Notice !

Hereafter all political advertisements etc., MOST HE PAID FOR IN ADVANCE. This is imperative, as the management has ex perimented long enough and finds that collections for this kind of work are mor ensily made at the time the contracts ar made than at any other time.

ADMILIAL SERBIETT fold a reporter that The navy of either China or Japan is superior to that of the United States Let us not boast any more, or until w get some more ships.

With the other losses this year must b counted those of the towns and village of the Northwest by fire, traceable to th unwonted drouth. And they will foot up more than many persons in this part of the world would imagine.

THE awful calamity that has fallen on Minnesota, Wisconsin and Michigan, Instead of being emaggerated in its results in the earlier reports from the stricken region, appears to have been understated. The forest fires have carried destruction and death so far that the victims are now believed to number nearly a thousand, millions of dollars worth of property has been destroyed and whole towns have been swept away. The suffering has of pourse been extreme, and the need of help in great. At the moment of such an overstandowing estamity as this the great benevolence of the American people is displayed. With thousands of acres of ground burned over thousands of homes swept away and perhaps a thousand lives took the need of immediate relief must be great, and the response of our citizens. gught to be prompt and generous

RESISTANCE to taxation is not the basis principle of Anarchism. Anarchists are not taxpayers; and taxpayers are not Anarchists. There may be a few theoretical exceptions to this rule; but none practisal. The more property a man owns, and the more taxes, therefore, he is compelled to pay, the more conservative he becomes and the less inclined toward Anarchism We have certainly never been informed that Vailiant was a large land-owner; or that Cascrio had extensive business interests. On the contrary, they were propertyless, non-taxpaying, non-producing, non-industrial. So with their comrades. By their ewn confession, some of them are common thieves; some of them are so unntterably debased as to live on the earnings of vicious women, and most of them declare their unwillingness to "degrade themselves" by lawful work. Of such are the hosts of Anarchy. To say that they

are Anarchists because they protest against the power of government to levy taxes is so innocurate as to be grotesque. The man who is industrious and provident s called upon to pay taxes; but he pays Fublication office and me harical department, them cheerfully. And the more industrious and provident he is, and the more property he therefore acquires, the larger is the tax-levy made upon him. But because of those very facts he takes all the more interest in the government, is the more devoted to the maintenance of it, is the better citizen, and is the more steadfast opponent of Anarchism and all its works

> THESE murderers of women are under entence to be hanged in New Jersey on Thursday next. For the good of the com nonwealth and the upholding of the law it is to be earnestly desired that the execu tions shall take place as decreed, without any further juggling with appeals and stays. New Jersey has been singularly unfortunate in respect of crimes of violence against women. Several dark mys teries stand yet unsolved on her police records. It is, therefore, especially desirable that in the cases where guilty men are caught and duly convicted the law shall be enforced and its penalties administered with all possible promptness and certainty. This is the only way in which there is any hope of establishing such a respect for the law of the state as will tend to keep men from the commission of bloody crimes.

> > A LIVING NET.

Peculiar Method of Fishing Indulged In by Natives of Oceaniea Islands.

A peculiar method of fishing is in-dulged in by the matives of Teculia, one of the islands of Oceanica. At a given sig-nal the inhabitants of the village assemble on the scashore, to the number of about 200 persons, each of whom carries a branch of cocoa pain. With these in their hands of cocca pain. With these in their hams they plunge into the water, and at a cer-tain distance from the shore-turn toward it, forming a compact half circle, each one holding his palm branch perpendicu-larly in the water, and thus forming a

The leader of the party then gives a sig nal, and this living net approaches the shore gradually in perfect order, driving before it a multitude of fishes. Surround ed by this living wall and entangled in the coool palm branches many of the fisher are cost on the sand by the waves, while others are killed with sticks. After being cooked over hot coals the fish are served

with bananas and escoanut milk.

The scene as described by a Frenchman who recently visited the island was interesting and picturesque in the extreme, the appearance of the natives, whose costume consists of a short tunle of seawed or leaves. Their hair is powdered with chalk while the warriors are distinguished by the hair being powdered red. Wreaths of pardenias or red hibiscus are worn or their beads, also adelphia Times also round their necks.-Phil-

The European Viper.

Many persons are killed by vipers of the continent; but, though Pellas berus swifely distributed over Europe and is secrally known distinctively as the "lite vipor." the prevalent and most dan group species are the long nesed and as stipers. Matthiale relates an instance of a man who was fatally bitten by bull of stacks in France. An adder had been sev-gred in twain with a bee, and be unfortu-nately picked up the business end. Such an occurrence is quite within the bounds of credibility. I have seen a wretched python which had been cut in two by a sweep of a coely's cutless launch itself furiously at the man who was preparing to give it the coup do grace and tear the oreh from his hands.

Domestic animals are not infrequently

tacked but wards sneemah to the po-Shoop and horses are struck on the nose as they graze, cows very commonly on the udders while lying down. A bit ten dog repeatedly plunges its head under water to assunge the flerce heat of the in flammatory symptoms, but generally re-covers. Human beings and monkeys suffor far more intensely than do creatures lower in the scale of life.—Chambers'

Church Wealth.

The wealthiest denomination in the United States, if we estimate denominathen all wealth according to the average value of the church edifices and sites, is the Jewish. The next is the Unitarian, the third is the Bafurmed (Dutch) and the fourth the Protestant Episcopol. The averge value of the churches of Reformed ows is \$39,850; of the Unitarian, \$24,-25; of the Reformed (Dutch), \$10,327, al of the Protestant Episcopal, \$10,182 he Episcopal church is, however, much widely distributed than any of the other bodies maned. The Jews are almost entirely in the cities, and the Reforme Jews also are largely so, but the Episco palians are found not only in all the large sties, but are represented in all the state and territories. This face adds to the significance of the high average value re-ported for its churches. Its ministers, like those of the Presbyterian church, are well cared for. It makes no separate re-turn for ministerial salaries.—Forum.

FOREST FIRES BURNING

Wisconsin, Minnesota and Michigan Again Report Danger.

PLENTY OF RELIEF FURNISHED.

Governor Peck Says That Wisconsin Will Take Care of Her Stricken Citizens. The Death List at Hinckiey Growing.

St. Paul, Minn., Sept. 6 .- The subscrip-St. Paul, Alini, Sopt. 6.—The subscrip-tions for the fire sufferers jumped up yes-terday. The first one came from President James J. Hill, of the Great Northern rall-way, of which road the damaged Eastern Minnesota is a branch, and was for \$5,000 Accompanying this was another subscrip-tion of \$5,000 from President Hill's associate in the Great Northern, Sir Donald Smith, of Montreal. Several New York commercial firms turned in \$1,300, while the agents of the leading New York in-surance companies gave \$1,000. Alto-gether the money contribution up to this time will aggregate \$25,000.

Minneapolis has already raised \$13,000, and is rapidly increasing the amount, and Duluth has a fund of \$10,000, while every town in the state have sent smaller amounts. A message was received in this city from Governor Peck, of Wisconsin asking that to avoid confusion in furnish ing supplies the Minnesota people look after their state, that Wisconsin would take charge of all the suffering in theirs. Yesterday two car loads of provisions from this city reached Shell Lake, and other sections are equally well provided

Reports from the north are to the effect Reports from the north are to the effect that Carlton, Kerrick and Barnum are in danger. The fires now surround those places, and are raging furiously. So dense is the smoke at Carlton that the operator there said he could not see across th street. One report was current in this city that Barnum had been destroyed, but it has been impossible to confirm the re-port. The men of Kerrick have sent the omen and children to West Superior and Duluth for safety, and remained be hind to fight the fires.

STILL FINDING DEAD BODIES. The Remains of Seven Persons Taken to

Hinckley Vesterday,
PINE CITY, Minn., Sept. 6.—The death
roll at Hinckley is growing, but slowly,
Yesterday the remains of three bodies Yesterday the remains of three bodies were brought in from the eastern county road. One was a man. Of the other two there was left but a hand and a leg. The hand was that of a child, but the leg was that of a boy. Later in the forenoon the bodies of Mr. Lovell and his family, four altogether, were recovered. They lived about two miles north of the town. Searching parties are out in all directions. but their orders are to bury the dead where they lie. The seven bodies brought in bring the total number in Hinckley up to 221, and in the vicinity of Hinckley to upwards of 280.

As yet it has been impossible to ap-proach the mill pond. The heap of sawed wood and landings which mark its bank are still sending up dense clouds of blind ing smoke, rendering it impossible for a mun to get near the water. It has been decided to draw off the water, as it is now supposed that there are many bodies in the pond. At Pine City the work of re-lief is running smoothly.

Millions of Feet of Timber Burned.

WEST SUPERIOR, Wis., Sept. 6.-Along the line of the Omaha railroad south of here the fires are still burning. At Su perior Junction the fires are reported very bad, but at last accounts the town was atill safe. At Poplar three residences, a achool bouse, railroad ties and cedar poles and millions of feet of timber were burned A annil settlement about twenty miles north of Iron River burned to the ground Tuesday night, but the residents escaped,

Bilchigan Forests Ablaze

ISHPEMUNO, Mich., Sept. 6.—This city is again enveloped in smoke, the fres in the forests having started afresh. A party of campers eight miles west of here were driven out of the woods by the raging flames yesterday. They drove their borses through miles of fire and smoke, narrowly escaping. The damage confined to crops and timber, as the fire is some distance from settlements.

Two Villages Endangered.

Manistropes, Mich., Sept. 6.—Forest fires are raging flercely in this vicinity. The villages of South Manistique and Thompson are in considerable danger, Conditions are favorable for a disastrous fire throughout the county of Schoolcraft,

Their Resignations Bequested

Washington, Sept. 6.—Secretary Carlisle yesterday asked for the resignations of James P. Low, of Massachusetts, chief of James P. Low, of Massachusetts, chief of the engineering and drafting division in the office of the supervising architect of the treasury Peter S. Garretson, of New Jersey, chief of the accounts division, and Frank Milliken, of Maine, chief of the record division of the same office. All of these officials are Republicans, and their observables. their places will be filled by Democrate The reorganization of the department of der the Dockery law will result in the dis missal of about 122 clerks about Oct. 1.

Trial by Jury Refused.

CHICAGO, Sept. 6.-The hearing of the contempt case against President Dobs and other officers of the American Railway union, which was discontinued on July 25, was taken up by Judge Woods yesters day. Attorney Gregory, for the defense, moved for a trial by jury, which was over-ruled by Judge Woods. The taking of testimony was then begun.

For Governor of New Hampshire Concomp, N. H., Sept. 6.—The Bepub-lican state convention met here yesterday, Charles H. Barlett, of Manchester, presided. Charles A. Busiel was nominated for governor. At the Second district con-gressional Republican convention Hon. Henry M. Baker was nominated by ac-

Nominated to Succeed Barnes Compton. CATONSVILLE, Md., Sept. 6 .- The Fifth district Democratic congressional conven-tion nominated State Senator John G Rogers, of Howard county, for the long term, and Dr. George Wells, of Anne Arundel, for the short term. Strong tar-

Congressman Wilson's Opponent. Williams. W. Va., Sept. 6.—Alaton Gordon Dayton, of Barbour county, was nominated for congress by the Second district Republicans to run against Hon W. I. Wilson, chairman of the ways and means committee.

drought, practically a stagmant pool with green setup. The creek is little better than an open sewer under average from than an open sewer under average from the stances, and now the water, resembling a body of greasy filth, is a serious menace to the public health.

VANDERBILT'S IN CONTROL

Uniting with Bothschilds and Morgans for outhern Railroad Extension

Chartanopua, Tenn., Sept. 6.—From a thoroughly reliable source The Times is informed that the underwriters, as they may be termed, of the reorganization scheme of the Richmond and West Point Terminal and the East Tennessee, Virginia and Georgia Railroad company, are

ginia and Georgia Railread company, are none other than the Rothschilds, of Loudon and Paris, and the Vanderbita, of New York—Cornelius and William K.

The reorganization, as is well known, was undertaken and successfully consummated by Drexel, Morgan & Co., of London. These two great banking houses interested their richest clients—the Rothschilds and Vanderbilts. The syndicate really is very small in numbers, for it is really is very small in numbers, for it is divided into four portions, but is colossal in wealth, representing the greatest ag-gregation of capital in the world—more than half a billion dollars.

The Bothschilds have one quarter, the Vanderbilts one quarter, Drexel, Morgan & Co. one quarter and J. S. Morgan & Co. a quarter. The reorganization plan provided for \$30,000,000 of new capital, and it is this sum that the quartet has agreed to supply and more if necessary. The money is to be used in heavier rails, new bridges, new equipment, terminals, ex-tensions, etc. The first annual meeting of stockholders is to be held in Richmond, Va., Tuesday, Oct. 2, and bonds to the amount of \$120,000,000 on the entire prop-

esty will be authorized.

There is now very little doubt that the southern railway project is simply an ex-tension of the Vanderbilt system into and through the south. The Chesapeake and Ohio will no doubt become a part of the system within a short time, and the Queen and Crescent system will ultimately become part of it.

GOVERNOR WAITE RENOMINATED. The Convention Refused to Listen to Ris

Public, Colo., Sept. 6.—The Populist state convention peaterday refused to listen to Thomas M. Patterson, leader of of the opposition to Governor Walte's re-nomination, and the Patterson delegation left for Denver, followed by a dozen other

delegates.
Governor Walte was renominated on the first ballot, receiving all but half a dozen votes, which were given to Con-gressman Pence. The nomination was ater made unanimous. When introduced to the convention he was greeted with tremendous cheers.

Governor Waite, after thanking the him by the renomination, said: "I do not take this as an indorsement of all my official acts, as I know I have made many grievous mistakes, but I take it as an ex-pression of confidence to me. and that I

have acted honestly, if not always wisely." Congressman Pence, in response to loud calls, made a speech arging the support of the ticket. He said that under no circumstance would be be a candidate for

Henry of Navarre Beats Banquet. New York, Sept. 6.—In the bay stake race run at Sheepshead yesterday only Henry of Navarre, Banquet, Yo Tambien and Sir Walter participated, and that was the order of favoritism. When they were sent away neither seemed to want to make the pace, but finally Sir Walter and Yo Tambien did so. This was the way they ran up to the last half, when Henry of Navarre and Hanquet got away from the others as if they were standing still, and began the fight through the stretch. Simms, on Banquet, did a good deal of erowding, but Tarai outrode him and landed the three-year-old in the first place

Employers Urge a Conference.

TRENTON, Sept. 6.—The manufacturing otters of this state have addressed a latter to the operative potters, who have been out on strike for several months, ask ing for a conference for the purpose of discussing a reduction of wages from the scale agreed upon when the strike was set-tied a few weeks ago. The manufacturers name no figures in their communication to the men, but say that a reduction is laws. The men have not yet sent a reply

" Hitled by a Falling Tree.

d smoke, Point Arkan, Cal., Sept. 6.—A party here is from San Francisco, including W. W. Higginson, second officer of the steamer Oakland, his wife and daughter, William Spohn and Ed Reed were camped on Garcia river, ten miles from this place. Early in the morning they were awakened by the cracking of a large redwood tree. The men ran, but the ladies stopped to dress.
The tree fell over both tents, killing Mrs.
Higginson and her daughter Sadie, and
breaking a leg of both Spohu and Reed.

> Miranda Wrecked, Passengers Rescued. NORTH SYDNEY, C. B., Sept. 6.—The schooner Rigel, of Gloncester, Mass., Captain G. W. Dixon, arrived here yesterday having on board the crew and passengers of the steamer Miranda, which left New York July 7 with Dr. F. A. Cook's Arctic York July 1 with Dr. F. A. Cook's Arctic excursion. All the party are well. On Aug. 9 the Mirands struck a rock near Eukkertoppen, West Greenland, and was abandoned in a sinking condition Aug. 23 in Davis strait, lat. about 01 degs. 15 min. long. 58 degs. 40 min

Arrested for Imitating Bank Notes. St. Louis, Sept. 6.-M. E. Smith, the secretary of the St. Louis Bank Note company, has been arrested upon the charge of violating section 5,480 of the rewised statutes in connection with the printing of the special warrants recently issued by the state of Mississippi in the likeness of United States notes. President Chency and Mr. Holmes, a representative of the company, will also be ar rested as soon as they return to the city.

Assassinated on the Street HENDIETTS, Tex., Sept. 6.—J. W. Witt, secretary of the Twelfth congressional district committee and superintendent of quatros committee and superintendent of public schools at Decatur, was assassin-ated at the latter place by S. Simmons, a young business man of Shorman. The tragedy occurred in a public street at De-catur. It is alleged that undue intimacy existed between Witt and a sister of Sim-mons, and that Witt openly boasted of it. Simmons was arrested.

Stony Creek Filled with Dend Fish. Nonmstown, Pa., Sept. 6.—Dead fish are floating on Stony creek in sufficient numbers to alarm the health authorities. The stream, ordinarily sluggish and odor-iferous, is now, by reason of the protracted
