

HIS HONOR, THE BABY.

His Absorbing Love and Loyalty for Mamma During the First Year—Two Hearts That Beat as One.

A pretty, healthy child, With cheeks like an apple, Who babbles, chatters, prattles, Who laughs beneath your kisses.

Perhaps it is well that but few mothers know that more than one-third of all the babies born die before they have lived a year, and that two-thirds of them die in the summer months.

Where the food is absolutely pure and sufficiently nourishing, though the mercury runs high, children get along as a rule perfectly well.

When, for any reason the mother cannot nurse her child, or when her milk is insufficient or poor in quality, the best trained nurses use lactated food at once. It is known to invariably make firm flesh, a clear skin, bright eyes, and to strengthen the body so that diarrhea, cholera infantum and exhausting summer sickness do not easily gain a footing.

BALTIMORE, Sept. 3.—Business here reports that business, while not up to what it was in 1892, which could not be expected, is fully from 15 to 20 per cent. more than it was at this time last year. The improvement extends to nearly all branches of trade, and the outlook is for still further expansion as the season progresses.

A., Des Moines, Iowa, says he can conscientiously recommend Chamberlain's Pain Balm to athletes, gymnasts, bicyclists, foot ball players and the professional in general for bruises, sprains and dislocations; also for soreness and stiffness of the muscles. Now or Never.

People who have not secured copies of the exquisite photographs of the World's Fair embraced in "The Magic City," and superb photographs of famous men and women and scenes in every land as incorporated in "Voyage Around the World," should apply for them at the Herald office without delay, as only a few copies are left and the supply will not be renewed. No household should be without a complete set of these marvelous productions.

While in Chicago, Mr. Charles L. Kahler, a prominent shoe merchant of Des Moines, Iowa, had quite a serious time of it. He took such a severe cold that he could hardly talk or navigate, but the prompt use of Chamberlain's Cough Remedy cured him of his cold so quickly that others at the hotel who had had colds followed his example and had a dozen persons ordered it from the nearest drug store. They were profuse in their thanks to Mr. Kahler for telling them how to cure a bad cold so quickly. For sale by Grubler Bros.

WHEELING, W. Va., Sept. 3.—A special from Elkins says that ex-Secretary of War S. B. Elkins is lying at his home in that place with an acute attack of erysipelas. The Republican convention which is to nominate a candidate against Congressman W. L. Wilson meets at Elkins this afternoon, and the town is crowded with delegates. Mr. Elkins' inability to participate is a great disappointment to him. There is a movement to renominate him, but he is doing all he can to put it off.

Twelve Miners in Peril.

MOWEQUA, Ill., Sept. 3.—A serious accident happened at the Assumption coal shaft, seven miles south of here. In lowering a cage the wire cable broke and the cage fell to the bottom, demolishing everything in its way. The shaft is 1,000 feet deep. The engineer, losing control of his engine, let the up bound cage go up through the roof of the shaft house, carrying complete destruction in its path. The whole side of the engine room was torn out and the cable drums were wrecked. Twelve men at work below have not been taken out. As no air shaft exists there is in a perilous condition.

He says Robert J. can go two seconds faster than his new record of 2:07 1/2, and when asked if the pace could travel a mile in two minutes flat, replied: "I would not let Robert J. pace in two minutes for anything. What a back number he would be then. People would not care to see him after he had reached his limit, and could not approach it again."

Kabyles Engaged in Rapine and Murder.

TANGER, Sept. 3.—The Kabyles around Denmak, a town northeast of Morocco City, are killing the Jews by wholesale, looting their shops and houses, selling their women and children by auction and despoiling their synagogues. Similar outrages are reported at Kalfa, Sadrabel, Tanaal and Taulat. The Kabyles are also besieging Morocco City, and it is feared that the garrison may be unable to resist much longer, in which case terrible scenes may be witnessed when the Kabyles loot the city.

The Other Day

There seemed to be a misunderstanding about the meaning of the above cut—the 500 lbs. does not refer to the STRENGTH of the Butter. It means that we sell over 500 pounds a week of the Finest Creamery Butter made in the country—we get it fresh every other day and our customers understand that the 500 refers to QUANTITY, not QUALITY.

Water Notice.

On account of the continued drought the supply of water will be turned off after 6 p. m. on Saturday, September 1st, 1894, and remain shut off until 7 o'clock Sunday morning, when the water will be turned on again until 9 a. m. After that hour the water will remain turned off until 4 p. m. and remain in force from that time until 6 p. m. This arrangement will give the people a water supply two hours in the evening and two hours in the morning and will remain in force until the reservoirs are replenished. A watchman will be stationed at Fowler's lumber yard, on East Coal street, to turn on the water at a moment's notice in case the fire alarm is sounded. People should be careful and not leave their hydrants open during the time the water supply is cut off. S. D. Hess, Superintendent.
