WITHOUT attracting a large degree of public attention, the Life-Saving Service projudice against the court testimony does its work faithfully and well from of an unbeliever or agnostic to defeat year to year. The annual report of its justice. One of the witnesses against operations for the last twelve-month the lynchurs, Butch Carver, tried to shows nearly 4,0 0 ship-wrecked persons get off from giving evidence on the rescued and nearly \$5,000,000 worth of ground that he was an infidel, and property saved, all at a cost of \$1,250,000. Therefore not a credible witness. But More disasters occurred during the year than in any previous year in the history of the service. So successful is this brauch of the government's work that it excites the admination and imitation of other lands. Happily, politics are kept separate from the Life-Saving Service, and its efficiency was not impaired by the change of Administration.

Hill's return to Washington is some thing like Napoleon's from Russia. He gannot even say with Francis I, after the hattle of Pavia, "All is lost save honor," but he may at least congratulate himself that he has brought away his character Intact. That is, as it was, and he now knows what the people think of it. They don't want him for Governor, and they don't want him for Senator. He has been somewhat celebrated for the phrase, "I flection that they can be members of am a Democrat," a location having the flatness of a Bayarian pancake and on a level with the untersuce of a Madagascar parrot. But if he is really a Democrat. now is the nime to show it. Obedience to the will of the people is Democracy , anything else manquerading in its guisels a sham and a humbug.
