# Paine's Celery Compound Makes Men and Women Well Again.

Dr. Shrady, in the Foram, gives some matism and disordered liver and blood from wealthy patients.

For four weeks' attendance during typhoid fever the physician to the prince of Wales received \$50,000,

It is the countless homes in moderate circumstances, however, that find it so hard to pay for the frequent doctor's visits. What the plain people want is the very best medicine, yet not beyond their means. They have it in Paine's celery compound.

To prepare such a great, popular remedy, that should embody the most advanced ideas regarding disease, and yet be easily within reach of the thousand modest homes where sickness exists, was the life-long ambition of that eminent Dartmouth professor, the greatest physician America has produced, Edward E. Phelps, M. D., L.L. D. Paine's celery compound, that remarkable nerve regulater and blood purifler, was first prepared by Prof. Phelps in the laboratory of the Dartmouth medical school.

Paine's celery compound embodied the ound theory of Prof. Phelps, that only by feeding and rebuilding worn-out, diseased perce tissues could firm health relief ). of the big fees that physicians receive disease—these many ailments being due to poverty and impurity of the blood or to an underfed state of the nerves.

This most progressive remedy of this entury soon made its way into hospitals, nomes of physicians and into countless modest households in the large cities, and the happy results during all these yearin every city and hamlet in this broad land sufficiently shows its marvelous power over diseases of debility and weakness. Physicians advise its use whenever the system is "run down," and as an invaluable general tonic for speedliy recruiting the strength of the body.

Mr. E. E. Towne, who is one of the best nown business men in Springfield, Mass., has been a resident of that city for over years. He has a fine residence in the McKnight district, and is well and favor ably known among the best people of the city. He writes: "I had spent thousands of dollars in
