## LANDLORD AND TENANT.

An Afternoon Conflict in Which a Woman Suffered.

### DOWLING WIELDS HIS AX!

Block, the Tenant and His Wife Try to Stay the Attack and the Latter Sustains a Painful Injury.

There was a lively conflict between landlord and tenant yesterday afternoon on South Main street, the principals being John Dowling and Sam Block, the clothier. It wound up with a vigorous wielding of an ax and a promiscuous flight of broken boards, during which Mrs. Block, wife of one of the contestants, sustained a painful injury.

Block leases the property at the corner of Main and Cherry streets, in which his store is located, from Dowling. The building adjoining the property on Main street is also owned by Dowling and is occupied by a Polish saloonkeeper.

According to Dowling's story Block has been trying to appropriate more property than his lease calls for, and commenced to board up the adjoining building in such a manner as to destroy the usefulness of a window at the rear of the Pole's premises. Dowling sought a lawyer and was advised to first ask Block to pull down the boards and if he refused to do so an ax could be used.

Dowling returned to the premises in company with Constable Thomas Boland, who was employed to preserve peace. Block refused to remove the boards, claiming that he had to resort to some means to abate the nuisance which the patrons of the saloon were creating in the yard. Dowling then picked up an ax and away went a board. Block protested vehemently and tried to get at Dowling, but Constable Boland preserved the peace. Then Mrs. Block came out and assisted her husband in the protest. Meanwhile Dowling's ax was pounding the boards with trip-hammer regulation and as one piece was dislodged it struck Mrs. Block over the right eye, inflicting a severe gash and knocking the woman backward several feet. Mrs. Block recovered from the shock and, without minding the blood that streamed from the wound and over her clothing, again joined her husband in protesting against Dowling's work. Dowling dropped the ax and ran away when he saw Mrs. Block was injured, but under advice of his friends he resumed work and continued pounding the boards until every one was removed; he then retired with the constable and went before Justice Cardin, where he entered a suit for damages against Block for trespass and malicious mischief.

### Stolen Goods Returned.

When Mrs. F. R. Shollenberger, of East Coal street, returned from a drive last evening the harness taken from the horse was thrown over the fence of the yard. During about three minutes the harness was left there unguarded it disappeared. This morning it was found in Mr. Shollenberger's yard and now the family is wondering whether a practical joke was played. Mr. Shollenberger says he does not like such tricks and will make things warm for the joker if he is found.

### Another Foot Race.

Articles of agreement have been signed for a hundred yard dash between William Rogers and Patrick Roach, both of Girardville, the race to be run at Mahanoy City Park, Wednesday, November 23rd. Each party has placed a deposit of \$50 in the hands of stakeholder James O'Brien, of Mahanoy City, \$50 more to be put up in four weeks time, and the balance of \$100 on the day of the race. Sheffield rules to govern the match.

### An Appreciative Public.

The public is showing its appreciation of the enterprise of Mine Host McElhenney in catering to the wants of his patrons. The cuisine of this popular cafe is not surpassed outside of the large cities. Free lunches are being served every evening during the week, but on Saturday evening Mr. McElhenney will give the public a treat in this respect in the shape of turtle soup. Don't miss it.

### Mr. Hess Sinking.

### STREET WHISPERINGS.

Odds and Ends Gleaned By Reporters on the Streets.

Our town is about to lose another of its oldest and most prominent families in the departure of S. A. Beddall and family. Mr. Beddall has been making frequent trips out of town recently, but has studiously guarded the object of the trips as a secret. I am informed by excellent authority, however, that Mr. Beddall has formed a partnership with George Burdick, of Frackville, in the purchase of a coal mine at Tuscarora and that our townsman will become a resident of Tanagwa. Thus it is that one by one the representative people are leaving us, and I am led to believe with others who have expressed the fear that within a few short years the people who will rank as the representative citizens of the town will be those who a short time ago were gazed upon with curiosity as they alighted from the arriving trains.

An electrician who stood beside me at one of the pass-the-time-away places on Main street the other evening said, after gazing intently at the network of electric wires above the pavement, "One of the greatest responsibilities the electrical companies have is to watch the insulation of the wires. Should the covering burn off and the wire come in contact with a limb of a tree you could have as dangerous a blaze within the shortest space of time as can be imagined." And I believe him.

By slow approaches cold weather is drawing near. Fires are already comfortable some days. No doubt we shall have many more pleasant autumn days but the time for sultry days and hot nights has gone by. Stoves and overcoats will be our best friends for some months to come.

It seems strange, indeed, how some men will sit around and blow themselves hoarse about having one of the finest and most intelligent dogs in the country, but let some suggest that the ordinance in regard to dogs be enforced and see how quick most of these men will declare that they never owned a dog and wouldn't have one of the pesky brutes about the house. I will bet my last summer straw hat that if the borough authorities would enforce the ordinance the pedigree of nine-tenths of the much praised dogs would drop with lightning rapidity.

Speaking of dogs reminds me of a fight I witnessed on Jardin street the other evening between two butchers of town. One charged the other with using horse meat to fill his "casings" and "the other" resented the charge with a well directed shot from the right shoulder. Friends interfered and prevented what might have been a bloody fracas, as both men are noted as sluggers.

For some time a rumor has been going the rounds that the shops at Delano were working overtime. I made inquiry as to the truth of the report and it is emphatically denied. It is claimed that a man must stand A. No. 1 to secure any overtime at the shops. Last week they worked five eight-hour shifts.

I am told that boys are in the habit of constructing looting shanties in mine breaches and keeping fires in them daily. This is a very bad practice and if boys are caught at it they will meet with severe punishment. It is not long since the fire department was called out to extinguish a fire in a breach that threatened serious damage.

Two scrub teams engaged in a game of foot ball on North Main street, between Lloyd and Centre, last night, and afforded much amusement for the large crowd of spectators that congregated. We may now look for advertisements of this character: "Great foot ball match! Throw 'ems vs. Chuck 'ems, at the Main street grounds. Game called at 8 p. m. No police interference."

I met a Pottsville installment agent yesterday who chuckled as he told me of a sale he had just made to a Hungarian family in the First ward. He went into the house to sell a fancy table cloth. None of the occupants could understand English, but the agent managed to get the woman of the house to understand that the cloth could be purchased for seven dollars cash. She bought and spread it over the bed, then she summoned her dozen or more boarders and as they stood about the couch admiring the supposed quilt the agent slipped out of the house and hurried for the train.

## STRUCK BY A BRIDGE.

Freight Train Conductor Lutz is Knocked Senseless.

### HEAD TERRIBLY GASHED!

He Was Standing on Top of a Car Looking Over His Way Bills and Didn't Notice the Bridge.

Jacob Lutz, a Lehigh Valley freight train conductor, met with a serious accident at the red bridge last night and had a narrow escape from death.

Lutz was put in charge of the Empire freight train last night and passed through town, eastbound, at about half past seven o'clock. He stood on top of a car with his lantern swung upon his arm and was looking over his way bills. While thus engaged he did not notice the train approach the bridge and it struck him.

The conductor fell backward upon the roof of the car unconscious. His body rolled to the edge of the roof, but fortunately did not roll over. If it had the wheels of the train would have crushed it.

One of the crew saw the conductor's lantern drop and roll to the ground. He signaled the engineer and the train was stopped. It was thought the victim had followed the lantern to the ground, but after a search along side and under the train and along the track to the rear the unconscious man was found on the top of the car. Blood flowed profusely from deep gashes on the back of the head, the forehead and face. Water was secured and in a few moments the conductor was restored to consciousness. He was assisted from the car to Dr. Straub's office, the train meanwhile proceeding on its journey. An examination of the injuries showed that they were severe, but not dangerous, and after they were dressed Lutz was assisted to his home. He is 28 years old and resides in Mahanoy City.

### INSTANTLY KILLED.

James Donovan's Neck Broken, by a Fall of Clod.

James Donovan, a resident of South Emerick street, was instantly killed by a fall of clod in the Buck Mountain vein of the Shenandoah City colliery shortly after noon to-day.

The men working in the place had tried to bar down what appeared to be a treacherous piece of topstuff, but failed to move it. Donovan then took a position under the piece and while he was engaged in loading a buggy the clod fell, crushing him to the rails, breaking his neck and causing instant death.

The deceased was about 24 years of age and leaves a wife and two children. He was a son of John and Mary Donovan, who recently moved from this place to Mahanoy City. Friends and neighbors of the deceased speak very highly of him and say he was very popular.

### Paid For His Fun.

Penn. fines, costs and damages amounting to \$85, of which amount \$17 is allowed for damage done to the passenger's overcoat and vest.
