

Three Killed by a Runaway. MURPHY, N. C., Sept. 8.—On Monday last three arrived here a man, wife and child. The man, who was evidently a business man, was about 40 years of age, spoke of himself as being just from Philadelphia, where he lived. This is all that is known of his identity. Wednesday this party secured a conveyance and started for the interior. The horse ran away and all three were thrown against a tree, being instantly killed.

A. M. Bailey, a well known citizen of Eugene, Oregon, says his wife has for years been troubled with chronic diarrhoea and used many remedies with little relief until she tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, which has cured her sound and well. Give it a trial and you will be surprised at the prompt relief it affords. 25 and 50 cent bottles for sale by Graham Bros.

After that hour the water will remain turned off until 4 p. m. and remain in force from that time until 6 p. m. This arrangement is made for the people a water supply two hours in the evening and two hours in the morning and will remain in force until the reservoirs are replenished. A watchman will be stationed at Fowler's lumber yard, on East Coal street, to turn on the water at a moment's notice in case the fire alarm is sounded. While in Chicago, Mr. Charles L. Kahler, a prominent shoe merchant of Des Moines, Iowa, had quite a serious time of it. He took such a severe cold that he could hardly talk or navigate, but the prompt use of Chamberlain's Cough Remedy cured him of his cold so quickly that others at the hotel who had colds followed his example and had a dozen persons ordered it from the nearest drug store. They were profuse in their thanks to Mr. Kahler for telling them how to cure a bad cold so quickly. For sale by Graham Bros.

GOING BACK TO BLUEFIELDS.

American Refugees Will be Taken There by the Columbia. COLON, Sept. 8.—The United States warship Columbia has been ordered to convey the American refugees at Port Limon back to Bluefields, Mosquito territory. WASHINGTON, Sept. 8.—Admiral Ramsey, acting secretary of the navy, when shown a dispatch from Colon saying that the steamer Columbia had been ordered to convey the American refugees from Port Limon back to Bluefields, said that no order had been issued from Washington to that effect and that it must have come from our representatives in or near Nicaragua. A few days ago when the Columbia arrived at Port Limon to take coal Captain Sumner telegraphed Admiral Ramsey and asked if there were any further instructions and the admiral answered that there were none. Captain Sumner informed the admiral what had been done, but said nothing as to any contemplated action. Admiral Ramsey says that the general instructions of Captain Sumner are sufficient to cover all contingencies and that if the commander of the Columbia decided it was best to return the American refugees at Port Limon to Bluefields he had full authority to do so. The state department is investigating the alleged seizure by the Nicaraguan government of a vessel owned by Americans, and which it is said was used to transport the prisoners captured at Bluefields to Colon. The Nicaraguan government, it is understood, claims that the vessel was under control of a company and that this company leased it to the Nicaraguan government. The dispute seems to be between the owners of the vessel and the company which claimed control of it. If this is the case it is hardly a question for the state department to decide.

A SCIENTIST'S SUICIDE.

He Believed He Was Wanted by the Police for Imaginary Crime. NEW YORK, Sept. 8.—Dr. Hilborn T. Cresson, the archaeological expert connected with the bureau of ethnology of the Smithsonian institution at Washington, blew his brains out Thursday night on Fourth street, this city. A number of mysterious letters were found among his effects, but their contents were the outcome of hallucinations which beset him for the past three months and caused the deed that ended his life. Dr. Cresson was 43 years old, and a distinguished scientist.

Last evening E. F. Spencer, of Brooklyn, who said he was the brother-in-law of Dr. Cresson, called at the coroner's office. He said that the suicide had been unbalanced mentally for some time, and that among other strange ideas he held was one that he had been a party to the commission of some crime, and that the police were after him continually. Mr. Spencer said that Dr. Cresson had become deranged from overstudy.

"The doctor," continued Mr. Spencer, "is the son of a Philadelphia stock broker. Early in life he studied painting and sculpture in foreign lands, and had some of his work in the chief art galleries of Europe and one piece in the gallery at Philadelphia. He has also contributed articles on scientific and art subjects to magazines. The doctor was a linguist of considerable ability. He traveled Central America in the interest of the Peabody institute."

Terrific Tragedy in Arkansas. MAGNOLIA, Ark., Sept. 8.—A sensational tragedy occurred near Dykesville, La., a small town just across the Arkansas state line, yesterday. Clinton Thompson, a farmer, has a fine melon crop, and the rails of the boys became so frequent that he put poison in some of the finest melons. He gave his own son, Felix, George Briggs, a neighbor's son, and a man named Jacob Blair were found dead in the patch. When young Briggs' father saw that Thompson had poisoned the melons and caused the death of his son he shot him dead. Briggs escaped.

California Fruit in England. LOS ANGELES, Sept. 8.—The consignment of California fruit which arrived here from Southampton on Wednesday via the American line steamship New York reached Covent Garden market in a far better condition than the first or second shipments. The fruit was sold yesterday and the plums went fairly well, although the market was glutted. Any quantity of California Bartlett's will sell well, as the French Bartlett's are exhausted and the English are weary.

Fatal Trolley Car Accident. CHEFON, N. J., Sept. 8.—Two trolley cars on the Paterson Electric Railway company's line came into collision here yesterday. There was a heavy fog, and the up car felt the switch before the other car had reached it. The cars came together with great force, and John Powers, a motorman, had both legs crushed and was injured internally, probably fatally. The motorman of the other car jumped, and escaped injury. The passengers escaped.

There have been 59 ballots taken for a successor to J. N. Bankhead in the Sixth Alabama district, with no result. In Russian Poland there are 5,000 fresh cases of cholera and 2,500 deaths from the disease, on an average, per week. Arrangements have been perfected by South Carolina "anti-machine Democrats" for putting a full anti-Tillman ticket in the field. A dispatch from Vienna says that there were 174 new cases of cholera and 111 deaths from that disease reported in Galicia and Bukovina yesterday.

Griffiths and Bissell enjoyed a drive around town last evening. A large crowd gathered in front of the Music House last evening to hear the sweet music which was played by Prof. Jones' orchestra.

Resolutions of Condolence.

WHEREAS, In the disposition of the all-wise Creator, death has taken from our midst our late lamented brother, Bartholomew Shueber, and WHEREAS, The deceased has been continuously connected with our society from its organization, sharing its reverses and successes, always laboring zealously for its welfare, and by his unimpeachable character, gentleness and kindly bearing ever endearing himself to us. Resolved, That while we humbly bow to God's decree in death's mission, still we should make some expression of fraternal regard for our deceased and evince our appreciation of his character as a brother, a citizen and a man.

Resolved, That in the decease of Bartholomew Shueber, the Annunciation Total Abstinence Society, of Shenandoah, Pa., has lost an exemplary member, one whose many years of unselfish devotion to the good cause of total abstinence might well be imitated; that the community has lost a conscientious citizen, his sorrowing wife and children a fond and thorough Christian husband and father, and a friend who held a willing hand in acts of charity and kindness.

Resolved, That we extend our profound sympathy to the wife and children of the deceased; that the society's charter and the interior and exterior of the hall be appropriately draped for a period of thirty days; that these resolutions be entered on the minutes and be ordered for publication, and that a copy duly engrossed be presented to his lamenting wife and family. The Prize Fight on Paper.

NEW YORK, Sept. 8.—Champion James J. Corbett said in an interview regarding Peter Jackson: "I am willing to sign articles to fight Jackson to a finish for any amount. He can name any place he pleases from Alaska to the South pole, but I want no twenty second fight. His complaint about having crossed the continent to meet me is all nonsense. The real reason he came so far was because he wanted to get back the \$10,000 forfeit he has posted."

Russian Barley at a Cent a Pound.

BALTIMORE, Sept. 8.—Considerable excitement was caused on the floor of the Corn and Flour Exchange yesterday by an offer of Russian barley for feeding purposes at one cent a pound, duty paid. The offer is from southern Russia, through Smith, Hammond & Co., and is owing to the high price of corn. The firm offers to furnish an unlimited quantity and hope thereby to increase tonnage and lower freight rates on outgoing cargoes.

MRS DRAYTON WILL FIGHT.

Her Friends Claim That She Will Disprove Her Husband's Accusations. NEW YORK, Sept. 8.—Today's World says in connection with the Drayton divorce case: There are several points to Mrs. Drayton's story, and every point has the interest of being new and now made public for the first time. To begin Mrs. Drayton not only does not regret the bringing of the divorce suit by her husband, but received the news of it gladly, and arranged that the papers might be served on her expeditiously.

Mrs. Drayton not only will contest the divorce suit, but will fight it to the bitter end. Mrs. Drayton will answer Mr. Drayton's petition for a divorce with a cross petition, alleging gross violation of his marriage vows. She will enter a general and specific denial of all his charges against her, and will bring what her friends regard as proof positive that she has been maligned. She precipitated the divorce proceedings by deliberately bringing a suit for the custody of her children. All these facts are true beyond peradventure, her friends say, and when they are confirmed by the filing of her cross petition and by the testimony at the trial, the confirmation will be so sensational that the statement of the bare facts will seem very tame.

Hallett Alsop-Borrowe, the co-respondent in the case, was seen in his office at the car house of the New York division of the New Jersey Traction company, of which he is superintendent. He said: "The charges made in Mr. Drayton's petition are false, absolutely false. That is all I have to say in the matter."

Big Suit Against the Rockefeller.

DULUTH, Minn., Sept. 8.—William and John McKinley, of this city, and James Charnley, of Chicago, have sued the Lake Superior Consolidated Iron mines for \$200,000. They charge that fraud and misrepresentation were used to induce them to sell the McKinley mine to the company in order to induce plaintiffs to go into the consolidation. The papers in the suit say the Rockefeller people promised that all mines should go in on one basis, according to the amount of ore in sight, and that at the very time of negotiations the Rockefeller combination was scheming to take on a lot of other mines, including some in Cuba, on a different basis. As a result, the plaintiffs parted with \$200,000 of property for stock in the consolidation, not worth over \$120,000.

Corbett Fights for Edison.

ORANGE, N. J., Sept. 8.—James Corbett fought Peter Courtney, of New Jersey, six hot rounds yesterday at the Edison laboratory here. It was witnessed by about fifteen men, and every move of the pugilists was reproduced on Mr. Edison's kinstoscope. There was no ring, but the fight took place in a room twelve feet square, the walls of which were padded. Both men were full of business, and Courtney showed himself a superior boxer.

An Embroidering Railroad Cashier.

ATLANTA, Ga., Sept. 8.—Atlanta's business circles were shocked by the arrest of Edwin C. Hooks, cashier of the freight department of the Seaboard Air Line railroad. The warrant charged with embezzlement of \$5,000 of the company's money. He was placed in jail. It is thought the defalcations will amount to a larger sum. He has been a prominent member of the best society, and has been leading a fast life.

SLAVES TO THEIR HOMES.

Physicians Prescribe Paine's Celery Compound for Such Women.

There are thousands of tired women today on the verge of breaking down because they are martyrs to their own false ideas of domestic duty. They are slaves to their homes; and their excited notions of absolute order and cleanliness keep them from morning to night upon the rack of mental and physical torture until they grow old, care worn, nervous, irritable and sickly, in their foolish struggle with dust. Only the exceptionally strong can stand the debilitating effect of overheated rooms, lack of fresh air and exercise, overburdened stomachs and the artificial, nervous, hurried life of so many good wives and mothers. Just as nature prompts young children to cry and grow irritable when hungry, so poorly fed, over-worked nerves cry out for their proper food by twinges of rheumatism and neuralgia. It is nature's language in each case. Just as the fretting, crying child drops to refreshing sleep after being properly fed, exactly so the nervous system feels right away the equalizing, restoring action of Paine's celery compound. A fair trial of this greatest of all remedies brings strength to tired, "run down" men and women, and frees them permanently from debility, heart palpitation, despondent feelings and inability to sleep because of nervous weakness. Mrs. S. E. Welch, of Lynn, Mass., whose portrait appears above, writes as follows: "I was taken ill last January with the grip and it left me with the rheumatism in my hands and feet. My feet were swollen so bad and were so sore that I found it hard work to walk. My husband brought me home two bottles of Paine's celery compound. Seeing that it was doing me good, I continued its use until I had taken five bottles when I was free from rheumatism and have not had any since. "To-day I can truly say that I am as well as I ever was in my life." That's all. Paine's celery compound makes people well.
