There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Baim. Hardly a week passes but some member of the family has need of it. A toothade or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore besied in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balan is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a tay for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 60 cent bottle at once and you will never regret it. Death of a Gallant Wor Hero

ANNAPOLIS, Md., Oct. 2.-The death of John Jackson at the house of correction a reported. Jackson is famous for having performed one of the most heroic ac-tions of the civil war. The progress of the union fleet up the Savannah river was impeded by a torpedo placed in a very narrow channel and communicating with the shore by a wire. Jackson swam to the torpedo and took off the cap, rendering it harmless. He was given a medal for the gallant conduct. Drink was his ruin.

sold for \$150. You can get them for almost nothing now. Then the safetice
came in. They were heavy, with solid tires
at first, but they sold for \$150. Then came
cushion tires and lighter weight, and the
solid tires went down a notch. Next came
the pneumatics, and the best of these commanded \$150. In the meantime the patmanded \$150. In the meantime the pat-terns have been changed and improved in various ways. And still the wheel has not reached the stage of perfection. Probably the test one in the market now would hardly be accepted as a gift two or three years hence. People ask us when the patents will run out and wheels come down No one can foretell that. It wouldn't sur-prise me to see an electric wheel next. You never can tell what's coming in this line.
