Rheumatism.

Rheumatism is caused by Uric Acid in the blood, and is an unfailing indication that the kidneys are performing their functions imperfectly. After the poison has entered the system, the systems are aggravated by dampness, exposed to cold, improper food, drinking to excess, etc., but the cause remains the same, imperfect action of the kidneys. Dr. Humphreys has given the treatment of Rheumatism his profound attention for over forty years; his specific No. 15 is the result. It goes directly to the spot, opens the clogged passages, permitting the secretions to pass off, the cure follows quickly and surely. No. 15 cures Rheumatism, Acute and Chronic, Lumbar, Sciatica, and all forms of Rheumatic Pains, Soreness, Stiffness, and Lameness. A small bottle of pleasant perfume; fits your vest pocket. Sold by druggists, or sent on receipt of price, 25c or five for \$1. Humphreys' Medicine Company, Corner of William & John streets, New York.

Does Your Horse Like to be Curried?

If you want to see your horse stand still while being curried, and purr like a kitten, use one of these Spring Curry Combs advertised on another page. This comb is made of four loops of a clock spring. The yielding loops of the spring make the comb soft as the touch of a gentle hand, and yet they allow the teeth to get down into the hollows and folds of the skin, so that the horse is cleaned quickly and thoroughly. And for the horse the operator is changed from one of barbarous torture to one of supreme delight. This comb is sold for only 25 cents, and is to be found in almost every retail store in the land. It is made by the Spring Curry Comb Co., of South Bend, Ind. You will find their name stamped on the handle.

W. A. McGuire, a well-known citizen of McKinley, Ohio, is of the opinion that there is nothing as good for children to ride with, and if you are a child's companion for many years with the best results and always keep a bottle of it in the house. After having a gripe he was himself troubled with a severe cough. He used other remedies without benefit and then concluded to try the children's medicine and to his delight it soon effected a permanent cure. 25 and 50 cent bottles for sale by Grubler Bros.

For a pain in the side or chest there is nothing so good as a piece of flannel damped with Chamberlain's Pain Balm and bound on over the seat of pain. It affords prompt and permanent relief and if used in time will often prevent a cold from resulting in pneumonia. This same treatment is a sure cure for lame back. For sale by Grubler Bros.

MARKET REPORT.

The Election Results Have Not Caused the Expected Stir.

Cooper & Co., stock and grain brokers, East Centre street, report that contrary to general opinion due to the wholesale Republican success the stock market has not burst wide open, and it is very natural to carefully consider that it would not have been the policy of heavy shorts to have allowed such a thing to occur before covering, which they will probably attempt to do at lower figures. Attempts to bear the market to-day met with considerable difficulty, due to the heavy buying orders, as a result of which the New York market in general showed remarkable strength. Northwest opened at 101½ to 102½; J. C., 91½ to 94½; a gain of 8½ points; D. L. W., 169½ to 161½; D. & H., 123½ to 127½. Reading holds strong around 15. Granger stocks and sugar also strong. Wheat for December 54½; May 50½; corn, December, 50½, and for May 50½.

FATAL DISOBEDIENCE.

Results in the Death of the Offending Engineer.

PITTSBURGH, Nov. 8.—Train No. 5, Built more and go to Cleveland, coming west, ran into the first section of No. 6, a fast cattle train, at Belmont siding, two miles east of Brookwood, last evening. Six men were killed in the collision and several others wounded. The killed are Henry Bush, engineer of No. 5; Simon McCarty, fireman of No. 5; —— Breathing, engineer of No. 6; —— Manning, fireman of No. 6; two unknown men, either mail clerks or express messengers. The injured are: Pierie, De Grange and Lippincott, mail clerks, who are badly hurt, though not fatally. The railroad officials say no passengers were hurt.

The limited should arrive at 8:45 and leave for Chicago at 8:55. The cattle train carries cattle from Chicago to Baltimore for shipment to Europe. Both trains were going at the rate of forty miles an hour and came together while rounding a curve. Neither crew had time to jump or sound a warning.

The meeting place for the trains was Pine Grove, four or five miles east of the point of collision, where the express should have taken the siding for the freight. For some reason the engineer of the passenger train ran past the meeting place. The express and mail cars on the limited were telescoped and reduced to kindling. Only the heavy vestibules of the passenger cars saved them from a similar fate.

Full a dozen cattle cars were piled up in the wreck, killing and maiming many of the dumb brutes.

De Grange, Pierie and Lippincott were jammed between the cars and the two as yet unknown clerks were found under the debris.

Bush was the oldest engineer in the employ of the Baltimore and Ohio road, and was well known by railroaders throughout the country.

THE WAR AGAINST CHINA.

Reported Capture of Taliwenan Confirmed. Japs Surround Port Arthur.

SHANGHAI, Nov. 8.—The report of the capture of Taliwenan by the Japanese has not been confirmed, however, that the Japanese are steadily repulsing detached bodies of Chinese, and that they have taken Port Kinchen. The Japanese force that landed on Oct. 26 north of Elliott Islands first marched eastward, probably to intercept the army of General Sung, which was retreating from Fung Wang Chung. They then turned westward toward Taliwenan, advancing five miles daily.

The reputation of the Japanese for humanity and benevolence for their supplies is doing them incalculable service. Their action is in great contrast to that of the Chinese, who make war in the ancient manner, living on the country through which they pass, and who are dreaded by the people and officials alike in victory and defeat.

An imperial audience within the palace at Peking has been arranged for the foreign minister.

Investigation of the Wairarapa Disaster.

AUCKLAND, N. Z., Nov. 8.—An inquiry was commenced into the loss of the Union Line steamer Wairarapa, Captain McIntosh, which was wrecked off Great Barrier Island, on the northeast coast of New Zealand, on Sunday night, Oct. 28, with the loss of eighty lives. The chief officer admitted that the Wairarapa was going at full speed during a fog, and that there had been no boat drills on board the Wairarapa for six months. Consequently ten minutes elapsed before the crew were able to lower the first boat. No regular attempt was made to save the women and children before the other passengers.

London, Nov. 8.—It is stated that there are diverse opinions in Japan respecting her terms for peace with China. A leading journal declares that she will require the cession of the Island of Formosa and an ample money indemnity. Another journal says that Japan will demand the payment of an indemnity of \$1,000,000 gold sterling, with which to establish a gold standard. The progressive papers, however, demand that Japan shall insist that China yield all her warships, arms, ammunition and the vessels of the China Merchants' Steamship company. They also demand that Japan shall take possession of Shanghai and its customs revenues.

CANADIAN VIEWS.

WHAT TWO TORONTO PAPERS THINK OF THE REPUBLICAN SWEEP.

TORONTO, Nov. 8.—Regarding the United States election The Globe editorially says: "The dominant factor in the contest was that the country is not prosperous, and with that rough and ready reasoning that distinguishes popular judgment, that condition is laid to the account of the Democrats instead of where it belongs, namely, to the vicious financial and fiscal policy of the Republicans, the evil effects of which their opponents inherited." Of Tammany's defeat it says: "That result proves conclusively that the aggregate good citizenship of even so mixed a city as New York is capable, when aroused, of punishing a gang of unblushing plunderers, who had made their name synonymous with municipal corruption throughout the world."

The Empire says: "The country has condemned the Democrats and notified the world that protection to her native industries is still the foundation stone of public policy in the Republic. The tariff tinkering of the past two years and the way in which it has aggravated hard times is doubtless the leading cause of Democratic defeat."

AUCKLAND, N.
