"Courts of equity have extended their

and in a field heretofore entirely unknown
to such courts, and which action endangers
the personal liberty and rights of our citizens individually and collectively, and which, if not checked, may lead to serious

results to the regulate.

"While we recognize the rights of property, we also recognize that the right of personal liberty, consistent with good government, is over and above all other rights. and it should be the part of the govern-ment to protect the weak as against the strong, and see to it that no injustice is done to any citizen, be he high or low, and that equal protection is given to the hum-blest of the land. The American Federation of Labor, in convention assembled, most respectfully and earnestly demands at the bands of our law making body the enactment of such laws as will carry out the principles above set forth, to the end the principles above set forth, it are char that the people will not lose confidence in their judicial institutions, and thereby cause the very foundations of the republic to be endangered.

Sarah H. Smith, Pineville, Bucks county, Pa., says: "I was a great sufferer from rheumatism. I had the disease for over twenty-five years, and the torture I have undergone during the past quarter of a century no pen could describe. Every attack I had, my entire body was racked with pain, and I was in a terrible condition. I tried doctor after doctor and every remedy that could be suggested, but all with the same result. None of them ever gave me the slightest relief. I had had the disease so long that it had become chronic when I began to use Munyon's Rheumatism Cure. It was not long before I felt a great deal better, and after using it a short time the rheumatiam left me. I have not had a trace of it since, and am convinced that I am permanently cured.

BLIXT'S NOVEL DEPENSE

CASE AGAINST THE HAYWARDS.

The Valley of the Account Men Declares That Ris Some Will be Acquitted, and That Astry's Confession Will be Satisfactority Explained.

MISSUACCUS, Dec. 10.—W. W. Hay-ward, livery's father, today declared that both of his sons would be cleared, that Blixt was confessedly a notorious liar, and that his various confessions would have no weight. He added that the evidence was that Blixt was in the power of a gang. and committed the crime under their die tation, with the understanding that if discovered it should be ascribed to Harry Hayward. This gang he added, was not composed of Minneapolis people. Mr. Hayward refused to account for the be-havior of Adrian, the older brother, say-

ing it would be explained later.

Mrs. Claus A. Blixt yesterday made long and succient statement to R. R. O'Dell, her husband's attorney, the pur-port of which was that she had long known of the immense influence exerted over her husband by Harry Hayward. She had tried in vain to counteract it. Blixt said several times that Hayward would be the death of him, and that he dared not to disobey him. Just before the crime Blixt went around like a man in a dream. It was hard to attract his attention and his memory became defective. Hayward im-pressed on Blixt what he had to do many times a day, and kept the idea of the crime constantly before him, according to the wife's statement.

This evidence is to be used in connection This evidence is to be used in connection with that of Blixt's father and brother to show that the man was of a temperament most susceptible to an influence that approached the hypnotic in its character. It proached the hypnotic in its character. It is a question as to whether the court will permit testimony of a hypnotic character, but the defense will make a strong effort to show at least that Bixt was not a free moral agent when he committed the crime. This line of defense will make the trial a most novel one in criminal annals.
