

MUNYON SAVED HER.

How Mrs. Reese Became a Convert

Her Arm Was Useless, and Could Not be Moved Without Pain—How She Was Cured.

Mrs. John Reese, South Pottsville, Pa., says: "It is now about a year since I was cured of one of the worst attacks of rheumatism I ever had. I had tried all kinds of remedies, but nothing did me any good; so I concluded to try Munyon's Remedies. I never had any faith in homoeopathy; I confess now I am a firm believer in it. After taking the Rheumatism remedy a few days I was able to raise my arm, which I had not moved for two weeks without the most intense torture. Within a short time I was completely cured, and it was permanent, for during the past year I have not had the slightest return of the disease."

Munyon's Rheumatism Cure is guaranteed to cure rheumatism in any part of the body. Acute or muscular rheumatism cured in from one to five days. It never fails to cure sharp, shooting pains in the arms, legs, sides, back or breast, or soreness in any part of the body in from one to three hours. It is guaranteed to promptly cure lameness, stiff and swollen joints, stiff back, and all pains in the hips and loins. Chronic rheumatism, sciatica, lumbago or pain in the back are speedily cured.

Munyon's Homeopathic Home Remedy Company, of Philadelphia, put up specifics for nearly every disease, which are sold by all druggists, mostly for 25 cents a bottle.

W. A. McGuire, a well-known citizen of McKay, Ohio, is of the opinion that there is nothing as good as Chamberlain's Cough Remedy. He has used it in his family for several years with the best results and always keeps a bottle of it in the house. After having in grippe he was himself troubled with a severe cough. He used other remedies without benefit and then concluded to try the children's medicine and to his delight it soon effected a permanent cure. 25 and 50 cent bottles for sale by Grolier Bros.

PITTSBURGH, Nov. 26.—John Kelly, a laborer in the employ of the Philadelphia Gas company, was buried in a trench on Liberty street, but was rescued alive, after being covered with earth for about half an hour. KILLED AT A CHURCH DOOR.

A Fugitive Murderer Shot While Resisting Officers of the Law.

MEMPHIS, Tenn., Nov. 26.—A fugitive murderer shot while resisting officers of the law, was killed at a church door. The victim was a man named Charles H. Brewer, who was charged with murder at Monticello, Drew county, Ark., and who had been a fugitive from justice for more than a year. The officers, learning that Moss would probably attend church at Knott, left for that point and reached the church just as the minister was beginning services.

Moss and his companions were standing near the church when Chatham and Brewer appeared. Moss drew his pistol and his hip pocket as if to draw his pistol. Brewer also grabbed him. Moss resisted the officers, who both the latter pulled their guns. They scuffled with Moss until they reached the church door, thirty feet away, when Moss had succeeded in wrenching Brewer's pistol from his hand and fired at Chatham, but Brewer knocked the pistol away and caught the bullet in his arm, inflicting a serious wound. Moss then rushed Brewer's pistol into Chatham's breast and pulled the trigger again and again, but Brewer's hand caught the trigger and the pistol only snapped. His hand, however, was terribly cut. By this time Chatham had freed his pistol from Moss' grasp, and fired six bullets into him, killing him almost instantly. Intense excitement prevailed at the church, and several women fainted.

Had Been Stealing for Ten Years.

NEW YORK, Nov. 26.—The National Shoe and Leather bank, at Broadway and Chambers streets, has been robbed of \$354,000 by Samuel C. Seely, a bookkeeper. Seely fled a week ago Saturday, leaving a confession in his lawyer's hands. It is believed that he sailed for Europe. It is also asserted that Frederick Baker, who was drowned on Saturday near his country home at Sand Point, was an accomplice, but this charge is indignantly denied by Baker's relatives. It is not known whether Baker's death was an accident or suicide. The thefts have extended over a period of nearly ten years.

The Lucania's Rough Voyage.

The Lucania's officers stated that it was one of the worst voyages they ever experienced. Owing to the heavy sea prevailing throughout, the voyage the ship's engines were run at reduced speed. The sailors passengers were scarcely able to walk about the decks and several of them suffered much from seasickness. No casualties were reported. The vessel received not a particle of damage.

Gain in the Populist Vote.

NEW YORK, Nov. 26.—The World gives a list showing the number of votes cast by the Populist party in all the states at the last general election, as compared with the votes cast by the same party in 1892. In 1892 the party polled altogether 1,041,028 votes for president. Between 1892 and 1894 there was no general election, the returns of which can be compared with the year preceding. This year the Populist vote was 1,650,000, a gain of nearly 600,000 votes in two years.

FUTURE OF SHENANDOAH.

"Toby Wise" Predicts a Great Deal for the Future of This Town.

Who has the presumption to say that Shenandoah is on the decline? The almost fabulous prices paid for property does not indicate that the largest town in the county will soon crumble into dust, does it? Besides, dear reader, take a glance at the many contemplated business enterprises, and the improvements made and being made to properties, both for private and business purposes.

I remember of reading in the HERALD, I believe it was in 1870 or 1871, when it was stated that Shenandoah would eventually become the Scranton of the Shenandoah valley. How true the prediction at that time is being daily fulfilled. We are getting there, and at a very rapid rate, too. I am neither a prophet nor the son of a prophet, but I venture the assertion that the year 1895 will mark an important event in the history of Shenandoah, and will show much enterprising spirit on the part of our monied citizens. This enterprise will not be confined to those who count their shekels by the thousands, either, but the same spirit will animate those who are not so well fixed financially.

Oh, no! Shenandoah is not "playing out." It is merely the old fossils and croakers that are dying out, either by want of breath or a desire to seek a climate more congenial with their nature. We have within our borders just as many enterprising and go-ahead citizens as any town in the state, and the money is here, too. Shenandoah is a big town in population and within a year or two it will also be the largest town in the county in area.

The only drawback to a building boom here is the mountain to the north, and that will be overcome, if I mistake not, within a few years. Before the year 1890—and that is not far distant—Shenandoah will lead in all lines of business pursuits. With one of the finest agricultural sections but a few miles distant, and railroad facilities unsurpassed, the commodities of life should be abundant and at reasonable prices.

Catawissa valley farms are also just now in demand, and the wise farmer in that valley, who notes the bright future for this town, will not foolishly relinquish his land at a sacrifice.

What we need here is more manufacturing industries, and the resident to-day need not be surprised to find Shenandoah a lively place in this respect within a few years. It is now making great strides in that direction, and there is no good reason why we should not lead every town in the county in manufacturing. Plenty of cheap coal, an abundance of water and power (that is to come and will) are the magnets that are gradually but effectively drawing them here.

The future of our thirty-year old town is bright, indeed. Stop croaking.

For a pain in the side or chest there is nothing so good as a piece of flannel dipped in Chamberlain's Pain Balm and bound over the seat of pain. It affords prompt and permanent relief and if used in time will often prevent a cold from resulting in pneumonia. This same treatment is a sure cure for lamæ. For sale by Grolier Bros.

It can always be depended upon. When reduced with water it is pleasant to take. For sale by Grolier Bros.

DECREASE OF IMMIGRATION.

Fewer People Who Come as Storage Passengers Than a Year Ago.

WASHINGTON, Nov. 26.—The annual report of Superintendent Stearns of the Immigration Bureau, for the fiscal year ending June 30, 1894, shows a very material falling off in the number of immigrants arriving in this country. He estimates that since October, 1893, the volume of foreign storage passengers on the United States has been greater than the number arriving, and he therefore concludes that numerically there are now fewer foreigners in the United States who came as storage passengers, than there were at the end of the fiscal year 1893.

The following table shows the number of immigrants who arrived in the United States during the fiscal year 1893 from countries supplying the greater number: Country 1891, December 31, 1892, December 31, 1893, December 31. Italy 261,777 259,000 249,922. Germany 242,899 241,422 238,000. Sweden 17,288 17,122 16,714. Poland and Russia 28,000 30,714 30,714. Ireland 30,251 30,242 30,242. England and Wales 16,748 16,953 16,953. Hungary 14,040 8,122 8,122.
