A Chance to Invest.

If you have a few thousand dollars you can make a good investment in a 500-acre coal and timber tract in Tennessee. It will be sold at a sacrifice, the owner being pushed for money.

While in Chicago, Mr. Charles L. Kahler, a prominent shoe merchant of Des Moines, Iowa, had quite a serious time of it. He took such a cold that he could hardly talk or navigate, but the prompt use of Chamberlain's Cough Remedy cured him of his cold so quickly that others at the hotel who had had colds followed his example and half a dozen persons owed it from the nearest drug store. They were profuse in their thanks to Mr. Kahler for telling them how to cure a bad cold so quickly. For sale by Grubler Bros.

Low Rates to Norristown.

For the benefit of persons desiring to visit Norristown during the time of the Annual Convention of the Pennsylvania State Firemen's Association to be held at that point September 18 to 21, the Pennsylvania Railroad Company will sell to the public on September 20 round-trip tickets from Portsville and intermediate stations to Norristown and return at rate of one first class fare for the round trip. A. M. Bailey, a well known citizen of Eugene, Oregon, says his wife has for years been troubled with chronic diarrhea and need many remedies with little relief until she tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, which has cured her sound and well. Give it a trial and you will be surprised at the prompt relief it affords. 25 and 50 cent bottles for sale by Grubler Bros.

SUNK BY A STEAMER

A Schooner Cut in Two and Four Men Drowned.

NEW YORK, Sept. 12.—The steamer Portia, from Halifax, has arrived at City Island, and reports that she ran into and sunk the three-masted schooner Dora M. French about four miles from Caddy-bunk light. Four out of the five men comprising the schooner's crew were drowned. The accident occurred in a dense fog. The steamer was running at full speed, blowing her whistle at short intervals. She struck the sailing vessel just forward of the foremast and cut her in two. The latter sank in less than two minutes, going down head foremost, and leaving her broken foremast and sails across the Portia's bow.

One man could be seen swimming amidst the wreckage, and two others were visible just below striving to reach the surface, but they were caught in the vortex and borne down. A boat was quickly lowered by the steamer and one man picked up. His name is Jeremiah Murphy, of New York. He was mate of the lost vessel and gives the following account of the disaster:

The Portia also suffered considerable damage. Her foretopmast was carried away and forty feet of rail lost. A hole was stove in the starboard bow just below the water line, and the forward compartment filled with water. The passengers were at lunch at the time of the collision, and several were badly scared. By a strange fatality Dr. Cook and several members of his ill-starred Arctic expedition were on board. This is the third serious marine disaster in which they have had part within the last two months. The Portia was a sister ship to the lost Miranda, on which the Cook party sailed for the northern seas, and which was sunk in the ice.

AMUSEMENTS.

"SPIDER AND FLY."

The "Spider and Fly," which appears at Ferguson's theatre this evening, will not only be the largest, but the most complete organization of the present season. The present is the age of amusement advancement, a principal result of which is the development of the theatre as a means of entertainment, and the manners, customs and opinions of society. France, without Paris, would find its intellectual development immeasurably retarded. England, without London, would be like Sampson, shorn of his locks. These results are indicated being covered with and mainly the outgrowth of productive advancement. It follows that the part amusement plays in the advancement is an accurate test of its importance. To keep abreast of the times requires brains, energy and experience. Improved methods of entertainment, particularly of a spectacular nature, must be presented on a prodigious scale, and there must be a leader. M. B. Leavitt, the proprietor of the "Spider and Fly," is classed as one of the wealthiest and most successful theatrical managers in America, and his success is due entirely to the close study he gives to theatrical matters. Five years ago he organized the "Spider and Fly" company. The production was then as it is now a distinct novelty, containing all the brightest and best features of spectacle.

"SHE COULDN'T MARRY THERE."

The above title seemed to arouse the curiosity of the New York public, so much so that on the opening night the house was packed to the doors. The success of the play was instantaneous, and during the entire New York engagement the theatre was crowded. The play is an unequalled success; the scenery beyond anything seen on the boards, a powerful and evenly balanced one, and Miss Lillian Kennedy as the heroine "Bess" presents a characterization which for histrionic ability has never been surpassed on the American stage.

Mrs. Richard Joyce, an aged and respected lady of town, quietly passed away Sunday evening. Death was due to paralysis.

The business men of this place and Ashland crossed bats at the latter's grounds yesterday afternoon. It resulted in a defeat for our boys, although a very tight game was played. Roughly, for our team, did some excellent twirling. The ball only reached the outfield once while he was in the box. The score was 5 to 4.

The funeral of James Conway, who died on Saturday, took place yesterday from his late home on North street. It was well attended, numerous friends from the neighboring towns being present. Services were conducted by Rev. Power and interment made in St. Ignatius cemetery. Mr. Conway's death was due to effects of a horse disease upon his wheel system. Three years ago he felt a slight pain at one of his elbows. Several months later he sought treatment at a Philadelphia hospital. His friends would not consent to an amputation of the arm. A year ago he went to the Mine Hospital at Fountain Springs and after ineffectual attempts to save the arm an amputation was made, but the operation came too late. The disease had gained headway and spread rapidly through his system. His neck, back, chest and legs becoming affected. He suffered terribly. The deceased was 19 years of age and enjoyed a reputation which many of his age might envy. He was quiet, industrious, genial and very popular.
