

IS OLD AGE PITIABLE?

Not While Vigor and Zest in Living Lasts.

Bismarck, Gladstone and Holmes Full of Years and Honor.

They Keep Their Blood Well Stocked—Their Nerves Well Fed.

Some people carefully disguise the fact, but a coat of paint on an old building only makes it look smart; it doesn't keep the rickety old staircases from creaking nor make the framework stronger.

What is needed is fresh bricks and mortar. Fresh blood and new tissues are the building materials that tired human bodies need.

One is never older than he feels. Many are young at 70, and the world is full of men and women who are old in heart and spirits at 30.

Nothing "ages" one like illness. To keep young, keep well; keep the nerves calm, the blood ruddy, the system well fed.

All over the country there are hard-worked business men, and men in public offices, subjected to incessant criticism and fearful nervous strain, who appreciate the saving power of Prof. Phelps' remarkable discovery, Paine's celery compound.

In the thousands of cases where overworked brains have at last refused the sleep that they so vitally needed, this great modern nerve nutrient has brought the happiest results.

As the years go on, the regular tick-tick of the heart and the rhythmic action of the digestive organs and the brain slow up and the strength must be economized.

The important organs need more frequent assistance and encouragement. Paine's celery compound gives just the needed stimulus to digestion and assimilation that the system requires.

It purifies the slowly moving blood of any bad humor that its stagnant flow is apt to engender, and thus removes rheumatism, neuralgia, heart palpitation, nervous weakness, sleeplessness and troubles with kidneys, liver and stomach.

It was a favorite remedy of the famous Dr. Parr when 106 years old, that he had always taken care to keep his body well nourished. Pure blood and healthy activity of the nervous system makes a happy, hopeful, useful old age.

Did you ever see one of the famous waterproof interlined Collars or Cuffs? It's very easy to tell, for they are all marked this way.

They are the only interlined Collars and Cuffs, and are made of linen, covered with waterproof "CELLULOID."

The first coat is the only coat, for they keep clean a long time, and when soiled you can clean them in a minute by simply wiping off with a wet cloth—that is the kind marked this way.

These collars and cuffs will outlast six linen ones. The wearer escapes laundry trials and laundry bills—no chafed neck and no wilting down if you get a collar marked this way.

Ask your dealer first, and take nothing that has not above trade mark, if you desire perfect satisfaction. All others are imitations absolutely.

If you can't find collars or cuffs marked this way, we will send you a sample postpaid on receipt of price. Collars, 25 cts. each. Cuffs 50 cts. pair. Give your size, and say whether stand-up or turned-down collar is wanted.

THE CELLULOID COMPANY, 437-25 Broadway, NEW YORK.
