MR. GOMPERS REPORT

To the Annual Convention of the Federation of Labor.

HOPEFUL FOR THE NEAR FUTURE.

He Believes That We Are Within a Year of an Imbestrial Revival Which Will Far Surpass Any Previous Period-Opposing Compulsory Arbitration.

DERVIOL Dec. 11.—The report of Presi dent Compets to the American Federation of Labor, referring to the coal miners strike, says that 125,000 men were out for sight weeks, and yet there was hardly a dearth of coal. Considering this, the esablishment of a minimum rate of wage vas a very great victory. He defended the action of the federation in regard to the American Railway union by the assertion that Mr. Debs' proposition submitted to the members a virtual acknowledgment that the strike was a failure. President Cleveland's action at that time he severely

The honest effort of the government to regulate immigration was acknowledged, but amendments to the laws were suggested, the most important of which was speedy trials of immigrants suspected of being under contract and the sending of agents to foreign countries to inspect presented to under contract.

agents to foreign countries to inspect pres-pective inunigrants.

Hope was expressed that government telegraph and telephone will soon be es-tablished in connection with the postal department, and unions among government employes were recommended as an aid to the movement.

the movement.

American seamen were claimed to be the worst treated of those of any divilized nation. The bills in their interest and also for the protection of the cigarmakers, he said, would have passed the last season of congress by congress but for the production of the creation of congress by congress but for the production effect from the railread strike. The establishment of a national labor day was referred to as the only sunbeam labor so-ceived from the last sension of congress.

The convention was asked to independ a

The convention was asked to inderest the Phillips bill for the creation of an industrial commission. The efforts of the of the codings of the federation in technic of the codings of allest verse mentioned, and better understanding of the subject by he boring non-generally was reported. The matter of proposed semi-amount conferences with the Knights of Labor was referred to the convention, but a union o be organizations was not recommended

the organizations was not recommunical.

Mr. Gompers strongly opposed any movement looking to independent polytical nation by organized labor at present. Results of local attempts in this line were cited to show the disastrous effects. A serious strain upon labor organizations was predicted for the coming winter, but the speaker added: "Unless every indication is incorrect we are within a year of an industrial revival which in activity

tion is incorrect we are within a year or an industrial revival which in setivity and intensity will far surpass that of any previous period."

The present time was suggested as op-portune for the inaugure on of a vigor-ous demand for an eight 1—tay and for a law prohibiting contract—the negoa law prohibiting contract ck on government improvements. The proposition to establish compulsory arbitration was denounced and the charge made that designing persons were advocating it as a means of destroying labor organizations "I beg to submit," said he, "that in few.

if any, instances, would awards be redered against the trades unions when the trade would be thoroughly organized, but during the period of organization, or through the anauthorized hasty action of a member, the entire union could be placed in peril, its future and its efficacy des-troyed, and the workers placed at the ten-

der mercles of their employers."

A letter was read from Carl Browne,
"General" Coxey's Heutemant, in which he congratulated the convention that i had no Gatling almed at it, and suggeste that it pass a resolution demanding that if engress enacts the currency law pro-posed by President Cleveland employers will hereafter be compelled to pay for labor in gold. The lotter was referred to the committee on resolutions, after which ar adjournment was taken until tomorrow morning at 8 o'clock.

The Aster Traing Convicted. NEW YORK, Dec. 11 -John Garvey, O. Bowery habitus who walked into a house of Mrs. William Aster and wh house of Mrs. William Aster and when found/was asless in a bed in a servine's chamber, was put upon trial yesterday for foloniously entering the house. He had been fined by a police justice for disarderly conduct, but John Jacob. Aster procured his indictment for the more surious of fense. Garrey was defended by a lawyer employed by a local newspaper, it being alloyed that the prisance was personnel

alleged that the prisoner was persecuted by wealth. The jury returned a verdict of guilty of unlawfully entering a house. Garvey was remanded until Thursday for sentence. The penalty may be one year's imprisonment, the crime being a misde

St. Jone's, N. F., Dec. 11.—The total number of failures yesterday was five, in addition to that of the Commercial Bank of Newfoundland. The falled firms are decidedly indebted to the Commercial bank Their Habilities cannot be ascertained but must amount to several millions of del lars. It will be impossible to revice the Communicial bank, but by careful flume get a return of 50 per cent, on their bold LIMES.

Drowned While Skating.

Easton, Pa., Dec. 11.—The first drowner while skating accident occurred yesterday to John E. Hower, of Penn Argyle. Hower, who was only 10 years old, was sknting with two or three boys about his ago on the ice which covered an abundoned state quarry, which was only one half an inch thick. The other toys made narrow escapes. The water in the quarry was twenty-five feet deep, and the body was recovered shortly after the accident.

TPHOLDING BROCKWAY

Governor Flower and the Elmira Reformatory "Outrages."

THE CHARGES ARE DISMISSED.

The Governor Declares That the Harrow Ing Tales of Crucky Reported Were Not Sustained by the Facts Brought Out in an Official Investigation.

ALBANY, Doc. 11 .- Governor Flower but fismissed the charges against the board of managers of the Elmira reformatory, in Brockway of crucity to inmates. The re-ports are as sent exclusively by the Asso-ciated Press yesterday, Dr. Flint and Mr. Deyo for the board and Judge Learned

lego for the board and Judge Learned against it.

The governor says that he has studied with great care both the majority and the minority reports, and concludes that corporal punishment has not been administered in such a way as to cause anybody any permanent injury. He concludes that the minagers are in no way to blame for the punishment inflicted. There should be a medical superintendent who should look after prisoners put under punishment, and see that it is not overdone. If Brockway erred he did so by not knowing how far a belligerent prisoner could endure physical punishment.

Judge Learned's report contends that there is absolutely no need for such vio-

there is absolutely no need for such vio-lent punishment as was given. Governor Flower in his opinion says:

Governor Flower in his opinion says:
"It is a source of great gratification that
the testimony shows, according to both
reports of findings, that there was no truth
in the harrowing statements published in
the newspapers of the injuries alleged to
have been indincted by the general superintendent or his subordinates upon inmates of the reformatory. Upon this point
all three commissioners find substantially
the same for and experience the managers
and the super-propagate."

were the put oner mys.

The purishment consisted almost consisted almost consisted almost consisted almost consisted almost consisted almost consisted by the general superintendent in person, with strap twenty-two inches long, three inche wide and three sixteenths of an inch thick moistoned in water so not to make it so moistoned in water as no to make it self-and pitable. The statements by wit-nesses, says Judge Learned, that they were struck over the kidneys seemed to have been made through ignorance of the place of those organs. Neither is there any disagreement between the commis-sioners as to the effect of the blows. Both agree that there was no flowing of blood."

The governor points out also that there is agreement in the reports that convicts is agreement in the reports that convicts were not shown to have fainted as a result of spankings. He concurs with the commissioners in regards to blows with the strap on the face and head of convicts as improper and unjustifiable. He specially disapproves the flogging in the cases of convicts Facey and Aaron, the latter under observation for insanity at the time.

As to the insupercy of contents unitable.

As to the frequency of corporal punish-near the governor cites statistics and con-dudes that, assuming the propriety of corporal punishment, the number is not excessive. He thinks this is largely a matter of opinion and asserts his agree-ment with the opinion of the majority. The law, he points out, should be made lear on the subject of corporal punish-

He also bespeaks an improved medical He also bespeaks an improved medical supervision. The use of a hot iron to force desperate convicts out of their cells he speaks leniently of, in view of the fact that no case is shown where they did not yield without being burned by the iron. He does not hold that there has been any brutality used by the reformatory officials. or that the power to grant parole ha

Governor Flower therefore finds, as above stated, dismissing the charges as
