mr. Johnson will himself back the new clubs in New York and Brooklyn, and will build a park near an electric line that he owns in Brooklyn, which will be second to none in the country. Philadelphia is anxious for a change,

and several business men in that city will put money into a club. Buffalo, Provi-dence and Pittaburg men are ready to take hold of clubs in those cities, and Billy Barnie will handle the Baltimore end of the deal. Several Chicago men who are known to possess the capital and ability to push matters to a successful re-suit have already taken hold of the mat-ter, and Fred Poffer is said to be the man who will be secured to organize the clubs.

Johnson is said to have expressed him-

self as willing to put \$100,000 into the new organization, and there are several other men who would be willing to invest an equal amount. He believes in the twenty-five cent admission schedule, Sunday games and broad guage lines, and if the other cities mentioned are as ripe for a change as Chicago another year may see two clubs in this city
