AMERICANS SAFE IN PERING.

Minister Dephy Has Made No Recent Appeal for Protection. WASHINGTON, Dec. 3.-It is stated post lively at the department of state that the is no tresh reason for approximision touch-ing the safety of American residents of Peking, and that United States Minister Deniby has not made may appeal to the department for protection since his orbit department for protocion since his origi-nal dispatch sory some time ago, in which his stated that about the Japmese troops attack. Peicing the safety of the foreign residents might be threatened and it would be well to acad a force of United States marines to protect the legation. As is customary in such cases this dis-patch was groupily communicated to the

navy department, and fifty marines were ordered to be transferred from the other vessels of the American flort to the Monoracy at Tientsin, near Peking. In a diffion Admiral Carpenter v. as instructs Encad to put binself in communication w Minister Denby and to use his discreti Minister iteraty and to use his discretion in doing everything necessary to insure the safety of American residents. All of this took place some time ago and since them Mr. Denby has made no further ap-phenion for protection. He is at liberty at any time to transfer his legation to Thentsin, where it would be almost under the gains of the Monocacy, and in fact b-mes authorized to do this start a wave work was authorized to do this at a very carly stage of the wor, when the Chinese showed symptoms of disaffection at the first re-

were sensitized by their action of the level The legation would certainly be much safer at Tientsin than at Peking, as it is impossible for even the light draft Mononey to navigate the river up to the latte chy at this sensor of the year. But the fact that Mr. Denby, although the mean of communication are open, has not re-cently asked for add from the department is regarded as evidence that he feels on a probability of the scale and this view i supported by the cable advices from Ch Fou to the effort that, encouraged by the prospect of a restauntion of peace many o the foreign residents of Peking, who has taken to hige at Tienstin, were returning to the former city.

"I have just returned from the sect of war and had a conversa-tion with Viscouris Mutsu Munemittan, the foreign minister. In regard to the mis-gendnet of the Japanese at. Port Arthur I informed him that I had watched the Japan se army outer the town. The Chi near resisted to the last. I saw Chinese h plain clothes with firearms concealed on their persons. I also found explosive bul-lots. The Japanese reported that civilians fired upon them from the houses, and they therefore deemed it necessary to external

nate them. "The Japanese were further excited by finding the nontilated remains of Japan ese prisoners. Some of these prisoners had been burned alive. I saw no resistance in the town. During the next four days th Japanese pillaged the whole town and killed almost every man. Very few women or children were killed. Those who were killed were probably killed unintention ally, 1 saw scores of Chinese prisone pinioned, stripped and shot, hacked with knives, ripped open, disemboweled and dismembered. Many bodies were partly burned.

Mr. Burns is inclined to believe that among the cosmopolitan American people it is possible to bring about concerned no-tion for holding the wealthy in check, to prevent them from increasing their hold ing as rapidly as heretofore, and he will devote particular attention to the study of

that problem. The Pullman strike and the report of the commissioner of labor Mr. Burns declined to pass an opinion on until he had visited Pullman, which he meant to do In England the strike had been watched closely, and the general sentiment as de-clared was that it had been successful

The eight hour law in the British gov ernment shops, employing 50,000 men, Mr. Burns said, had become a fixture and was regarded as a great concession. It is an actual eight hour law and is rigidly en-forced, thus helping unskilled labor greatly. Many individual manufacturers had also adopted the system. My, Burns' attention was called to a re-

cently published statement that he had said American workmen were "no better than African slaves."
