COAL STOCKS RALLY.

Reports of the Stock Market Up to Noon To-day.

for to-day, through Cooper & Co., East Centre street, show there was some rally in the cost stocks, D. L. W. selling as high ms 1995, J. C. 95% and D. & H. 1945, Just when the pyrotecanic display of the quotations in these stocks will cease is hard to tell. As far as can be learned the rally was entirely due to the nervousness of the short interest and not to any material change in the situation. We might our-selves feel a little more builtsh on those stocks were they at all governed by nat ural conditions, as the coal trade for the mext few months should certainly improve. The winter will soon be so us and navigation will before many days close,

The move in J. C., D. & H. and D. L. W. brings us back to our original way of thinking, that the present movement has for one of its objects the defeat of the Karle-Olcott Heading re-organization plan as with the existing demoralization in the has been sick from kidney and liver comcoal trade, the free-for-all muning and get-what-you-can-for-your-coal, the rehabilitation of the Reading property is nedy's Favorite Remedy, and it cured her, not likely to be a success. Wheat remains at about the lowest prices, fluctuations being narrow and opportunities for profits few at present, with a brighter future before the present options expire.
