

Li Hung Chang and other Chinese Leaders May be Deported.

LONDON, Sept. 29.—A dispatch to the Times from Yokohama says: The destination of the second Japanese army of 80,000 is kept secret. The Japanese army in Corea is rapidly advancing north. No resistance to its progress is expected on this side of the Chinese frontier. There is no truth in the rumor of an armistice.

A dispatch from Shanghai says: It is believed the emperor contemplates a change of advisers and the dismissal of all the mandarins and others who have been concerned in the conduct of the war. Affairs at Peking are tending towards an imperial coup d'etat, involving the overthrow of Li Hung Chang and other statesmen. It is suspected that the captain of the Chinese ship Kwang Kai will also be beheaded for assisting and for stranding his vessel in an attempt to escape during the action of the Yalu river. The evidence against him is strong.

It is reported that the emperor has granted Li Hung Chang's request to be allowed to take the field in person, and that Li Hung Chang will make his headquarters at Lu Tai, near K'ai Ping, the present headquarters of the provincial commander-in-chief of Chih Li.

It is also reported that the Chinese troops have evacuated Corea and are now massed at Chiu Lung Ching, thirty miles westward of the Yalu river. It is stated there have been numerous desertions from the Chinese army of late because of the faulty condition of the arms and ammunition supplied to the troops.

Another junk that was sailing through the North channel in order to evade the guard boats struck a torpedo and was blown to pieces. Several men were drowned.

It is reported that the Japanese have succeeded in entering the Chinese province of Manchuria and that they are advancing upon the capital, Mukden.

It is also said that fighting has taken place between the invaders and the Chinese at a town between that city and the frontier. The engagement is said to have ended in a decisive victory for the Japanese, who, it is added, established themselves in the position previously occupied by the Chinese troops.

MRS. PEARY TALKS BACK

She Denies the Statement of Swain, Peary's Private Secretary.

WASHINGTON, Sept. 29.—Mrs. Peary, wife of the Arctic explorer, denies emphatically the statement of some of the members of her husband's party upon their alleged treatment.

Mrs. Peary said that her husband was unusually considerate of his men. "As to the menu, he gave them the best it was possible to obtain. No partiality was shown. Lieutenant Peary, all reports to the contrary notwithstanding, ate at the table with his men, and shared their hardships in every way. I could not go to the table on account of my baby. Some of the table delicacies, given to me by my friends, were used by me, but my husband declined to share them with me, saying that he preferred to have only what was given to the rest of the party."

"Were the men sent on these long trips without any preparations, as Swain alleges?" was asked.

"Well, I don't exactly know what is meant by 'preparation,'" replied Mrs. Peary. "About all the preparations they had to make was to hitch up the dogs and put on their furs. As to Mr. Swain's lameness, he had what is termed infantile paralysis. He was lame on that account, and no other."
