## BRIGHT RAY OF HOPE.

Full Time at the Collieries For November.

### OPINIONS OF THE ORDER!

Some People Fear the Effects of an Over Supply, But the Majority Look For a Good Winter.

The announcement that the Philadelphia and Reading Coal and Iron Company had issued orders for all its collieries to resume work on full time beginning with this morning was the best piece of news issued from the headquarters of the company for many months. Although the order has been given wide publicity through the press and appears to be backed by authority, there are several officials in this district who stated this morning that they had not received official notice of the order.

Other officials consulted in relation to the matter stated that while official notice of the order had not been received here it was generally believed that the report was authentic.

Opinions as to the effect of a resumption of work on a full time schedule to the end of November differ. Some incline to the belief that the increased production will so much outstrip the demand as to overstock the market to an abnormal degree and cause a fall in the percentage basis. Others say that the addition of two days a week will be an advantage to the people in preparing for the holiday season and that the increased time will more than counterbalance any possible drop in the percentage by reason of a drop in prices due to over-supply.

The miners have promptly caught the rumors of war between the coal companies and the majority of them believe that a war would be the best thing that could happen, as it would give the employes a chance to get more work. Their theory is: the more war the greater the sale of coal, and the greater the sale the greater must be the production.

The business people of this town have been especially well pleased by the reported order. Some of the most prominent among them have stated that one month of full time will put the town on its feet until the new year opens. The times have been so stringent for months past that one ray of bright light is of almost inestimable value.

While a motor man was turning the trolley bar of one of the Schuykill Traction Company's cars at the Main street terminus last night the bar broke off and the car had to be piloted to Girardville.

There was no foot ball game at the Trotting park on Saturday, the Mt. Carmel team going to Shamokin instead of coming here according to agreement. It was shabby treatment of the home team.

C. E. Titman made a ten-strike when he purchased the Cather property, on West Oak street. When the alterations and the new buildings are completed the property will be among the most desirable in town.

The vicinity of the bridge of the Lakeside Electric Railway, on Oak street, is a dangerous play ground for children. Parents should try and prevent their children from frequenting the place. Walking the bridge girder has become a favorite pastime. One misstep would mean death.

## SUNDAY AT THE CHURCHES

Large Gathering at the Trinity Reformed Church Last Night.

### THE EXERCISES IMPRESSIVE

The Twenty-first Anniversary of the Sunday School Celebrated by a Missionary Recital.

Every seat in the Trinity Reformed church was filled last evening and many people were unable to secure seats, the congregation and Sunday school being in attendance in force with many of their friends who belong to other churches. Yesterday marked the twenty-first anniversary of the Sunday school and for that reason a special service was arranged.

Instead of preaching a sermon to the congregation Rev. Robert O'Boyle, the pastor, delivered an address on the necessity of building up the Sunday schools. They should at all times be larger numerically than the congregation of the church and when this is not the case it shows a lack of something which should not be overlooked. The children should always be in attendance at the Sunday school to keep it continually supplied, for from the Sunday School the church derives its congregation. Rev. O'Boyle's appeal in this connection was a strong one. He also referred to the modest manner in which the Trinity Reformed Sunday school was established in town twenty one years ago; how it formed nucleus for the strong congregation the church can now boast of; and appealed, for the sake of maintaining the prosperous condition of the church, that the fountain head, the Sunday school, receive the undivided attention of both young and old at all times.

After the pastor's address there was singing and as the little notes died out the church was darkened and arrangements were made for the missionary recital, in which twenty-four little girls and young ladies of the Sunday school took part. The exercises were of a very beautiful and impressive character. Twenty four young people were arranged in groups of ten each. The first represented little lights and the second heathens. The four other children took part in opening and closing recitals. The first group of children marched in and took places on the platform. Each child carried a wax taper and as each one recited she lit her candle from that of the child who preceded her in reciting. After all the parts were recited and the tapers had been lit the two groups joined in singing the chorus, "There is a Light at the River." The exercises were of a very pleasing character and a request for a repetition of the exercises has already been made. Singing by the congregation and benediction by the pastor closed the service for the evening.

Wedding at the Synagogue.

A large crowd of people gathered about the synagogue on West Oak street yesterday to witness a wedding announced last week, but only a small proportion of them were able to gain admission. The ceremony was performed according to the ancient Jewish rites. The groom was Louis Greenberg, of Scranton, and the bride Miss Dora Hyman, of Wilkes-Barre. Rabbi Isaac H. Mitznik, of town, officiated at the ceremony, which was conducted entirely in the Hebrew language. The bridesmaids were Misses Katie and Mary Levine, Bessie Rabinowich and Annie Yaffe. Messrs. Louis Fineberg, Louis Rabinowich, Abraham Barnowich and Isaac Shapira were the groomsmen.

Another Trap.

Notwithstanding attention has been repeatedly called to the danger of leaving coal holes in the pavements improperly protected another trap was found on Main street last night, but not until a lady had fallen into it and narrowly escaped serious injury. This is the third accident of the kind to happen within three weeks. The one last night occurred in front of the Peters' property. These evils will result in suits for damages if the property owners are not more careful.

Attend the Lincoln Club ball on Monday evening next. A good time assured.

Kline About Again.

It is said that Kline, one of the notorious old-time Flynn gang of crooks, is in town again. Kline disappeared several months ago when the authorities were after the men who robbed Daniel Brennan's house on West Coal street. An informant of the HERALD says Kline looks like an Indian doctor. He sports whiskers and a cowboy hat. It has been remarked as a coincidence that Kline puts in an appearance simultaneously with the robberies of Max Reese's and Dr. Razmus' places.

STOCK MARKET WEAK. Report up to Noon To-day—The Anthracite Situation.

The noon report through Cooper & Co., of East Centre street, shows that the stock market opened rather weak this morning with the coal stocks again the feature. D. L. & W., D. & H. and J. C. being very active. The selling orders were large. Just when the depression will end is doubtful. The issue has been too long obscured. It is now plain that the allotments of the Jersey Central, the Delaware and Hudson and the Lackawanna are unwarranted by their ownership of anthracite coal. Concerning the Reading, it makes in the end no practical difference whether it gets a larger profit on less coal, or a smaller profit on more coal, and it is easily in the best position of all to withstand a coal war, as it controls alone somewhat more than 55 per cent. of the mineral underground. It will be conceded by persons familiar with the facts that the Reading, if it shall ever get a sound basis, must inevitably bring about a new order of things with the consent of rivals preferably, or by a policy opposed by them, if need be.

Attention, Democrats!

Democrats of Shenandoah and vicinity are requested to meet in Egan's hall, corner of Main and Centre streets, at 7:30 p. m., on Oct. 29th, 1894.
