## POTTSVILLE CHECKMATED.

The State League Directors Sit Down on a Scheme.

## BASE BALL IS WANTED!

Bunco Games Must be Left to the Fakirs and Not Dragged into the League Series.

The Pottsville base ball management received a set-back last night which must have unstrung its nerves. The directors of the State base ball league met at Hazleton and decided that the vacancy created by the disbandment of the Easton club shall be filled by the admission of the Ashland club.

This action of the directors will be endorsed by every admirer of honest and legitimate sport, although it may be expected that the howls of the Pottsville management will rise to the heavens over the decision.

There has been bitter rivalry between the Pottsville and Reading clubs for first place in the second series of the State league games and Manager Zerr, of the Readings, has been charged with having re-organized and kept the Easton club long enough in the race to give the Readings an advantage over the Pottsville club. The scheme never dawned upon the latter until Zerr had gained the advantage and thrown his tools away.

When it did appreciate the situation the Pottsville management, notwithstanding it denounced Zerr's tactics as "scurvy," stepped into the track the Reading man abandoned and proceeded to a "scurvy" business by attempting to get the Mahanoy City club into the league as the successor of the Easton club.

The object was plain enough to any observer and the Pottsville management did not hesitate to declare that the Mahanoy City club would be managed by a player of the Pottsville club and the games would be so manipulated that the latter club should gain an advantage to counteract that secured by Zerr's trick.

All this was cut and dried without consulting the welfare of the league, or any of the clubs other than Pottsville.

It seemed smooth sailing until some of the other managers, among them Mr. Brennan, of the Shenandoah club, got to the meeting at Hazleton last night and read the riot act to Secretary Diddlelock. These managers argued that to allow the Pottsville scheme to go through would destroy the confidence of the public in the State league game and if it was desired that the Mahanoy Valley should have another representative in the league some disinterested club should be selected.

The argument prevailed and it was decided that Mahanoy City be barred out of the league and the Ashland club become the successor of the Easton club.

The Ashlands take the Easton franchise at once and if it can get a club ready in time will play the first game at Harrisburg to-morrow. It will have no league games at home as they are all scheduled at Harrisburg, Lancaster, Pottsville and Reading, and the last game of the second series is scheduled for the 13th inst. The championship season ends on the 20th inst.

## DOWN AGAIN.

The Shenandoah Club Falls an Easy Victim at Lancaster.

In spite of the easy manner in which it defeated the Lancasters here on Sunday last the Shenandoah club fell easy victims before the same club at Lancaster yesterday, although the defeated team distinguished itself by two doubles and a triple play on record; Stewart, Welkert and Myers figuring in the latter play.

Atherton essayed the role of pitcher, but soon succumbed to the heavy batting of the farmers and was relieved by Yerkes. The new man was very wild.

## STREET GLEANINGS.

They Are Brief, But Will be Found Very Interesting.

"What on earth is the meaning of this great rush?" asked a stranger at one of the depots this morning, as he observed a scramble for the train. "Is there a circus, a picnic, an excursion, or what?" "No, there is nothing of that kind on foot," said the genial ticket agent, Jimmy Quinn, to the astounded stranger, "the people are on their way to attend court at Pottsville."

It is quite evident that Chinese do not like competition. Last Friday three Chinese from Mahanoy City opened a laundry in one of the Ferguson House storerooms. On Monday he ripped out the newly erected sofa and shelves, piled them with his trunk upon a wagon, and started back for Mahanoy City. "Feller on Main street buy me out; allee samoe me go back to Mahanoy Citee. See?" was the explanation given by one of the trio.

A townsman who has been figuring the patronage of the Lakeside Electric Railway says that if that company would drop here fare to five cents between Mahanoy City and Shenandoah the traffic on the line would double. It would not do any harm to experiment on the suggestion, but I fear the company is heartily disgusted with experiments, somebody suggested a few weeks ago that by making attractions at Columbia Park the receipts of the road could be considerably increased. The company secured a minstrel troupe and spent considerable money in advertising. Result? Eleven-twelfths of the people walked out to the park, enjoyed the entertainment and the hop that followed, and then walked home. Even the cost of the dancing music did not seem to touch their minds.

There is a crossing at the corner of Emrick and Coal streets which is a menace to people who are obliged to drive over it. The attention of the borough authorities has been called to it several times but it remains neglected.

A regular meeting of the School Board will be held to-morrow evening and if the little bird up in the tree tells the truth there will be a lively discussion over the arrangements of some of the schools. It is said Superintendent Whitaker is anxious to get several schools of one grade in one part of one of the school buildings, but several of the directors object to the proposition.

## Mrs. Healy Must Wait.

Mrs. Ann Healy, who holds a judgment against the Borough of Shenandoah for unpaid taxes, obtained a rule for an attachment against Borough Treasurer T. F. Bradigan on the ground that he had money in his hands which could be applied to the payment of the judgment. When the time arrived for argument of the rule Mr. Bradigan proved to the satisfaction of the court that all the money in his hands had been appropriated for other purposes and yesterday Judge Pershing discharged the rule. Under this disposition of the case Mrs. Healy must wait until the borough gets sufficient funds to pay her, which may be some distant time in the future, as the borough will require all its spare change to complete the public water works.

## Wait for This.

Ellis Supowitz is circulating among the clothing manufacturers of Philadelphia a new New York scheme. He is shipping goods in daily and on Saturday will open up a large stock of men's, boys' and children's clothing for fall and winter wear; also coats, shoes and gent's furnishing goods of the latest styles. Owing to the new tariff bill he will be enabled to sell everything at prices surprisingly low. 35 South Main street. 9-3-94

## Typhoid vs. Typhus.

Some discussion has been revived in town over the propriety of having public funerals in cases where people have died of typhoid fever. The local Board of Health has assumed the case Mrs. Haley must wait until the borough gets sufficient funds to pay her, which may be some distant time in the future, as the borough will require all its spare change to complete the public water works.

## DIVIDE THE TOWN WARDS

An Old Proposition Revived Again With Suggestions.

## OBJECT OF A DIVISION!

It Can be Accomplished by Committees of Both Parties Getting Together. Lines Suggested.

The subject of dividing the wards of this borough is again floating to the surface, but while many exhibit a will to take hold of the proposition none seem able to find a way by which to put it into operation. It is impossible, it appears, for either party to divide the borough into more wards on a partisan basis, so the next best thing for those in favor of a division is to try and devise some plan for a division on a mutual basis.

It has been suggested that five Democrats and five Republicans, one of each party from each of the five wards, be selected as a committee to discuss the project and come to some amicable understanding. The object of the division is to so divide the wards as to make the work of the election officers lighter and do away with the tedious labors which fall upon the shoulders of all concerned at election time. The population in some of the wards has increased so much of late that it is hard to find men qualified for the position of election officer who will serve. They are opposed to sitting at a poll from seven o'clock on the morning of election day until two and three o'clock in the morning of the following day for the pittance which the law allows, and no one with a knowledge of the labors can blame them.

It is proposed to divide the First ward, making Centre street the dividing line; and the Second and Third wards with the same street as the dividing line; the Fourth ward divided by Poplar street and the Fifth ward by Lloyd.

A gentleman who has been figuring on this basis says it would make the First, Second, Seventh, Ninth and Tenth wards Democratic; the Fourth, Fifth and Sixth Republican, and the Third and Eighth doubtful, although the Eighth ward would probably prove Republican.

Something must be done very soon as the number of voters is steadily and greatly increasing. On the basis above suggested very little difficulty should be experienced in arriving at a conclusion. If a committee could reach this stage it could then agree upon a plan to submit to the court and the whole matter could be adjusted within a very short time.

The gentleman who urges the appointment of the committee has also suggested that the following gentlemen serve as the Republican representatives: Frank Reese, First ward; T. J. Davies, Second ward; A. B. Lamb, Third ward; George Lovas, Fourth ward; and J. L. Hassler, Fifth ward.

## The Water Lining.

The scarcity of water continues and there seems to be no hope for an early improvement in the situation. It is therefore essential that the people should be as economical as possible in using the water during the few hours it is turned on. The water company has placed another stop in the West Centre street main, so that the supply may be better restricted. No dependence can be placed upon the public water works. While work for their completion is progressing favorably a supply from that source cannot be expected for at least several months. Some of the steel pipe which is to be laid from Fowler's Run to the pumping station has arrived, but the work of laying it has not commenced yet. One of the pumps has also arrived. Photographer Bretz, of Pottsville, took views of the Fowler's Run works to-day.

## Mine Host Maxxy!

It will be news to many to hear that Max Reese is about to become the lessee of the Kendrick House, which is located close the Lehigh Valley depot. It is said he has an option on the lease and may take possession before the close of this week. The negotiations have been pending for some time, but chances for a sale of the property have stood in the way.

## Orwigsburg Fair.

The annual exhibition of the Schuylkill County Agricultural Society will be held at Orwigsburg September 11 to 14, inclusive. The fair will be an elaborate one and many very valuable premiums will be offered.

## Water Notice.

On account of the continued drought the supply of water will be turned off at 8 p. m. to-morrow, Saturday, September 8, 1894, and remain shut off until 9 o'clock Sunday morning, when the water will be turned on again until 9 a. m. After that hour the water will remain turned off until 4 p. m. and remain in that condition until 6 p. m. This arrangement will give the people a water supply two hours in the evening and two hours in the morning and will remain in force until the reservoirs are replenished. A watchman will be stationed at Fowler's lumber yard, on East Coal street, to turn on the water at a moment's notice in case the fire alarm is sounded. S. D. HESS, Superintendent. 8-31-1w

## MEDLAR STILL IN CUSTODY.

But his Deficiency With the Railway Company is Adjusted.

SPECIAL TO THE HERALD. MAHANOY CITY, Sept. 4.—The friends of Howard Medlar have made good his deficiency with the Lakeside Electric Railway Company and so far as that company is concerned the young man is at liberty to return here when he pleases without molestation, but he is still in the custody of the police of Philadelphia, awaiting the decision of others who are very anxious that the young man shall remain within call until after the present term of criminal court.

Medlar became defendant and prosecutor in a couple of assault and battery suits arising out of troubles he had with passengers while he was a conductor for the railway company and was put under bail to appear at the present term of court. The people who became his bondsmen in these cases are desirous that he shall be held in custody, as they think his motive in running away was to avoid his trials.

## Will Accept Conditionally.

SPECIAL TO EVENING HERALD. ASHLAND, Sept. 4.—Manager Williams, of the base ball club of this place, states that he has received no notification of the State league's action in admitting his club. If his club has been admitted he will accept the proposition to play the scheduled games on condition that the league furnishes him with players. He is not disposed to engage in any wild cat business and any game his club engages in must be of a bona fide order. It is for this reason that he will not undertake to play State league games with the club he has on hand at present.
