A Minneapolis Murder Mystery.

MINNEAPOLIS, Dec. 5 .- Miss Catherine Ging, a well known dressmaker, was mur-dered Monday night under sensational and as yet mysterious circumstances. She was a young woman of 20, who had built up a good business and was reputed to be worth \$10,000. Her body was found in the middle of a country road leading into the city. It was still warm, but life was ex-tinct. There was a built hole directly through her head. In the evening she hired a fig. as usual, and went out alone. Two hours later the horse returned to the barn with the coupty buggy. The cushions were scalled with blood and brains. The motivo of the deed may have been robbery, as she is known to have had a large sum of ready cosh, or it may have been the result of a lover's quarrel.

Why an Appropriation Was Refused, ATLANTA, Dec. 5.—The refusal of the Georgia legislature to continue the military appropriation for the next two years is variously interpreted, but the theory most generally accepted is that the legislature is tired of work to which the troops have been put during the four years of Governor Northern's administration, and the evidence that they will be similarly used by Governor Atkinson, whose great and for zeal for the suppression of lynch law lee him on several occasions to call out th military companies to protect ravishers whose lives were being sought. The feeling among the legislators is that every county in the state is capable of taking cure of its own affairs and that the sheriffs do not want the unwelcome aid of

military companies from other sources. Lord Dunyaven's Challenge.

Threaten to Attack Invading Indians. SALT LAKE CITY, Dec. 5.—A delegation consisting of five prominent citizens of San Juan county, Utah, called upon Gov-ernor West to urge that immediate action be taken in the removal of the Ute Indians from the county. It is claimed that about 900 Utes and 200 Navajoes have invaled the county, and say they propose to remain. They have not committed any murders, but are killing cattle belonging to the settlers and appropriating other property. The Indians are deflant and well armed. The white settlers have de-cided to make an attack on them on the loth of the month unless they remove sooner.
