

BEAUTIFUL AND BRILLIANT COLORS THAT DO NOT FADE.

Scientific Discoveries That Lighten Labor—A Weaver's Experience in Dyeing—Carpets Where the Color Stays as Bright as When New.

Within the last few years science has been at work in the matter of dyeing, and the results are the fast diamond dyes for cotton, turkey-red, pink, purple, orange, olive-green, brown, etc.

A practical dyer, writing in the Weavers' Herald, says, "I used to dye with roots and barks, but after all my work, (and it was a tedious job,) I was not satisfied, for the colors were homely and often faded. At last I commenced to use diamond dyes, and the process is so simple and easy that the work is a pleasure.

Many of the diamond dye fast cotton colors are so superior to other dyestuffs that they are used by dyers everywhere, even in the big mills and large dyehouses. Imitators of these reliable dyes may claim that their cotton dyes are "just as good," but practical tests prove the diamond is the only kind that makes colors which soap will not wash out or sunlight fade.

The diamond dyes come in nearly fifty different colors, for silk, wool, and cotton, and will dye anything, from a pair of stockings to a dress or cloak.
