CLEVELAND, Sept. 22.- Ex-Mayor George W. Gardner, of this city, who was a mem-ber of the Cook Greenland excursion party ber of the Cook Greenland excursion party returned yesterday. He says the affair was misrepresented and mismanaged in avery particular by Dr. Cook. The Mir-anda had only arrived in New York har-bor with a load of coffee from South America three days before she sailed for Greenland, and was entirely unfit and un-presented to make the trin. The captain prepared to make the trip. The capital protested vigorously against taking the vessel north, but all to no purpose. The strikes at Fall River and New Bedford have not consol, and about a dozen cotton mills have gone into operation elsewhere, several with reduced wages, but the orders for the present are marrow and much smaller than usual, although recent advances in price are maintained. The demand for woolen dress goods is better and will occupy some mills until December.

Breadstuffs are weaker, possibly beause the government official report went o far in predicting short crops as to cause reaction in opinion.

Braistructs' review says: The condition of general trade this wook is an impreve-ment over one work ago, in that favorable features reported then have been main-tained. The surprisingly good reports of husiness south, and, with some excep-tions, west, are indicated by our social advices from Baltimore, Nashville, Chi-cago, St. Louis, Portland, Ore, and San Francisco. Baltimore joblers in all lead-ing lines report the volume of merchan-dise distributed in excess of expectation, dise distributed in excess of expectation especially dry goods in South Carolina, Georgia and Alabama, except in fruit and coal regions. Other southern products ba-ing in good supply, orders continue lib-eral and mercantile collections easy.

Nashville, while reporting no improve ment over favorable features made ins munt over favorable features made last week, notes their continuance, and that collections are prompt. Activity reported in almost all lines at Chiengo a week ago is continued, merchants being satisfied with the volume. Greatest activity is shown in dry goods, clothing, millinery and shows. Wool, too, is active, one lat of 700,000 prinds having been sold to a Rhodo Jaland meanifacturer. St. Lettis manu-facturers and jobers of clothing and have paper business location in their pre-

factures and jubbers of clothing and have report business location than in their pro-ceeding experience in tike periods. Gains in volume of business at loading eastern cities in the proceding fortunglit are generally maintained. Nother Bur fallo nor Pittsburg announce gains or re-actions, except to prices for notals. Phil-actions, except to prices for notals. In this textile manufactures are only fairly busy, relatively active trade in other lines being in dry goods and ne-tions.

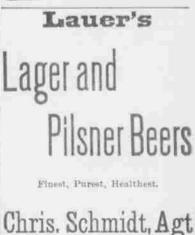

Charleston telegraphs that general trade is fair, without new features; Chat-tanooga, that there has been some slight improvement in business; Memphis, that business is quite active, especially in dry goods and groceries; Atlanta, that col-lections are from and trade improving.
