### STREET WHISPERINGS.

Odds and Ends Gleaned By Reporters on the Streets.

The reception given General Hastings here yesterday was an excellent one, con sidering the loose manner in which the arrangements were made. The com-mittee that had the affair in hand forgot to give notice to the public that the disis safe to say that before the car arrived in town not a hundred people knew of the contemplated visit. It was a mistake, but fortunately it can work no harm in Gen. Hastings' case. If there was a fight on hand such bose management would be very injerious. When much visitors are coming everybody ought to be notified. "Don't hide your light un der a bushel." The hustlers always win.

There will be some lively times here before the campaign closes. The old Don Cameron Club is to get on its working clothes again and jump in for the whole ticket. It is understood that no favors are to be shown any particular candidate All who join the club's work will be expected to stand up for all the nominees on both the state and county ticket.

"Lanigan" Boyer was as happy as a ark yesterday. He carried the banner in the Hastings parade and held it high in the air while the Grant Band played in and a revolution will doubtless occur front of the hotel. The banner was in-scribed with a number of terse Protection mentiments and Lanigan took care to see that all in the crowd had a chance to see

"," Henry Williams, the president of the Mahanoy City Borough Council, is a most enthusiastic Hastings man. He followed the General and his party to town in his working clothes.

The finance committee appointed to audit the accounts of the committee that had charge of the Soldiers' Monument picnic will begin work within a few days and the result will be published in due time. While the plenic was not as successful as it would have been had the times been better and if there had been no postponements, it is believed a nice sum will be notted.

Hazel, the young burglar who robbed Coffee's place yesterday, says it was three a. m. when the burglary was committed What have the police to say to this ? Here is a store in the very heart of the town, a bright electric light is in front of it and five policemen are supposed to be patrolling the streets, yet a seventeen-year-old thief gets into the store and carries a quantity of clothing, shoes and other goods through the streets to the northwestern part of the town.

Secrecy Regarding the Car's Health.
There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Haim. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheamatism or neuralgia quieted. The severe pain of a burn or seald promptly releved and the sore healed in much less time than when medicine has to be sent for. A spralu may be promptly treated before inflammation sets in, which in sures a cure in about one-third of the time otherwise required. Cuts and braines should receive immediate treat, ment before the backs required. Cuts and braines should receive immediate treat, ment before the backs cured and keyeral a doctor bill. The unevent the courts west limited on the Big Four re-ended to the south terms from the releval orders to side truck four influ-south of the nity to allow the east isound southwestern to pass. As the train left the city the blind bacgaps can was boarded by four tramps. When the siding was made Brakeman Wilson went to the front platform and ordered them off. The men showed fight and flashed revolvers. Wilson ran to the engine cab, called the engineer and fireman, and the three pulled their revolvers. Firing began and finity twenty shots wore passed. The finale came when one of the tramps stag-gered and foll. He was taken up by one of the four and carried to the woods at the side of the track. Another Imponding Revolt in Nicaragaa NEW ORLEANS, Oct. 6.—Hinefields ad-vinue just reserved eaver Culvin C. Aus-bern, of Pittsburg, the wealthy American resident, has been arrested for participa-ting in the July riots, although he cat ting in the July riots, although he can prove he was attending a diamer and took no part in the disorders. He luid his case before Capitaln O'Neill, who re-ceived word from Washington that Ze-lays has consented to permit American prisoners to land in Binefields to sattle their affairs, although still considering them exiles. This is evidently all that America will do for the prisoners. Eng-land gave even less comfort to its exiles, and the Mohawk took them to Colombia and Jamaica. It has not dropped the case of Vice Consul Hatch, however, Gen-eral Ortiz has escaped from imprisonment,

On the night of Sayers' disyesteriay. On the night of Sayers' dis-appearance an unknown man called at Sayers' home and, after some conversa-tion carried on in an undertone, Sayers took his bat and left. This was the last seen of him. After trying change of climate and various remedies without any apparent benefit, at the suggestion of a friend I began to take Paine's celery compound. Its effect was very marvelous. My appetite returned, my digestion was improved, and I began to sleep regularly, which I had not done for weeks. I am still taking the compound, but regard myself as a well man. I have recommended it to many of my friends, and they are all loud in its praise."
