IT is hard for a Democratic Administra tion to make even a bond issue "a go."

GROVEH CLEVELAND has sprained his ankle and his party has sprained its spinal column.

WE don't know which one of Mr. Cleve land's cabinet officers is capable of doing the most harm, but the aggregation can't be beaten.

THE House of Representatives is the sole fudge of the elections, returns and qualifications of its members, and whatever with justice and equity. The major ity cannot prevent contests from being begun by men claiming to have been detrauded of their election. In the next House the number of contests bids fair to be extraordinarily large. Notices of twenty-dx have already been given. Possibly the big Republican majority may have increased the number of contestants, but the size of the majority has no bearing on the duty of the House to cause these cases to be carefully examined and impartially decided. It should be an absolute guarantee against a decision in a single case on partisan grounds.

ON the strength of returns from only a few of the states, the Populists have been claiming an increase of about a million votes this year. It does not now look as if this claim could be substantiated. The increase has been very irregular. In states where the dissatisfaction with the Democratic party was mainly because the Democratic voters wanted free colnage the Populists have indeed gained, and in a few such states have awallowed a clear majority of the Democratic vote. But in other states, where the dissatisfaction was on account of the prostration of in dustries by tariff agitation, the Populista have gained little or nothing. In states of the latter character the Republicans have added largely to their vote, while the rest of the Democratic loss is nearly all due to the refusal of Democrats to for \$5.00. vote at all.

IT is said to be not unlikely that a Chicagoan's invention to cure the nul sance of smoking chimneys in that city may prove of great importance in naval warfare. Chief Engineer Melville, of the navy, has had his attention called to it,

An Amherst Lady Relates Her Experience to a Reporter.

Salt Rheum, Impure Blood and a Racking Cough That Baffled Physicians, Finally Cured.

Springfield [Mass.] Republican.

In the town of Amherst, Mass., Mr. ico. B. Pierce and his mother are widely known as the proprietors of the Amherst Creamery Association. Mrs. Pierce has seen a sufferer for a long time with Salt Rheum and a distressing cough that foreboded Consumption, but they have given way to health and vigor. Hearing of this a reporter called on Mrs. Pierce and

the following experience was related :-'For a long time I was a sufferer from Salt Rheam," said Mrs. Pierce, "but about two years ago I slipped and hurt my knee. This seemed to make my Salt Rheam worse. I can't begin to tell the igony I was in, my limbs became a mass f raw flesh covered with running sores. My friends would say they were afraid would not live to see another spring, and I thought so too. Well, I heard of Dr. David Kennedy's Favorite Remedy and Dr. David Kennedy's Salt Rheum Cream; I sent for them and commenzed using them, and in three weeks I could

walk out of doors. Why last night I walked a mile, and I am sixty-three years of age. It shows that Dr Kennedy's Favorite Remedy and Salt Rheum Cream can do more than the physicians, for they made me well after my doctors told me] was incurable. I must also tell you of another preparation Dr. Kennedy advised me to use, which did as much for me. It is Dr. David Kennedy's Cherry Balsam I have had a wretched cough for the past contests are made must be decided lifteen years, the best doctors in this part of the state united in saying that it was incurable, and that it was only a matter of time before my lungs would give outmy sleep was restless, I would lie awake for hours. I well recollect the first time I used Dr. Kennedy's Cherry Balsam. It celleved my throat at once, and I slept all through that night, which was the first full night's rest I had in several years It seemed like a miracle. I took but two bottles of Cherry Balsam, when I was en

tirely cured. Mrs. Pierce's neighbors confirm he statement, and it was found that Dr. Kennedy's Favorite Remedy, Cherry Balsam and Salt Rheum Cream had made others in Amherst as happy by curing them of some disease.

Favorite Remedy ranks with the medical profession as the most perfect of all blood and nerve medicines. It restores the liver to a healthy condition, and cures constipation. It is a certain cure for all diseases and weaknesses peculiar to females, and affords protection from attacks that originate in change of life. It cures scrofula, salt rheum, ulcers, tumors, rheumatism, dyspepsia, all kidney, biadder and urinary diseases, gravel, diabetes and Bright's disease. In this last disease it has made many cures where all else failed.

Dr. David Kennedy's Cherry Balsam will cure the worst cases of asthma, bronchitis, coughs, colds, incipient consumption, whooping cough or croup. Taken in connection with Favorite Remedy, it has never been known to fail. Price 25c., 50c. and \$1.00 a bottle. Dr. David Kennedy's Salt Rheum Cream is for external application and is sold at 50c, a package. Dr. David Kennedy's Favorite Remedy costs \$1,00 a bottle or six bottles

Full directions accompany each bottle so that any one can readily understand just how to take them for the different complaints.

FALL OF PORT ARTHUR. The Chinese Stronghold at Last

Captured by Japanese.

COUNT OYAMA'S GREAT VICTORY.

Description of the Captured Town and Its in the Harbor Under the Leadership of

French Civil Engineers. Curr Foo, Nov. 34 .- Dispatches have been

received here stating that the Japanese captured Port Arthur on Wednesday last, after eighteen hours' fighting. The fighting was continuous from noon f the 20th. The Japanese fleet did not of the 20th. take part in the engagement, though the torpedo boats attached to the fiset did. The

Japanese are now leaving Port Arthur Port Arthur, the native name of which is Lu Shun Kou, is the chief naval station of China. Eleven or twelve years ago it was simply a good windbound harbor for Hower the junks that traded along the coast car rying the timber from the Yalu river to ports in the guifs of Po Chi Li and Liao fung, or those of a larger class from the outh en routs to New Chwang and West Fung, or the Chin Chiu. At that time the village conisted of about sixty to eighty mud ho with a few shops and three or four inns which afforded accommodation to travel ers to and from the north.

The port is almost surrounded by ranges of hills varying from 300 to 1,500 feet in height, the valleys between being well cul-tivated. The town at the present time has increased to nearly a thousand houses and

shops, and, exclusive of the garrison, the population is estimated at over 6,000. There are two principal and smaller native banks, two large temples and two theatres of recent construction. In 1881 It was finally decided to construct

a dock and refliting basin there. After more than one failure the work was given After to foreign contractors, and in the early part of 1887 a French company secured a contract to construct the necessary works needed for a naval dockyard. At the end of 1890 the contractors completed the task entrusted to them. The entrance to the port was deepened and a basin constructed inside with a depth of twenty-five feet at

ow water. The port contains spacious wharves and quays, fitted with steam craues, and con nected by a railroad with the workshops. There is a dock over 400 feet long, having twenty-five feet of water on its sills at low twenty five feet of water on its sine as now tide, which can be emptied in a few hours by means of a steam pump. There is also a smaller dock suitable for torpedo boats. The foundries and workshops contain the

most modern machines, engines, etc. The dockyard can be lighted by electricity. For the last six years dredges have been To the last in years dronges into our employed to deepen the natural harbor. The bar has been deepened from twelve to about twenty-four first to enable perma-nent mooring to be hald down for the larger men of war. About four miles north of the port their is a spring of fresh water This water is now run through pipes to the dockyard, and the town is also par-tially supplied with water in the same way. The defenses of the port consist of well

constructed forts, armed with modern guns of heavy caliber. The coast defenses are spread over more than four miles of scaboard, and consist of about twelve batteries equally distributed on either side of the entrance to the port. The armament consists of more than forty Krupp guns. tobert including some rifled mortars. In addi-at 10 tion there is a torpedo boat station and an

If it be found practical, a great point will be gained in strategic naval operations, for the black trail of smoke, which steamships leave in their wake, betrays their presence at a very great distance. It is proposed to make a number of practical experiments, and if the outcome be favorable, Congress will be asked for an appropriation, for the necessary changes to the crubers.

THE Democratic party cannot hope to recover strength in any Eastern state, or evon in West Virginia or Dolaware, with out a babdonment of its tariff policy, and this the President's obstitucy is supposed to reader impossible.
