The Democrats are beaten, and know
they are beaten. Sincerely knows it.
Wilson knows it. They all know it per-
fectly well. They know that the people
intend on November 6th to give an over-
whelming majority against the acts of
the last Congress. The people demand
the overthrow of the Democratic party,
and he who gets in their way must accept
the results of his action. When a house
is falling let him who would not get hurt
stand from under.

The new Tariff has been in operation
long enough to enable some idea of its
workings to be formed. Our Washington
dispatches point out that for the forty-
seven days from September 1 to October
18 the receipts of the Treasury from all
sources were \$33,928,819. During the same
period the expenditures were \$32,500,018.
This would indicate a yearly deficit of
more than \$147,000,000. With the allow-
ance that the sugar duty will yield all
that is expected of it, \$40,000,000 there will
still be a balance on the wrong side of a
hundred-odd millions. These figures are
eloquent as to the wise and sagacious
character of Democratic statesmanship?

EVERY workman in the Thirtieth
Senatorial district who is honest in the
declaration that his fellow laborers should
have a representative among the law-
makers in the State Senate, and who is
willing to stand by a man who has re-
peatedly stood up in the Legislature and
demanded and appealed for the rights of
the workmen, especially those who
are dependent upon labor in the mines
for a livelihood, cannot afford to withhold
his vote from John J. Coyle on next elec-
tion day. Mr. Coyle will be as firm and
valuable in his work for the benefit
of the laboring classes when he gets to
the Senate as he was in the Legislature.

WEIGH IT CAREFULLY.

We take the opportunity to call atten-
tion to a circular which has just been is-
sued by the Shenandoah Citizens' Water
and Gas Company to the voters of this
town on the proposed second increase of
the borough debt to raise funds to con-
struct the public water works. Every
voter in the town should read the circular
and consider it carefully. Voters who
are unfortunate enough to be unable to
read should have the circular read to them,
two or three times if necessary, in order
that they may fully understand its pur-
pose. The document is one of the most
important issued since the public water
works project has been on foot. It is a
paper anyone can read without fear of af-
front. It is couched in clear, unvarnished
business language, directed from a stand-
point of benefit to the masses, and all

temptations to arraign or censure any one
are studiously avoided. It contains the
bare facts of history in connection with
the water works, and nothing else. It
sets forth the estimates made by the pro-
jectors of the works when the people were
first asked to increase the borough debt,
and with rare good judgment draws a
comparison between the results of the
Mahanoy City water works and those ex-
pected by the projectors of the Shenan-
doah plant. The statements made and
the figures shown by the comparison are
sufficient to convince any one who is open
to conviction that the operation of the
public water works will cause an annual
deficit of from eight to ten thousand dol-
lars to the borough. Another important
feature of the circular is that part in
which the water company makes a propo-
sition to buy or sell. It offers to choose
an appraiser, let the Borough Council
choose one, and the two selected to choose
a third, the three appraisers thus selected
to appraise the franchise, rights and priv-
ileges of the water company, and the latter
will sell at the price that may be fixed;
at the same time the same appraisers to
appraise the work done and materials fur-
nished by the borough on the public
water works, and the company will
buy at the appraisement, should the
borough not wish to buy. This
offer the company makes to prevent
further disputes and bickerings, and to
prevent further and wasteful taxation,
and it is a fair, just and equitable plan
for the adjustment of what must other-
wise become at some day, in the minds of
all the taxpayers in the borough, one of
the most unfortunate projects the people
ever took a hand in.

TONS OF DYNAMITE EXPLODE.

Presumably caused by a defect in the
gun of a miner.
CRITZBURG FALLS, W. Va., Oct. 29.—The
city and adjacent vicinity was tremu-
lously shaken yesterday by an explosion which
occurred on the summit of a hill a mile
from town, where was stored in a small
building five tons of dynamite. The
blast had been set by a mischievous
miner from a local hardware
merchandise. It is presumed that the
blast was caused by a defect in the
gun of a miner. The explosion
was heard in some places as far as
some powder also in storage, and that
the person lost his life. The ground
was torn up to a great depth for some
distance, while trees and fences were
torn and twisted, and quite a number of
trees were pulled out by the roots. The
glass in every farmhouse for miles around
was shattered.

In this city the effect was disastrous to
the plant glass fronts, and windows in
numbers of dwellings were blown out.
The shock came while the people were on
their way to church, and threw women
and children down, and caused several
women to faint. The village of Bloomer,
twelve miles distant from the scene, ap-
pears to have felt the force more severely
than here.
A handkerchief and a piece of coat sleeve
were found about fifty rods away, and are
thought to be part of the clothing of Paul
Robber, an Austrian who was seen going
in the direction of the mine a short
time before the explosion.

Only a Sparring Match.
NEW YORK, Oct. 29.—Inspector McKe-
ney, of Brooklyn, was seen by an Asso-
ciated Press reporter regarding the series
of glove contests scheduled to take place
tonight in the Seaside Athletic club, the
most important of which is the Griffin-
Lavigne fight. The inspector has notified
the club authorities that no blood spilling
and no heavy fighting will be allowed in
the ring. The inspector ridiculed the idea
that any match making would be allowed
at the ring side or in it. "Our orders are
plain," he said, "and I will guarantee that
no violation of the law will be tolerated for
a minute." This determination on the
part of the police, if carried out, will put
an end to anything like a hot fight between
Griffin and Lavigne.

Nicolas and Alex Wodden.
ST. PETERSBURG, Oct. 29.—It is stated
that Dr. Zacharin now takes a more hope-
ful view of the czar's case. Dr. Crabs
yesterday tapped his majesty and relieved
the swelling. Professor Leydon states
that the czar's illness is not serious. M.
Durnovo, minister of the interior, intends
to resign on the death of the czar. The
czar was able to give the czarowitz and
Princess Alex his blessing on the occasion
of their marriage, which took place today.
The czar died this morning, because it is
the anniversary of the illness of the
czarina, which was the result of a
mistake in the diet.

Dublin's Ex-Mayor in Boston.
BOSTON, Oct. 29.—Hon. T. D. Sullivan,
M. P., ex-mayor of Dublin and an ex-
pected prisoner under the Balfour
executive act, lectured at the Boston theo-
logical hall yesterday afternoon before an
audience which filled the house. His lecture
was on "Fourteen Years of British Parlia-
ment," in delivering which he ridiculed
the home of lords, and predicted that its
end was near. He prophesied that soon
Ireland would have a parliament of her
own, which, however, would not prevent
the most friendly relations with England.

Disastrous Rear End Collision.
LIMA, O., Oct. 29.—The fast freight west-
bound on the Pittsburg, Fort Wayne and
Chicago was run into from the rear by
freight No. 77 in a dense fog just east of
the Ottawa river bridge. Six cars were
thrown down an embankment and wrecked
utterly. One gondola loaded with coke
caught fire and was consumed. Brakeman
Frank Ferris, engineer John Kohler,
fireman W. D. Rhodes, all of Fort Wayne,
were injured seriously, but not fatally.
Loss \$40,000.

Towns Wrecked by a Tornado.
FRANK, O. T., Oct. 29.—Reports are re-
ceived here of a tornado that struck Ton-
kawa, a small town north of here, in
which several buildings were blown down.
The Reed store building at Tonkawa was
levelled and the dry goods scattered around
generally. Daniel Leonard's store, in the
country a few miles northwest of Tonkawa,
was also blown down and his goods scat-
tered for miles. Several dwellings were
torn to pieces, but no lives were lost.

HOPE FOR THE CZAR.

A Slight Improvement in the
Monarch's Condition.

A MIRACLE WORKER'S CONFIDENCE.

'Holy John of Cronstadt' Declares That
the Lord is Working a Miracle and That
the Stricken Ruler Will Recover—The
Royal Marriage.

ST. PETERSBURG, Oct. 30.—The official
bulletin issued last night from Livadia
says that the czar took little nourishment
yesterday. He appeared weaker. He
coughed more, bringing up phlegm mixed
with blood. The cough, which results
from chronic catarrh, has become worse
and impedes his majesty's breathing.
It is now known here that the marriage
of the czarowitz and Princess Alex did not
take place yesterday as reported. What
gave rise to the rumor was the arrival
of the metropolitan of St. Petersburg at
Livadia to announce Princess Alex in ad-
vance of her wedding. It is now stated on
"good authority" that the marriage will
not occur at Livadia. The actual mar-
riage cannot occur without an elaborate
contract between Russia and Prussia, which
has not yet been drafted yet.
An analysis of the fluid drawn from the
limbs of the czar has had a reassuring re-
sult, giving hope that the process of ab-
sorption may soon begin. Should the im-
provement in his majesty's condition con-
tinue the marriage of the czarowitz and
Princess Alex may be further postponed
in order that the shadows of illness shall
not fall on the union.

Father Ivan (Holy John of Cronstadt),
the miracle worker, who, it was said re-
cently, had been summoned to pray for the
czar, telegraphed to his wife four days ago,
saying: "God is surely working a miracle.
The czar will recover."

A Fiend's Confession.

SPARA, Wis., Oct. 30.—Samuel S. Bur-
ton has confessed the murder of Mary A.
Jones, a maiden lady, at her home a few
miles from this city, on the 21st inst.
Three years ago Burton, by a series of ob-
scene letters purporting to come from a
witch and directed to Miss Jones, hypno-
tized her and caused her ruin. The in-
famous woman consented to be strung
up by the neck in the belief that it would
cause the death of Burton's wife. The
second time the experiment was tried Bur-
ton pushed the chair on which the foolish
woman stood from under her, and she
swung into eternity. Burton took what
money there was in the house and left for
his home. His motive for committing the
murder was that he was tired of the
woman. Burton was sentenced to the state
prison for life.

Germany's Political Changes.

BERLIN, Oct. 30.—It is understood that
the emperor has accepted the new chan-
cellor's view that the appointment of a re-
actionary protestant, like Count zu Eulen-
berg, as governor of Alsace-Lorraine, would
create bad feeling in that province. His
majesty has summoned Prince Hohenzol-
lern-Sigmaringen, head of the Naumenstein line
of the Hohenzollerns, to Potsdam as a possible
governor of the province. His majesty's
desire to appoint Count zu Eulenbergs to
the highest post next to the chancery, with
a salary \$30,000 higher than the chan-
cellor receives, as compensation for the
slights cast upon him in the Caprivi press.
is a further instance of the intrusion of
imperial feeling into the government of
the country which is little calculated to
elicit popular approval.

Cranks at the National Capital.

WASHINGTON, Oct. 30.—"Professor" C.
J. Walters, the crank who was known in
Atlantic City, N. J., as the "King of the
Bees," and who left there some days ago
for this city to see the president, arrived
here and was taken in charge by the po-
lice. Richard Reese, another alleged
crank, who says he came here from the
Pacific coast, was found on his way to the
White House and arrested. Both men are
in the hands of the sanitary officer, and if
deemed prudent they will be sent back
where they belong.

Murdered by a Pig Thief.

PINE BLUFF, Ark., Oct. 30.—The body
of Lew Manuel, a prosperous colored
farmer, was found at Tamo, Ark., near
his hog pen, with his skull filled with
shot and crushed with a heavy blunt
weapon. The remains were in a terribly
mutilated condition, large portions having
been eaten by hogs. It is supposed that
he caught some one stealing his hogs, and
that the thief killed him.

Decided Against Tillman.

WASHINGTON, Oct. 30.—The attorney
general rendered an opinion in the South
Carolina dispensary case presented by
Governor Tillman, in which he sustains
the opinion of the treasury department,
holding that the state has no authority
in law to enter government bonded ware-
houses for the purpose of seizing whiskey
declared by the state law to be subject to
confiscation.

Charged with Election Bribery.

WILMINGTON, Del., Oct. 30.—Frederick
C. Bach, Senator Higgins' private secre-
tary and chairman of the First District Re-
publican committee, has been arrested on
the charge of bribery by buying tax re-
ceipts. He was held in \$500 bail for a hearing.
A warrant has also been issued for
James Haines, a former policeman, on the
same charge.

Wanted to See His Old Prairie Home.

BALTIMORE, Oct. 30.—James French, the
self-confessed Potomac, N.H., postoffice
robber, started for Potomac last night in charge
of a United States deputy marshal. French
is a good looking and intelligent young
man. His surrender, he claims, was due
solely to an intense longing to again see
his old prairie home.

A Meeting Attacked by Houghs.

WILMINGTON, Del., Oct. 30.—Roughs at-
tacked the Republican meeting last night
at Lancaster avenue and Harrison street.
Mayor Shortridge, the chairman, was hit
in the neck with a stone and slightly hurt.
David Healy, of The Irish World, of New
York, who was the speaker, was escorted
away by the police.

Cannot Convince 'Whisky Spies.'

CHARLESTON, Oct. 30.—The case against
Tillman's "spies" Cain, charged with mur-
der in the Darlington riots, was nolle
prosequi yesterday by the solicitor in Dar-
lington because he was satisfied from the
result of the McClelland trial that no spy
would be convicted.

WRECKED BY EARTHQUAKE.

Appalling Results of the Seismic Distur-
bance in the Argentine Republic.

Buenos Ayres, Oct. 30.—From La Rioja
comes word that that city was ruined by
Saturday night's earthquake. The schools,
churches and public offices are all thrown
down. The people are camping out in the
neighborhood. Comparatively few were
killed, as there was a general rush into
the open when the first shock came.

At times the shocks lasted twenty-six
seconds. The scene was a horrible one,
women shrieking and fainting on every
hand as the walls came crashing down.
Two Sisters of Mercy were killed, and
many more are now entombed beneath
the ruins.

The governor fears that the killed and
wounded throughout the province must
number at least 2,000, as many of the out-
lying towns also suffered greatly.

From San Juan come reports that the
shocks continued during the night, though
they were less violent in character. Not a
house in town is without damage. It is
reported that in various parts of the prov-
ince the ground opened and a geyser of
boiling water and mud spouted forth.

Couriers continue to arrive here with
news of the damage wrought in the var-
ious departments and towns. The vil-
lage of Del Algodon has been completely swal-
lowed up in the huge gaps which opened
in the ground.

A dispatch from the government en-
gineer at San Juan states that the people are
regaining confidence. The town is deso-
late, but the people are returning by de-
grees to their homes. The principal dam-
ages were to government buildings. A few
churches have had their walls cracked.

The provinces of La Rioja and San Juan
were the center of the seismic wave.

For a Big Canadian Railway.

MINNEAPOLIS, Oct. 30.—A large dele-
gation of citizens of Manitoba and the Cana-
dian northwest have returned from a suc-
cessful mission in Ottawa. While
out on their mission before going,
members of the party admitted today that
their object was to secure the approval and
aid of the dominion government for the
Russell Bay railway project. It was ad-
mitted that the mission had been success-
ful. The statement was made that suffi-
cient English and Canadian capital had
been interested to secure the completion of
the line, which will cost \$20,000,000. The
road will be 700 miles long.

Decided Against Eno.

WASHINGTON, Oct. 30.—The United
States supreme court reversed the decision
of the circuit court in the case of John G.
Eno, formerly president of the Second Na-
tional Bank of New York, who was con-
victed of forgery in the New York state
courts about ten years ago. Eno raised the
point that the state courts were without
jurisdiction and that he could not be tried
only in the federal courts. This view of
the law was upheld by the circuit court,
but his contention is upset by the decision
of the supreme court, which remanded the
case to the state courts.

Murder Mystery Cleared.

WILKESBARRE, Pa., Oct. 30.—William
Penn Bauman, 20 years old, surrendered
to the police last night, and confessed that
he had George Metzger shot and killed an
Arabian peddler named John Miksikier on
the 18th of last September. Mike Johns,
the companion of the murdered peddler,
who was also shot, but not seriously
wounded, identified Bauman as one of the
murderers. Bauman was committed to
jail. Metzger is still at large.

Hogs Fattened on Wheat.

TACOMA, Wash., Oct. 30.—Official gov-
ernment statistics just compiled show
that the low price of wheat has developed
the pork packing interests in Wash-
ington, and places the number of hogs being
fattened on wheat in Whitman county
alone at 75,000. Only four eighteens to
twenty cents per bushel are realized by the
wholesale firms.

Will Not Get on the Official Ballot.

HARRISBURG, Oct. 30.—Deputy Secretary
Hildreth says the names of a number of
Prohibitionists and People's party nomi-
nees for state offices will not go on the of-
ficial ballot through the neglect of the
party managers to certify nominations to
the state department, as required by the
ballot law.

Shot Himself Through the Heart.

DOVER, Pa., Oct. 30.—Mrs. Samuel
Maxwell, aged 25 years, shot herself
through the heart yesterday with a breach
loading gun. The deed was committed at
the home of her parents, Mr. and Mrs. A.
D. Wilgus.

STOCK AND PRODUCE MARKETS.

Closing Quotations of the New York and
Philadelphia Exchanges.

NEW YORK, Oct. 30.—For the first time in
a week the speculation on the Stock Exchange
today was marked by activity, but it was not
due to a healthy buying movement, but rather
to heavy selling of the general list, in which
the old stock were most prominent. A stock
panic in force was made by the bears, in which
N. J. Jersey Central suffered the heaviest loss.
