THIRDEDITION ALL IN SCHOOL AGAIN.

Now for Another Winter of Hard Brain Work.

Education Too Often Obtained at the
Expense of Nerve Force.

Parents Study the Problem of Keeping
Up the Health at School.

School has been open nearly a month. The streets are crowded with "shaking morning inns," full of eagerness and ambition.

Anxiety of parents begin. Will these young boys and girls stand the nervous strain?

Every year thousands of bright and interesting boys and girls are fatally injured by the indiscriminate and excessive school work.

Pale lips, languor, little eagerness for play, irritability, and loss of strength, show what the close application is making and inroads upon their health. There should be no delay in building up the child's system, and feeling the worn-out nerves with Paine's celery compound. Parents find their children quickly gain strength and color and increased weight from this remarkable nerve food. It is peculiarly suited to the needs of their weakened powers of digestion and assimilation.

During the school year thousands of children pursuing studies with an ambitious eagerness altogether out of keeping with their strength, have been enabled to keep in school and at work and to recover health and nerve strength by a careful use of Paine's celery compound, first prescribed by Dartmouth's great professor, Edward E. Phelps, M. D., LL. D. Parents who have studied the problem of how to build up their children's health while at school have found that Paine's celery compound brought vigor and strength by keeping the blood pure and the nerves and tissues richly nourished.

Physicians in all parts of the county earnestly recommend Paine's celery compound to parents.

CARDINAL GIBBONS ON LABOR.

The Workings, he says, Are the Greatest
Lowers by Strikes.

FROSTBURG, Md., Oct. 1.—Cardinal Gibbons, in a sermon on the labor question yesterday, said in part:

"Before the coming of Christ manual labor was held in degradation, and related to slaves, as being unworthy of freedom. Christ our savior has dignified and ennobled labor by word and example. He was pleased to devote many years of his life to mechanical pursuits, and ever since he worked in the carpenter shop he shed a halo around the workshop. If the washing of a general was ennobled by a Washington, if the profession of a statesman was ennobled by the example of a Webster and a Burke, if the profession of a farmer was ennobled by a Marshall and a Taney, if the vocation of a prelate was ennobled by the example of a Carroll, then the calling of a workman is dignified by the example of Christ.

"Labor has its rights, chief among which is the privilege of organizing without infringing upon their employers. One of the most difficult questions in our times to solve is the question of strikes. Strikes, as experience has demonstrated, are very questionable for the laborers' grievances. Statistics furnished show that the loss to the employes by strikes for eight years amounted to nearly \$75,000,000, while the employers lost only one-third this amount. I earnestly hope that some efficient remedy will be found to put an end to our recurring strikes, and arbitration seems to be the most potent method that can be conceived of."

When baby was sick, we gave her Castoria.
When she was a child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had children, she gave them Castoria.

LONDON, Oct. 1.—Bentley's bill of indictment with many corrections, Sir Joseph Haines, who according to the regular tradition would have been chosen lord mayor of the city, was rejected by his fellow aldermen, and the entire guild electorate will ballot for a lord mayor on Wednesday.

Electoral Officer Convicted.
HARRISBURG, Oct. 1.—Jacob Young, Republican judge of primary elections in the Third precinct of the Eighth ward, was convicted of making a false count as the primaries last spring and defeating Jordan Burrows for precinct assessor.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 60 cent bottle at once and you will never regret it. TRIED TO KILL A JUDGE

Shots Fired at Judge Brentano, His Wife
and Daughter.

CHICAGO, Oct. 1.—Judge Brentano, of the superior court, and his family have apparently been marked out for assassination, although the facts have been kept quiet. The first attempt was made to kill Mrs. Brentano Wednesday evening. She was standing in front of a window in the kitchen when a shot was fired, and the next instant a bullet came crashing through the pane of glass, barely missing her. It went through the outer screen and lodged in the wall opposite.

Judge Brentano's daughter was playing in the back yard Thursday afternoon when another bullet crashed into the rear of the house, coming evidently from the same direction as the first. Friday night Judge Brentano himself was the one who came near being killed. He was in the kitchen in front of the same window where which his wife was standing on Wednesday evening. The third bullet from the revolver of the unknown miscreant came through the window pane about six inches from the hole made by the first piece of lead. The bullet missed Judge Brentano's head by about three inches and went into the wall close to the first one.

Judge Brentano has been on the superior court bench of Cook county for about four years. He is the judge who tried the Prendergast case, but does not believe that his connection with that trial has anything to do with the shooting. Detectives are at work on the matter.

Maryland Officials Charged with Fraud.
ELLCOTT CITY, Md., Oct. 1.—The grand jury brought in indictments against Dr. John W. Hebb and President Robert H. Dobbin and ex-treasurer John Henry Hill, of the school board. Dr. Hebb, already under indictment for unlawfully receiving \$400 for vaccination of pauper school children, is charged with unlawfully drawing \$100 in excess of his salary as school commissioner of \$100 per year. President Dobbin, who is postmaster of the United States senate, is indicted for unlawfully drawing \$74 in excess of his salary, and ex-treasurer Hill is indicted for embezzling \$450. Indictments were also returned against the three for conspiracy to embezzle \$250 from the school funds.

Mut and Murder in Georgia.
VALDOSTA, Ga., Oct. 1.—There was a small riot at the turpentine still, near this place, in which two colored men were killed and members of the family of A. Gillespie, the manager, a white man, were wounded. The blacks had been fined for gambling by the manager, and the money taken out of their wages. They made an attack upon the manager at his house. Mrs. Gillespie and her children were bruised, and a black man in the manager's house was killed. The rioters then went away and got into a difficulty among themselves, one of them being killed.

Rebaked the Duds.
WENNEVILLE, Mich., Oct. 1.—The pretty girls who work in an apple dryer factory here have been annoyed of late by local Beau Brummels. Saturday Adolph Freeman, one of the exquisites, dropped in at the office on a pretense and was admitted to the factory. He tried his best to create a favorable impression upon Myra Myers. Myra and others waited until the superintendent was absent and then boldly made a rush for Freeman, and forcing him outside the building, with the assistance of the boss, they threw him into the cistern.

Poison in the Lunch.
ST. LOUIS, Oct. 1.—Joseph Cunningham, sexton of St. Peter's Episcopal church, is dead, and S. F. Beckett, the organist, is dying, both from the administration of some violent poison in a lunch of which both partook. The men partook of a lunch which Cunningham prepared, just when or where is not as yet known. George Thompson, colored, ex-sexton of the church, removed to make room for Cunningham, was arrested, but there is no evidence against him thus far.

Italians Tribute to Shelley.
ROME, Oct. 1.—A monument to Shelley, the English poet, erected by Italian admirers, was unveiled yesterday at Viareggio, off which town Shelley was drowned July 8, 1822. Signor Riccardi, a local lawyer, who was the inspirer of the movement that resulted in the erection of the monument, was president of the committee having the work in charge. The monument, which is fifteen feet high, faces the sea in Paolina square.

A Retired Merchant's Suicide.
PHILADELPHIA, Oct. 1.—John A. Meehan, a former well known merchant of this city, committed suicide at the Girard House yesterday by shooting himself in the head. For many years Meehan was a partner in the firm of Hood, Bonbright & Co., and when he withdrew from it, about ten years ago, he took out of it \$150,000. He leaves three daughters. No cause is known for the deed.

Berlin Brewers Yield to Socialists.
BERLIN, Oct. 1.—Negotiations have been opened between the brewers and the socialists with a view to bringing about a compromise of the long continued beer boycott. The brewers have accepted a portion of the demands made by the socialists, and it is probable that the negotiations will effect the desired end.

Exotic is Not Belligerent.
CITY OF MEXICO, Oct. 1.—General Antonio Exota arrived here and called on President Diaz yesterday. He denies any intention of making war on Salvador or Honduras. He says he intends making this country his home and will engage in coffee planting and bring his family here.

ALL OVER THE GLOBE— Dr. Pierce's Pleasant Pellets

are known. Pills of American manufacture easily lead. Why? Because they're smaller; the vegetable extracts are concentrated. There are many liver pills, yet there must be a reason why Dr. Pierce's Pellets give the best satisfaction. Probably because they're sugar-coated, small as grains of mustard seed, therefore, easily swallowed. Most of all—they act in a natural way, and are effective in result. Then, too, after they're taken they can't be felt—no different from the old-fashioned pills, with their gripping and violence.

Followed Advice and Was Cured.

In speaking of Dr. David Kennedy's Favorite Remedy, Mrs. James E. Beach, of Rosendale, N. Y., says: "About seven years ago I was a sufferer from kidney disease, so sick and helpless, I could not walk a step. My physician could do me no good, so I began to use Dr. Kennedy's Favorite Remedy, and from the very first dose I could see improvement, and it entirely cured. My husband used it for dyspepsia with excellent result. Favorite Remedy dissolves the excess of uric acid in the blood, thus curing disease. Most of the ailments people suffer with come from acid in the blood. For instance, rheumatism, dyspepsia, kidney, liver and urinary troubles, and the like peculiar to women, all arise from this cause, and are cured by Dr. David Kennedy's Favorite Remedy."

The Storm at Atlantic.

ATLANTIC CITY, Oct. 1.—The northeast storm, which has been raging along the coast for several days, is increasing in fury. Heavy gales are blowing across with the telephone and telegraph wires, and the surf is dangerously high. The waves are on a level with buildings in the inlet district, and is breaking over the board walk all along the ocean front. The electric railroad on drigueon beach has been washed out in several places on the lower end of the beach, and it is feared that the big steamboat wharf will go, as it is rapidly weakening. The railroad tracks over the meadows are submerged, and trains have great difficulty in crossing.
