#### FRIDAY, DECEMBER 21, 1894.

EXPERTS are about evenly divided as to whether the protracted and exhilarating silence of old Mr. Peffer indicates the dawn of lucid reason or apperiod of intellectual coma.

THE regulations for the collection of the income tax contain more than 75,000 words, and careful examination shows that they are only little less ridiculous than the tax itself.

THE Berliner patent has been declared void. What we want to know is whether it is going to cost less money to say hello over the telephone wire, and whether we can say it with less trouble than formerly,

I't is charged against Secretary Gresham by some of his critics that he has blundered grossly in his action with reference to the outrages in Armenia. Apparently these captious persons wholly forget that Mr. Gresham seems to believe that that is what he is there for.

THE longest distance a letter can be carried within the limits of the United States is from Key West, Fla., to Ouna laska, 6,271 miles; and all for two cents! People who would save money will at once start for Key West or Onnalaska and so address their correspondence that they shall get their full money's worth.

WHEN quacks like Mr. Carlisle begin to tinker with the currency, capital begins to convert itself into gold and seek hiding places in secret vaults. The financial policy of the Administration bears all the outward signs of a well planned scheme to retard the great business revival of which the result of the November election was the promise.

PRESIDENT CLEVELAND has shaken Congress off his hands temporarily, and gone down the coast on a revenue cutter to institute the Democratic policy of destruction among the canvas-back ducks. If the gentleman's aim is no better than it has proved in his gunning expeditions against the American eagle, his present trip is not likely to result in any alarming sinughter.

Where the lender is passionately eager to get his notes into circulation, he is apt to make onns which at other times would be reected as unsafe. Instead of helping the

Treasury, this financial revolution would enormously increase existing distrust. Indeed, before any such bill as that of the Administration could pass, the withdrawal of gold from the Treasury would probably suffice to convince almost every me, if not President Cleveland himself, hat the plan could not be carried without disaster. Persistency and obstinacy are sometimes valuable. But obstinate blindness in the presence of danger, perdistent refusal to see facts which conflict. with partisan purposes, are not qualities tending to produce wise financial management. The best thing that can be done with the wildcat bank bill is to kill it at once, and thus to stop an agitation and an uncertainty which are preventing the

The Gold Excitement at Leadville.

DESVER, Dec. 21 .- Recent great gold trikes at Leadville are causing great ex-licement in mining circles. Trains to the aup are crowded, and the Denver, Leadcille and Gunnison railroad is preparing to pal on extra trains to accommodate

travel. Gold strikes have been numerous in Lendville the past two years, but none ave attracted as much attention as the two latest. In the Rex and Triumph mines, chich established the fact that the gold belt extends at least three miles, the two discoveries being that for apart. The prospect is that Londville in 1895 will be the largest gold producer in the world.

Our Consul Will Investigate the Armenian Horrors.

HE WILL ACT INDEPENDENTLY.

Though Accompanying the Turkish Com mission, He Will Not Act in Conferetion with That Body, Much to the Disgust of the Turkish Government.

WASHINGTON, Dec. 21.—Secretary of State Greening saw by appointment a del-egation of Christico clergymen, repre-senting the Congregational churches of New York, in relation to the state of af-New York in Francische für sinde of al-foirs in Armenia. Rev. Dr. Josiah H. Strong of Boaton, general accestary of the Evang Real Alliance of the United States, was also of the parity. Their pur-pose, as explained of length by them, was to secure a thorony a impulity by the United States into the state of Christians in Ar menla and in other Turkish province und to have the United States bring presure to bear upon the treaty powers who guaranteed the welfare of these people in the treaty of Berlin to have these powers carry out their obligations. The delegation was burdened with in-

numerable resolutions adopted by mass meetings and gatherings of the various Christian sects, all calling for more energy on the part of this government in the mat ter. These requests were in three parts First. That the president would accept the sultan's invitation and sand a representa-tive with the commission. Second The consular service in Turkey should be ex-tended, so as to afford more adequate protenden, so as to known more andquate pro-tection to Armonians. Third, That the United States use its good offices, as far as its foreign policy would permit, in secur-ing IDerry of conscience and personal rights in Turkey.

Secretary Gresham listened attentively to the deputation. He said in reply that Mr. Jewett, the United States consul at Sivas, had been instructed to accompany the Turkish investigating commission b the district in which the alleged atrociti were committed, for the purpose of mak ing a full and impartial investigation for the information of this government. He added that Mr. Jewett would not be a member of the Turkish commission, but would act entirely independent of that body.

The latest information from Constantinople is to the effect that the Turkish gov ernment does not desire to have Mr. Jew att accompany the commission under th restrictions imposed by his instructions, His orders have not been revoked, how ever. In regard to the last two points the secretary was guarded in his reply. He gave the ministers to understand, how He ever, that he should recommend congreto increase the number of consuls, and would do what he consistently could to ameliorate the condition of the Armenia

Shortly after the factory started it was closed by the authorities, who said the smoke was spolling the buildings. Tar-zian demanded a rebate of his locanse fee, but this was refused and he was arrested on a trumpted up charge. He laid claim to being an American citizen, and produced his papers, but the judge tore the papers to bits and refused to allow Tar-gian to send a message to Consul Mitchell. He was thrown into prison, and remains there yet. Rev. Mr. Patasian, formerly of Rawley, Mass., a young Baptist missionary, has also been imprisoned
