

THIRDEDITION

KEPT THE WITNESS AWAY.

Sensational Charge Against New York Police by Lawyer Goff.

NEW YORK, Oct. 23.—It had been expected that one of the police commissioners would have been put on the stand at yesterday's session of the Lexow committee, and the committee room was packed with an expectant crowd of people. Hardly had the committee taken their places when Lawyer Goff came into the room in a high state of excitement. He addressed himself to one of Chairman Lexow, stating that he was compelled to ask for an adjournment. Mr. Goff announced that one of the most important witnesses yet before the committee, who was expected here from Chicago, had been detained in Jersey City, evidently the victim of a police conspiracy to keep her from giving evidence before the committee.

The witness is known as Mrs. Matilda Hermann, who mysteriously disappeared with her husband some three or four weeks ago, when it was found the investigating committee had issued a subpoena for her appearance. With great difficulty the woman had been traced to Chicago, and after much effort was convinced that it was for her interest to return and testify. Mr. Goff announced that the police of this city had a hand in spiriting her away.

It was also learned that the woman's trunk had been taken and carried away with valuable documents which would have a strong bearing on the evidence. It was learned that to prevent the woman's reappearance Mr. Moss had gone to Jersey City and made a charge of perjury against Mrs. Hermann and secured her commitment to the jail until extradition papers could be secured. The charge made by the Jersey City police against Mrs. Hermann was that of kidnapping.

THE WAR AGAINST CHINA.

Chinese Vessels Destroyed by Submarine Mines—Persecutions of Christians.

VASCOVELL, B. C., Oct. 23.—The steamship Empress of Japan brings the following news from the Orient: The Chinese loss in the battle of Yalu was: Killed, 70; wounded, 202. Two different accounts are published in Yokohama papers with reference to the Chinese troops having crossed six forts on the southern bank of the river and fourteen on the northern. They have about eighty guns in position, and the force assembled is about 70,000. All the troops that escaped from Ping Yang are on the northern bank. Other reports say that the Chinese forces only number 9,000 on the northern bank and a similar number on the southern, and that but eight forts are built so far, but that on the appearance of the Japanese troops they hastily strengthened their position.

Navigation in the Shihoutsa channel is now very dangerous, 600 submarine mines having been laid. A large junk struck a torpedo recently, and both it and a fishing boat were blown up and the crews destroyed. A Chinese gunboat was also destroyed in the same manner.

Hospital arrangements at Hiroshima are very extensive and complete, and the wounded Chinese prisoners are treated with the same care as Japanese. So much so that many Chinese patients are reluctant to leave the hospital and manifest very little patriotic feeling, their chief concern being their recovery of pay.

Fierce persecutions have broken out in the two southern provinces of Corea against the native Christians. Already a large number of native converts have been murdered and many robbed and beaten. Frere Jozannet, a French missionary, was captured by General Yeh while on the way to Seoul. He and an attendant were interrogated and beaten by soldiers in the presence of General Yeh.

RUN DOWN AT SEA.

The American Liner Paris Sinks an Unknown Ship.

SOUTHAMPTON, Oct. 23.—Between 1:30 and 2 o'clock Tuesday morning the American liner steamer Paris, Captain Watkins, which arrived here last night from New York, ran down and probably sank an unknown ship. The weather was very thick at the time, a heavy rain falling. As soon as the collision occurred the Paris was put about and a search made for the ship. After a time the vessel or a capized wreck was reported off the starboard bow, but sight of it was lost before a life boat could be lowered. Nothing further was seen though the Paris laid off and searched until daylight. The steamer sustained no damage beyond having a portion of her rail bent and two winches broken. Sailors on the Paris say the sailing vessel showed signals of distress after the collision, and that screams were heard aboard of her.

It is stated that a white light was seen on board the ship three minutes before the collision, but that no red or green light was visible until after the steamer had struck her. Captain Watkins declines to make any statement regarding the accident, except to the company officials.

Passengers on the Paris criticize the delay on the steamer in lowering a boat and in getting the search light working.

A Plague of Diphtheria.

STURGEON, Ky., Oct. 23.—A fearful and death dealing plague of diphtheria is raging opposite Caseyville, Ill., and coffin can hardly be furnished fast enough with which to bury the dead. Not fewer than forty deaths have occurred within the week. It is not uncommon to bury two children in a single coffin. A man from across the river arrived at Caseyville yesterday for the fifth coffin, furnished in one family. The plague has now crossed the Ohio, and is epidemic at Caseyville and Mulfordtown, having been brought there by families from Illinois, fleeing from the ravages. A number of dangerous cases are developing there, and all the schools have closed. The community is in a general state of alarm. Among the few recoveries noted the victims have been left blind or paralyzed.

BRUMM FULL OF VIGOR.

(Continued from first page.)

to what wages you shall have, or how many hours you shall work. And yet Mr. Brumm says the duty taken of the bituminous coal cannot hurt the anthracite coal.

At this juncture Mr. Brumm was handed a slip of paper and he read the writing upon it to the audience after stating that he did not know from whence the slip came. The writing was as follows: "A West Virginia gentleman here says Governor McCorkle went before the Ways and Means Committee and said that to take the duty off soft coal would ruin West Virginia, and it has."

After reading to the audience Mr. Brumm said, "I don't know who the gentleman is, but what he says is correct."

A respectable dressed man of about middle age and with intelligent countenance stepped to the stage from the right wing and said, addressing the audience, "I am the gentleman." This brought forth great applause, the witness stepping back to the wing in the meantime. A HERALD reporter addressed the gentleman, who said he was H. R. Rupert, a clerk employed at Mayberry, West Virginia, and he was prepared at any time to prove his declaration.

Carmencita's Only Rival.

Miss Maude Madison, who has been specially engaged for the American tour of "Tisso's Living Pictures," is considered by the critics of New York and London to be the only rival of Carmencita. The poetry of grace and motion as exemplified by this bewitching artist will hold the most critical and exacting auditor and her succession of Spanish skirt, serpentine and stereotyped dances reveals the marvelous skill and talents of this pretty danseuse's art. At Ferguson's theatre on Tuesday evening, October 30th.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which in turn cures it. Procure a 50 cent bottle at the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it. For sale by Grubler Bros.

Johnson, the racing man, went a mile straightaway, paced by a quartet, in the marvelous time of 1:34.4. Eck brought Johnson hero to try for the mile straightaway over this pavement, which is as smooth as a parlor floor. The course is straight and has been carefully measured, but there is a steep fall for an eighth of a mile at the finish. The time by quarters was: First quarter, 21.25; second quarter, 22.25; third quarter, 23; fourth quarter, 24. Electric timers were used, and it is claimed there can be no mistake.
