The annual shipments of snails from France to the United States amount to more than 200,000 pounds.

Successes would like to pass a resolution against any more bond issues, but say, "What is the good when the president would refuse to sign it?"

Despite the German exclusion of our men, the Red Cross has asked the duty on its own to permit their own trucks to pass.

It looks as if the House as though the English Government were stirring up nights calling for a reasonable pretext for interfering in the way between China and Japan.

It was found that of 238 snails examined in the Wellington Hospital, New Zealand, not one was a Helix, and the majority of these people from the disease is ascribed to their ignorance regarding the slaughter of snails.

THE ARMENIAN INQUIRY

Our Representative Will Take No Part in It.

TURKISH GOVERNMENT OBJECTS.

The Attitude of the People in This Country in Denouncing the Atrocities Has Convicted the Porte That It Would Place Its Interests in Danger.

CONSTANTINOPLE, Dec. 28.—The sultan made a final reply to the application of United States Minister Terrell for permission to have Mr. Jewett make an independent inquiry into the Armenian outrages.

WASHINGTON, Dec. 28.—The refusal of the sultan to allow Mr. Jewett to perform the mission with which he was charged by President Cleveland was not unexpected at the state department.

The reluctance of the Turkish government to accede to its request is accounted for by the favorable disposition to which the agitation in the United States in favor of intervention on behalf of the Armenians in Turkey has attained.

It does not appear that there is any way of going behind this decision, for Mr. Jewett, being refused permission to investigate in his capacity as an officer of the United States, could not undertake it safely as an individual.

Subsequently Sheriff Thrasher visited the scene of the trouble. He found the road closed, and the citizens assured him there would be no more trouble, as they returned to Quitman and the Valdosta Volunteers left on the afternoon train for Valdosta. The negroes were killed because they were supposed to know the names of the white people, who were supposed to have the incentive to lawlessness. Good citizens of the county will do their utmost to bring to justice the men who are responsible for the trouble.
