Tortured Disfigured ` Humiliated

By unsightly skin and blood dis-

Is there hope of cure? CUTICURA RESOLVENT Is the greatest of skin purifiers, As well as blood purifiers. Because of its peculiar action on the PORES,

It is successful in curing Torturing, disfiguring, humiliating humors,

When the usual remedies and even The best physicians fail. Entirely vegetable, innocent, and

effective, It especially appeals to those who

Suffered long and hopelessly, It acts upon the liver, kidneys, and bowels as well as upon the skin and blood.

Its use at this season insures a clear skin and pure blood, As well as sound bodily health. It is the only Purifier acting on the Skin and Blood at the same time.

Bold throughout the world. Price, Cuticuta, 50c; Soar Mer, Resolvant, \$1. Purras Dates AND CREW. Comp., Solo Proprietors, Reston, "How to Cure Skin and Blood Humors," free. Facial Blemishes, falling hair and simple baby rashes prevented by Cutleura Soap.

If tired, aching, nervous mothers knew the comfort, strength, and vitality in Cutieura Plasters, they would never be without them.

To be Voted on in New York State in November.

A CONFLICT ON PARTY ISSUES.

Democratic Members of the Constitutional Convention Refuse to Take Part In an Address to the People, but Will Pre-

the apportionment for future senatorial and assembly districts. The Republican majority claims that the apportionment is fair to all concerned, but the Democratic minerity claimed that it discriminated against the large cities in favor of every state in the Union, and find that the country districts and that the discrimination was unfair to the Democratic party as a whole Several exciting cau-cuses have occurred to determine whether the constitution shall be submitted to the people as an entirety or whether it shall be voted upon by acctions. The Demo-crats were in favor of a vote upon the measure by sections, hoping thereby to secure the rejection of some of the features to which they object when the constitution is ultimately voted upon in Novem

ber.
It was finally voted to split the bill into sections, though the sections are not as numerous as the leaders of the Democratic minority would have preferred. The measure will be submitted to the people in the form of three ballots. The first ballot provides for the adoption of the twenty-nine articles. The second ballot provides for the apportionment article. The third ballot provides for the canal improvement measure.

President Choate appointed a commit-tee to prepare an aidress to the people ex-plaining the work of the convention. The Democrats refused to serve, and the Hepublicans were finally compelled to pre-pars the address without their assistance. The Democrats assert that they will pre-pare another address denouncing the ad-dress prepared by the majority. The majority address explains that of

e 400 amendments proposed only thirty e have been accepted. These amend ments provide for the right of drainage across adjoining lands; the separation in the larger cities of the municipal elections from the national and state elections; printing of all bills before the legislature in their final form three days before their final passage; removal of the prohibition against the sals of the Onondaga salt springs; abolition of the office of coroner; prohibition of lotteries, pool selling, book-making and all the forms of gambling; abolition of the statutory provision limiting the right to recovery for injuries causing death to \$5,000, prevention of the naturalization of foreigners during a period of ninety days previous to a general election; including institutions supported by private charity among those whose inmates do not lose residence for the purpose of voting; adoption of the most approved mechanical devices in elec-tions: establishment of a system of regis tration; a new apportionment of senats and assembly districts, fixing the number of senators at fifty and the number of semblymen at 180; inforcement of the principle of civil service reform; prohibi-tion of the contract system or convict labor, authorizing the legislature to pro-vide for the improvement of canala; re-quiring the legislature to provide for public schools; preventing the overcrowd-ing of trial calendars; providing for a naval, as well as a land force of militia.

The New Panama Canal Company. PARIS, Sept. 29.—The issue of 300,000 shares of the new Pansona Canal company, dmited to the share and boudhold ers of the old company, has not been a success, but under the compromise be tween the liquidator and M. Oberndorffer, who is bound to take 25,000 shares, the new company will be immediately con

A NEW CONSTITUTION MUNYON

INVESTIGATED.

Leading Newspapers, After Thorough and Careful Investigation, Report That His Remedies Cure Ninety-Six Out of Every One Hundred Cases.

ALHANY, Sept. 69.—Yesterday was practically the closing day of the New York state constitutional convention. A session is being held today, but it is merely for the purpose of transacting confine business. The convention yesterday accepted the revision by a vote of 95. The short. The chief hone of contention has been Remedies with the most astonishing re-

letters and testimonials from nearly svery state in the Union, and find that his remedy only fails to cure about 4 per cent, of the cases. Some of these cures have been so quick and so therough that they seem almost incredible."

The Philadelphia Times says: "Out of 1811 reports received from those who used Munyon's Rheumatism Cure, 1744 declare themselves positively cared, and 32 say they have been greatly benefited. This is certainly indisputable evidence, and must place his remedies as one of the great discoveries of the age."

The New York Press says: "We find that out of every 100 who have used Munyon's Remedies 26 have declared themselves cured or greatly benefited. There can be no hesitancy in saying that Munyon's Remedies may be termed positive cures."

The Baltimore American says: "It will be seen by the testimonials we have published that Munyon's Rheumatism Cure acts almost instantaneously, curing the most obstinate cases in a few hours. This remedy never fails to cure sharp shooting pains in the arms, legs, sides, back or breast, or soreness in any part of the body. It is guaranteed to promptly cure lameness, schitica, lumbago, stiff and swollen joints, stiff back and all pains in the hips and loins. It seidom fails to give relief after one or two doses, and almost invariably cures before one bottle has been used."

Publicly Horsewhipped.

COTRILAND, Als. Sept. 19: - Abe Abrahams, a prominent merchant, was pub-licly horsewhipped here yesternay by Miss Lucille Boss, dangliter of Peter Doss, Sr., proprieter of the Doss hotel. It is said that Abrahams made a disparaging rethat Abrahams unde a disparaging re-mark about the young lady, which reached her ears. Miss Dess brought steams of blood with every blow, and made him beg for mercy. He was also attacked by a brother of the young lady, and would have been killed but for the interference of the chief of police, who ar-rested all the actions. rested all the parties.

McKinley Taiks to West Virginians. McKinley Talks to West Virginians.
Gallirosis, O., Sept. 29.—The author of
the McKinley tariff law yesterday paid
his compliments to the author of the Wilson tariff law. There was a good shead
audience present, composed largely of
West Virginians who had crossed the river
to hear Governor McKinley, and who
joined as heartily as their Outo neighbors
in applicating the satirical references to
the famous West Virginian who is the
head of the wave and means committee. bead of the ways and means committee

FINANCE AND TRADE.

The Business Situation as Viewed by Commercial Agencies.

SOME IMPROVEMENT THIS MONTH.

The Volume of Trade, However, Is Considerably Loss Toan in a Normal Year, Being About Twenty Per Cent. Smaller Than in September, 1892.

NEW York, Sept. B.—R. G. Dun & Ca's weekly review of trade says: Special inquiry has been made this week at all commercial reniers regarding the state of retail trades. The main tants disclosed are First, marked improvement within the past month and a considerable excess over the beings. the business stone a year ago, particularly in the necessaries of life. But second, it appears that the volume of trade at pres appears that the vorame or trade at pre-ent is on the whole considerably less than in a normal year, at most points, and in the more important trades is apparently about 20 per cent smaller than in Sep-tember, 1892

Evidence of continued improvement in wholesale trade and manufacture does not appear this week. There is large distribution in orders given some time ago but new business going to the manufac-turers is everywhere slackening. The completion of orders for replenishment of stocks leaves a narrower demand, and it is yet too early for consumption to pro-vide further orders.

The depression in prices of farm products will have some influence. Unprecedented records have been made in cotton and wheat, though as to wheat only in contracts for future delivery, in which

the prices are the lowest ever made.

It is encouraging that the speculation in corn has broken and the price has fallen five cents, less gloony estimates than those of the department having than those of the department having gained general acceptance. It is now sup-posed that the yield is not far from 1,500,-000,000 bushels, which will compel much economy in feeding, but speculation in pork has also broken, and the price has fallen 75 cents, while lard has declined half a cent. The iron industry shows a shrinkage of demand, and the prices noted today are but little above the low st this year,

st this year.

Failures are few and small, for the
week's liabilities amounting to \$5,278,385,
if which \$2,382,318 were of manufacturing and \$1,505,113 of trading concerns. The fallures during the week have been 235 in the United States, against 354 for the same week last year, and 55 in Canada, against

23 last year.
Bradstrests' review says: The feature of general trade throughout the country is found in moderate reactions within the week, more particularly in the volume of purchases of staples west, where trade ha been quite active, and at eastern points, i the course of prices, the week failing t show any upward movement of note in this line: in the check to business in the south, together with the damage to the

rice and orange crops.

Leading jobbers at different points who Leading jobbers at different points who for a month past have reported most favorable concerning the course of business—Baltimore, St. Louis, Nashville and Chicago—sond incidided advices as to activity and the bright outlook. Wheat has made another "lowest price," and Indian corn and onts Lave both declined. Sugar and coffee records lower figures, and another lowest price for cotton has had an unflavorable influence on the tene of business at important southerm maelets, particularly in view of activity of receipts of icularly in view of activity of receipts of

Experts of wheat (and flour us wheat), footh consts, United States and Canada, this week, have father off some, amount-this week, have father against 5,537,08 ing to 2,563,030 bushels, against 5,537,000 bushels last week, and 3,420,000 bushels in the week a yearago. Two years ago the total was 4,045,090 bushels, three years ago 3,405,000 bushels, and four years ago 1.598 000 bushels

Western Australia's Growth PERTIL Western Australia, Sept. 29.— Sir John Forest, the premier and treasarer, in a speech presenting the budget in the legislature, gave a glowing account of the position of Western Australia. He said that the revenue during the year 1993 had larreased 29 per cent, while the expenses had increased only 4 per cent. The population during the past four years a remarkable increase, amoun ing to 64 per cent.
