THE EVENING HERALD. Shemandoah, Peans.

Evening Herald THURSDAY, NOVEMBER 15, 1894.

THE heaviest voting on election day. in this town is done between the hours of ? and 7 o'clock and the greatest rush is between 6 and 7 o'clock. This is because the majority of the voters are employed in the mines and they cannot afford to lose a day's work to get their votes in. When they do get home and reach the polls they find them stalled, and many men have been frequently deprived of their right of franchise. A division of the wards would adjust this matter.

THE Democratic Congress to meet next month will be the most melancholy col lection of political corpses ever assembled above ground. Out of 220 Democratic members in the present House only sixty four have been re elected, and nearly all of those are from the South. Only two out of forty four Democrats have been reelected from the flion, and only six out of fifty three from the Western states. And defect corries with it this time an almost unprecedented loss of power. More mem bere of the present than of any previou House owe their seats to apportionments which defrand the people and to unjust and indecent election laws. In many states public indignation at these bigis lative robberies and determination to sweep them away caused worth of the loswhich the Democrate sustained. For many Congressmen the last chance of a part in National affairs vanishes with these legis lative wrongs. Thus driven from power by an extraordinary wordlet of the people the majority in the present Congress might well pray for a solenn session de voted in contrillon with works meet for Terperer's course.

this splically triumph of justice and doesn't in the election last weakly only pressentation, Power has been turned ver to the Republicans by the vol- of a great erroy of eliboret who have not here Republicano. The only could which fits and explainently the facts is the indignatim of Democratic workingmen because the policy of their party has done them harm. This single force is so much more owerful than all others that oven the stounding exposures of rottenness in New York made the Democratic loss sourcely greater than it was in states

THE MISSOURI TRAIN ROBBERS They Seenred Forty Watches and Over \$500

They Seenred Forty Watches and Over \$500 in Cash from Passengers. KANSAS CHTY, Mo., Nov. 10.—Missouri, Kansas and Texas train No. 12, which was held up near Muscoges Thesian night, has arrived here. The two Wagner cars on the grain look as if they had been through a basis. The handlits intimi-duted the passengers, before entering the cars by firing a fusiliade through the win-dows. The noibers second over \$500 in dows. The robbers secured over \$500 in money and about forty watches and other articles of jeweiry. The Wagner conduc-tor and train conductor were relieved of a little over \$10 each.

The express car was being guarded by four armed men when it was stopped, and they opened fire at once, driving the bandits back. The robbers consult for a few moments and withdrew to the rear of the train. The train erew thought they were well rid of them, when the firing began on the Wagner cars, Wagner Car Conductor Murphy was

given a gunnyanth by the robbers and compelled to walk ahead of them. Two robbers followed behind with leveled guna. The passengers were required to divest thomselves of monoy and jewelvy and drop them into the sack. The robbers were rather lenient about it, not demanding a show down from any one, but appearing satisfied when the passengers appeared to have dropped the first roll he had his hands on. The Wagner passengers were all in their berths, and the cars were quite dark. The robbers wanted more light, and made Murphy do the talking neces-sary to convince the passengers that they had better give up. The passengers in the day coaches were not molested.

Hood's Restored Health.

Head and Arms

Philadelphia, Pa. C. I. Hood & Co., Lowell, Mass. Gentlemen - On August 10, I was taken to

St. Joseph's hospital unconscious from the heat; my temperature was 100%. I remained in the hospital two weeks; I was unable to work for four weeks after that, but then felt compelled to turn in, as I have a wife and five children. I soon began to feel as though undergoing continuous shocks from an electric battery.

Every Nerve and Fibre

of my body seemed in a constant state of quiv ering agitation and tremulousness. Heat finahed from the calves of my legs up through my thigh and budy; my left arm and hand felt as though on fire, and my head ached as if it would split when I stooped down. I had great phins in my back around the base of the spine. I con-tinued to stick to my work, feeling that if I must again go down I would do so

Struggling for My Family. I have always been athletic, but I had lost all appetite, and my strangth failed me; I was on the point of giving up. I had read much about Hood's Sarsaparilla, and concluded to give it a trial. Before I had taken half a bottle my appetite became so voracious tim I would be compelled to eat between meals.

Hood's Saraparfiles Cures Hood's Saraparfiles has now fully restored my strength and general health. That terrs
