THE STRIKERS' TRIAL. Objections of Defendants' Counsel

Overruled.

A REBUKE FROM JUDGE WOODS.

A Quiet Lecture in Response to a Sudder Outburst by Attorney Erwin, Counsel for the Accused American Esilway Union Officials.

CHICAGO, Sept. 8 .- The examination of raliway strikers was begun yesterday in the trial of the American Railway union officials. Switchman Krieger, of the Chi-caro, Milwankee and St. Paul, testified that Con McAuliff, head of the Milwankee American Bailway union, had come to him with a request from Debs that all the Milwaukee railway men strike. Not many of them went out, however. A fireman on the St. Paul road testified

that he had left his plans because of in-timidation, and an engineer on the same line said he was told that if he did not leave his engine he would never get out of

Chicago alive. William A. Henry, of Kankakes, s awitchman in the employ of the Ellinois, Indiana and Iowa railroad, was the next witness, and one of the most important offered by the government, because he had personally received a telegram order-ing him to call out the men.

At that time witness was a member of the American Railway union. Witness showed the telegram when he received it to several switchmen, but took no further

action. Mr. Irwin objected to the testimony be-cause it concerned a road not included in the injunction, but the court decided to admit the evidence. At the afternoon session several wit-

nesses took the stand and testified to a case of violence committed at various points during the continuance of the atrike. Their evidence was stremnously objected to by the defense, on the ground that it was totally foreign to the issue be-nuse it did not show that any of the actual defendants in the case — Debs Howard, Kellher, Rogers, or any of the other directors of the A. R. U .- were h

Stars invectors of the A. R. C.—were in any way connected with such disturb ances. Mr. Walker, assistant Unite States attorney, always replied that is would show how that connection cam later, and the evidence was promptly of sitted by the court upon that assu

The defense also objected to all testi The defense also objected to all testi-mony that dealt with the acts of the strikers before July 2, the day on which the injunctions of Judges Wood and Grossenp, the basis of the contempts suits, were posited. In overrilling this objection the court said that such evi-dence was admitted to show that the sit-dence was admitted to show that the sitation on the days immediately succeed ng the posting of the injunction was n netter than before, or in other words, that no attention was paid to the orders of the

Just before the afternoon session ad ourned Mr. Erwin arose and burst into a cated denunciation of the methods pur ed by the government's attorneys. He id: "The government has no more right

said. "The government has no more right to hay before your honor this straiged con-sition of public duty than to vex the public by this proceeding." Judge Woods are ned surprised at Mr. Grwin's sudden outbreak, then learning forward in his chair camby said. "The court of course gives counsel credit for wander in all its objections, and has not wander in all its objections, and has up moviment to the contrary in one way or nother, and so far as the burden thrown in the court is concerned, the court will accessibly have to bear it. But it is ex-musly averand in this information that ince scenes of violence did go on, and Incerestences of Violence did go on, and that your people wors responsible for herm. Now, I don't pretend to know or ay or guese how far government can marry its proof in that respect, but I don't se one witness has testified to thing, that I have not the right to allow another to testify to the same thing.

Strike Leaders Convicted.

INDIANAPOLIS, Sept. 8.—In the United States district court here Judge Baker found Hiram Aglock, president of the American Bailway union, Ashley, Ind., where Wabash trains were stopped, guilty of contempt of court in violating the re-straining order of the court during the railroad strike, but suspended sentence The cases of Arthur Desheno and Oscar Larsen, two Chicago men, who led a riot against the ratifood operators at Ham-mond, Ind., were also decided. Larsen was released and Desheno was sont to jail for thirty days.
