COULD HARDLY BREATHE,

Catarrh of the Nose, Throat and Stomach—Life Made Miserable by Headaches, Pain and Cough.

Lida McCantless, No. 1290 South Thirty-ninth street, Philadelphia, in conversation with a reporter, said: "I had a very bad case of catarrh of the nose, throat and stomach, with frequent headaches, pain under the shoulder blades and a horrible cough. I had to keep my mouth constantly open day and night to breathe, and felt as miserable as one possibly could. I was advised to try Minyon's Catarrh Cure. I am happy to say that from the beginning I felt relieved and continued to grow better until now I am entirely well. I am so thankful that this remarkable remedy was ever discovered, and hope others will take advantage of my experience."

Newark Matters Victorious.

NEWARK, N. J., Sept. 24.—The Union Hat Makers, 1,300 strong, determined to join forces with the United Hatters, and ordered a general strike for today. Four of the largest manufacturers as once signified their willingness to accede to the demands of the strikers, and work was today resumed in their factories. That means practically the end of the strike, with a victory for the workmen. Today only 1,500 men and 250 women are out, and it is believed that their employers will be induced to surrender within a few days.

A Fool and His Money.

WILKESBARRE, Pa., Sept. 24.—Harry Lattimer, well known on every horse track in the vicinity, was sentenced in court to pay his wife \$20 a month. Two years ago Lattimer deserted her here and married an actress at Danville. At the World's fair Lattimer counted his wealth at \$300,000. He told the court that his money had taken wings, and he was compelled to do farm work to make a living.

While in Chicago, Mr. Charles L. Kahler, a prominent shoe merchant of Des Moines, Iowa, had quite a serious time of it. He took such a severe cold that he could hardly talk or navigate, but the prompt use of Chamberlain's Cough Remedy cured him of his cold so quickly that others at the hotel who had had colds followed his example and had a dozen persons ordered it from the nearest drug store. They were profuse in their thanks to Mr. Kahler for telling them how to cure a bad cold so quickly. For sale by Grohler Bros.

BIG FIRE IN PORTLAND, ORE.

It Destroyed \$1,500,000 Worth of Property and Probably Three Lives.

PORTLAND, Ore., Sept. 24.—The most disastrous fire in the history of this city broke out at 6:45 yesterday afternoon in the dock of the Pacific Coast Elevator company, and raged for three hours, destroying property valued at nearly \$1,500,000. All day long a heavy wind had been blowing, and the flames had been turned in. The fire department was scattered about the city looking after the small fires when an alarm from the elevator was rung in. The elevator contained nearly a million bushels of wheat, all of which was destroyed.

When the engines arrived the fire was beyond control, and in half an hour from the time it started, the docks for half a mile were on fire. Nothing could be done but let the fire burn itself out. The new plant of the Portland and General Electric company, which had just arrived from Lynn, Mass., was standing in the Terminal yards on the cars, not having been unloaded. The plant occupied the entire train, and the machinery was of the most expensive kind, most of which was destroyed and the remainder badly damaged. Few hundred freight cars, eight of which were loaded, were destroyed. The Oregon Railway and Navigation docks held 1,300 tons of freight, consisting of wool, salmon, general merchandise and cement, all of which was destroyed with the dock. There were stored on the dock about 12,000 cases of salmon from the lower Columbia river and Puget sound, awaiting shipment to the east. It was valued at about \$40,000, and was partly insured.

The large steamer Willamette Chief, moored at the yard, took fire and was burned. She was used as a tow and was valued at about \$45,000. Three men are supposed to have perished in the elevator. Charles Anderson, a man named Brown and one named Murray were seen at an upper story window, and it is thought all were burned.

MEMPHIS, Tenn., Sept. 24.—A riot occurred at Gatlingburg, Tenn., Saturday night between the partisans of John C. Houk and Henry Gibson, rival Republican candidates for congress. While Congressman Houk was addressing a large audience in the Baptist church several of Gibson's friends attempted to hove him down, and a fight began. Avery Goddill, leader of the Gibsons, had his skull crushed from blows from the butt of the pistol, and Redmond Maples, who had been summoned by a deputy sheriff, also had his skull crushed. Both are fatally injured.

NUGGETS OF NEWS

Honore Mercier, ex-premier of Quebec, who has been ill for some weeks, is sinking rapidly. Chairman Kinkead, of Nevada's Silver party committee, urges Senator Jones to retain his seat in congress. Russia's czarowitz is unhappy about his approaching marriage to Princess Alix, and talks of renouncing his rights to the throne. A despatch from Madrid says that nothing will be done in regard to the new Spanish loan until the matter can be submitted to the cortes.

The feature of the Victorian elections last week was the annihilation of the Free Trade party, which rallied for the first time in ten years. Gideon C. Taylor, superintendent of the poor farm near Corsicana, Tex., was murdered, it is believed, by the Taylor brothers for refusing a drink. The action of the war department in ordering the removal of troops from San Carlos reservation is not well received by the people of Arizona.

ANOTHER MINE CAVE IN

It Results in the Destruction of Twenty-six Houses in Dryden, Pa.

PITTSBURG, Pa., Sept. 24.—An extensive and disastrous cave in occurred at the mining town of Dryden. Five acres of ground sank and twenty-six dwelling houses were wrecked. Part of the town is situated over the mines owned and operated by the Delaware, Lackawanna and Western Coal company. The robbing of pillars had endangered the mine, and there were fears of a cave in. Work proceeded as usual, however, and the men and boys were digging away on Friday.

During the night there was a rumbling noise, followed by the creaking of buildings as they settled or fell. The 150 people in the doomed houses were aroused by the rocking and fled from their homes for safety. As the buildings are all of wood, there were no crumbling walls.

The earth over an area of five acres settled two feet. The houses affected were twisted or partially upset from their foundations. When the cave in took place it was followed by the flooding of mines. This entailed a loss of thousands of dollars to the owners, and indirectly to the miners. The colliers cannot be worked, and the 300 employes will be idle until the water can be pumped out.

GENERAL EZETA GOES FREE.

The Ex-Vice-President of Salvador Cannot be Extradited.

SAN FRANCISCO, Sept. 24.—Ex-Vice President Antonio Ezeta, of Salvador, who was detained here pending extradition proceedings, has not been held for extradition, as his offenses were on Saturday judged to be purely political. His fellow exiles were likewise exonerated. It will be remembered that Ezeta, with General Coloco, Jeffers, Bolanos and Bustante, took refuge on board the United States ship Bennington when driven from Salvador. The authorities were at first disposed to allow Captain Thomas, of the Bennington, to use his own judgment in allowing the ex-vice president and his friends to go or not, but advice reached Washington from Salvador asking the authorities to hold Ezeta on the charge of appropriating to his own use the funds of the Salvadoran treasury. Therefore, when he arrived at San Francisco on the Bennington he and his friends were arrested by Marshal Baldwin and four deputies, who boarded the ship.

In addition to being accused of misappropriating funds he was charged with murder and arson. Mrs. Drayton Not Shot Out. TRENTON, Sept. 24.—The published statement that the time for Mrs. J. Coleman Drayton to file an answer in the divorce suit against her expired Sept. 6, is only true providing no extension was granted by the chancellor or vice chancellor, or mutually agreed to by counsel on both sides. Even in this case, however, a defense is not necessarily shut out, as the chancellor can allow it to be made at any time if satisfied with the reasons given for the delay. There is no record here of an extension having been granted, but it does not follow that none was granted.
