### COUNCILMEN

A Long and Tedious Session Held Last Night.

#### COMPLAINTS OF CITIZENS

Mr. Bartsch Makes a Charge Agains Policeman Walattis-Sapolis Case Referred Back to Committee.

A long, tedious meeting of the Borong Council was held last evening, ten of th members, Messrs. McGuire, Stout, Hand Dougherty, Meluskey, James, Finney Gailagher, Gable and Kane, being present and remaining in session for over three hours discussing matters principally bearing upon the sanitary and police re gulations of the borough.

gulations of the borough.

Health Officer Miles started the bail rolling by complaining about a nuisance on the P. & R. Co. 's Bringe street property and stating that the land agent had made the plea that he had been unable to secure the grade of the property from the borough authorities. Mr. Miles was informed that the grade is in the possession of Mr. S. A. Beddall and Council is trying to procure it.

Ex. High Constable Anthony Flynn appeared and made complaint against a nuisance existing on his property by reason of a neglected public sewer.

John Bartsoh also appeared and entered complaint against Policeman Walaitis for inwarrantably beating his six year-old mute son. The complaint was referred to the lamp and watch committee for investigation.

mute son. The compilant was referred to the Immp and watch committee for investigation.

The bridge on East Centre street has been substantially repaired by the Lake-side Electric Railway Company, and the highway leading to Turkey Run is being repaired.

The attention of the Chief Burgess was called to the condition of North Emerick street with instructions to notify the severage company to remedy the evil and if it fails to do so the borough will do the work and charge the company with the expense. The dumping of ashes on the street must also be stopped.

Attention was called to the condition of South Market alley, at Cherry street. It is impossible for teams to pass over the place. Cherry street, from Main to White, is being used as a dumping ground.

The question of extending the public sewer at the south end of White street was again taken up. The borough is desirous of building a culvert under the Lehigh Valley railroad, but the company objects. The matter was referred to the law committee, to act in conjunction with the Berough Solleitor, in negotiating for the sever.

Attention was called to people disregariing the public dumping ground and dumping of rubbish at the old Columbia park. The Chief Burgess was instructed to act in conjunction with the Health Officer in detecting and punishing the of fenders.

The case of John Sapolis was taken up

The case of John Sapolis was taken up and Councilman Dougherty stated that the lamp and watch committee had found the line of 85 should be returned. Mr. Gable did not concur in the report. He stated that the investigation brought out facts which required further inquiry, to have Polleeman Casey explain why one of the fakirs in connection with the case was allowed to escape and how it came after the man disappeared a fine was paid in his behalf. Mr. Gable considered that Council should stand by the Chief Burgess and the whole matter should be thoroughly sifted. The case was referred back to the committee. case of John Sapolis was taken t

back to the committee.

The law committee was instructed to act in conjunction with the Borough Solicitor in the negotiations to accure the grade books in the possession of Mr. S. A. Beddadi.

The work on the public water works is progressing favorably. Sixty men are engaged in repairing the reservoir at Davis Rum.

Sixteen arrests were made during the

Davis Run.

Sixteen arrests were made during the
month of Angust. Eleven of the prisoners paid fines and five served time.

Fire Marshal James S. Williams has
recommended that more electric fire alarm
boxes be put up and a quantity of new
liose be purchased.

#### MINERS'

#### MEETING.

Addressed by Organizer Fahy at a Meeting Last Night.

#### BITUMINOUS FIELD

Miners of This Place Urged to Disregard the Inducements Offered for Men to Take Strikers' Places.

About two hundred English speaking miners and laborers stood in Francy's hall last evening to listen to an address by Organizer Faby on the advisability of olning the local lodge of the United Mine Workers' Organization

Mr. Fahy spoke for a half hour in his clear, easy manner, interesting the men from the start and holding their attention from the start and holding their attention to the end. He explained the issues between the operators and the miners in the bituminous region; told how the recent strike had been forced upon the men and how they had won it; of what powerful backing the anthracite men would have by foining the great organization of the bituminous field and how they might improve their present condition, and much else that he had said in an address here about a month acco.

bout a month ago.

Of an agent advertising at Ashland for niners to go West, he made the following

miners to go West, he made the following warm remarks:

"Miners, for your own welfare, as well as for the entire country, pay no attention to William F. Barr and all other company agents from Western Pennsylvania, who are now in this region trying to get miners to go to Western Pennsylvania to seab. There is a strike there that has been going on aince hast February. The operators whom Barr represents want to pay only 55 cents per ton, when all operators, except three companies there, are now paying scale rates of 60 cents per ton. Last year the miners there did not average more than 75 cents per day, and now the company wishes to cut them is cents per ton. Barr says: 'Good wages and steady work.' He lies, and he knows it. If there were good wages and steady work, there are shousands of idle miners in that field who would take advantage of it and Barr would take advantage of it and Barr would not now be going around the connerty trying to lupe innocent, poor men by fairy tales. He says he will pay two dolars per day for 30 days, evidently expecting the strike to be broken by that time; but he and the company misted themselves. It will last until these companies do as all others are willing and satisfied to do—pay scale rates. These companies, together with others in the same field, were the cause of the great miners' strike just ended in the West by taking advantage of their miners, who were not then organized and forcing them to accept reductions of from 23 to 35 cents per ton, thin experting to undersell their brather operators and do a good business during the depression at the expense of the miner, but other operators were forced to come to a competitive basis, or shirt up their mines, and stey had to reduce their men. The big sarike forced wages up to that point where the reduction was only ton cents and settled the strike, all operators but these few aggress or any st. and now they what to repew the light and throw the entire country into trouble and turned and defect the miners there, depend upon it, the the uniners in the authracite field will get another fourteen per cent., or more, of a reduction. We are competitors in the articlest sense when it suits the purpose of the evil minded operator. He uses the uniners of one part of the country as a whip to defeat the other part and them we all sink to the level of the defeated ones. So, I say, pay no attention to Barr. He is paid for duping men. The more he dupies, the greater the amount of his blood-money for so doing. I have no dentity but that if the ambracite miners were on strike you would find him trying to get soft coal miners to take their places. It is dollars and cents with him. He can have no love for strange miners

to get soft coal miners to take their places. It is dollars and cents with him. He can have no love for strange miners that would prompt him to look after their interests. He was very near mobbed at Shamokin yesterday by indigment citizens and at Ashland he get a cold reception, which is perfect in keeping with the water that flows through his veins."

The organizer's speech received warm applanse. Those of the audience who were not already members were then invited to enroll their names in the organization's support and a large number did so. A secret session followed, which was concluded at about ten o'clock.

Mr. Fahy has been organizing in Schuyl-kill, Lauerne and Northamberland count ties for a month and is enthusiastic over his success. He was fold that the men of Shonandoah would be hard to organize, but he says he has not found them so. Such curcurargement has he received here that he expects to hold the next meeting in a larger room, probably Ferguson's theatre, or Robblins hall. He departed to-day for Pottsville.

#### THE FOOT BALL SEASON.

Shenandoah Will Have a Strong Team in the Field-Awaiting Challenges.

Lovers of outdoor sport in Shenandoah will be pleased to learn that arrangements are being made to provide a long series of foot bail games for the fall and winter season. The interest taken in this popular and manly game thus early justifies the belief that it will easily fill the place of base ball in the hearts of our cranks. This town, in the past, has been poorly represented in the foot ball field, and only mengre interest has been taken in the sport, but this year we are promised a term that we may be proud of, and the management feels sure that the now luke warm admirer of the game will be on hand with his hurrah gun long before the season closes. The Shenandeah teams consist of the regular and scrub. Earnest and diligent practice is indulged in every evening by the teams, and they are being ably coached by W. D. Jones, of the Bucknell, and Jerry O'Hearn, of the Lehigh Universities. These gentlemen are theroughly skilled in the game, and state they now have hold of material that can be moulded into one of the flectest, strongest and headiest teams in the region. Since the game of September let, when our boys made such a brilliant stand against the strong Ashland team, although heavily handleapped in weight, the different positions have been greatly strengthened and the eleven who win from them in the future will realize the fact that a game has been in progress. The Shenandoah regulars as now composed average 170 pounds. They are all lardy fellows and as quick as they are big. A number of games have been scheduled, and other teams desiring dates should make early application to Joseph A. Coughliu, manager. Lovers of outdoor sport in Shenandoah ill be pleased to learn that arrangements re being made to provide a long series of set ball games for the fall and winter
